

Appendix E

Countries That Have Standard Character Marks or the Equivalent

Purpose: The purpose of this appendix is to assist in determining for which countries it is unnecessary to inquire whether and/or confirm that the mark as registered in the foreign registration is in standard characters or the equivalent.

Explanation: The Office currently requires examining attorneys to inquire whether a mark in a foreign registration is in standard characters or the equivalent. TMEP §807.03(f). The following list is of countries that have been determined to register marks that are in standard characters or the equivalent. Please note that “country” refers to the country of the foreign registration upon which the applicant relies to obtain registration under §44(e). Thus, for countries on this list, provided that all letters and words in the mark in the foreign registration are in block capital or capital and lowercase Latin characters, all numerals are Roman or Arabic numerals, the mark includes only common punctuation or diacritical marks, and no stylization of lettering and/or numbers is claimed, the examining attorney need not inquire whether the registered mark in the foreign registration is in standard characters or the equivalent, unless the applicant has indicated that the mark is *not* standard characters or the equivalent.

If the applicant has indicated that the mark is *not in* standard characters or the equivalent, but the foreign registration is from a country on the list and the mark meets the standards set forth in the preceding paragraph, the examining attorney must inquire about the discrepancy. In response to the inquiry, the applicant must either amend the application to claim standard characters, or confirm that the mark is not in standard characters or the equivalent. If a particular country is not on this list, the examiner must inquire as to whether the mark in the foreign registration is for a mark in standard characters or the equivalent.

COUNTRY LIST

ALBANIA
ARGENTINA
AUSTRALIA
AUSTRIA
BELGIUM (Benelux Nations)
BELIZE
