### WARNING

Non-secure communication and information exchange is extremely vulnerable to hostile exploitation through monitoring. Do not attempt to "talk around" a classified or sensitive subject. Accumulated bits of seemingly "unimportant" information collected through continued monitoring when analyzed can provide hostile intelligence services with vital National Defense information. (Army Regulations 330-5 and 530-2). Unofficial use of DSN, FTS 2001 and any other Department of Defense (DoD) funded telephone system is prohibited. Personnel found fraudulently using DoD telephone systems are subject to be disciplined to the maximum extent possible. Individuals found placing unofficial toll calls will pay for incurred charges (Army regulation 25-1). Third party monitoring of a telephone conversation is prohibited unless all parties give consent. This also applies to use of hands-free speaker telephones when more than one person is present at the hands-free location. It is a misdemeanor for anyone to use the telephone as a means of conveying obscene or indecent language or to make anonymous or repeated calls to annoy, abuse, embarrass or harass. Do not process, store or transmit classified information on non-secure telecommunications systems. Official DoD telecommunications systems, including telephones, facsimile machines, computer networks and modems, are subject to monitoring for telecommunications systems constitutes consent to telecommunications security monitoring.

**TELEPHONE SERVICE INFORMATION**

FORT JACKSON DIRECT DIAL .....(803) 751-XXXX  
FORT JACKSON DSN ..... 734-XXXX  
ON POST DIALING ..... 751-XXXX

Fort Jackson Telephone Network uses FTS2000 for long distance service and Defense Switch Network (DSN) for Official Communications.

From an official Fort Jackson Government telephone, dial the number "751" and the last four digits of the telephone number. For example: "751-XXXX." Dial the number "99" to obtain an outside line for local and long distance calls. To place a telephone call via DSN, dial "94" then the DSN prefix for the particular installation and the number. Direct dial, long distance calls via commercial carriers cannot be made from the Fort Jackson exchange. OCONUS calls require a control number issued by the Staff Duty Officer and provided to the Telephone Operator who actually places the call.

**TELEPHONE TROUBLES** —To report official telephone service problems, broken phones, bad ringers, and cut or down lines, call 15. To report problems with commercial service, dial 780-2355 as indicated in the front of the Southern Bell Phone Book.

**NEW/CHANGED SERVICE** — To request new service or changes to existing service (moves, features, etc.), submit a Department of the Army Form 3938, "Local Service Request," to your unit Information Management Systems Control Officer (IMSCO). He or she will verify, approve and forward them to DOIM. DOIM will not accept or process telephone work orders which have not been signed by the IMSCO.

**CHANGES TO TELEPHONE DIRECTORY**—Any changes in organization names, activations and deactivations, relocations, or use of certain phone numbers or personnel position titles should be submitted on a Department of the Army Form 3938, "Local Service Request" through the unit IMSCO to DOW so the directory listings can be updated. Activities that relocate to new facilities, or deactivate, or require changes in current service, should submit DA Form 3938 to have official service changed or disconnected (each action should be noted on a separate W.O.).

**SPECIAL TELEPHONE EQUIPMENT**—IAW DA Pamphlet 251-1, Installation Information Services, Aug. 27, 1991, paragraph 3-4.9.1, any special communications equipment to include, but not necessarily limited to telephone instruments, FAX machines, answering machines, computer modems, speaking devices and broadcast devices must be approved in writing by the DOIM prior to connection to an official telephone network. Requests for special equipment should be made to the DOIM Network/information Center using the Capabilities and Requirements (CAPR) Form.

**CLASS OF SERVICE**

These are the basic classes of service:

CLASS 0 – accesses on post numbers only.

CLASS 1 – accesses numbers on post and within the local Columbia area.

CLASS 3 – accesses on post numbers and 1-800 only.

CLASS 5 – accesses numbers on post, Columbia area, DSN and FTS 2001.

CLASS 9 – accesses on post and DSN numbers

CLASS 14 – all access, including 24-hour long distance, requires justification and DOIM approval.

CLASS 15 – on post, local Columbia area and DSN.

CLASS 18 – restricted TISI dial-up access.

**LIMITATION OF AFTER-DUTY ACCESS TO LONG DISTANCE SERVICE AND TELEPHONE CONTROL NUMBERS**

Access to long distance or FTS 2001 service is restricted Monday through Friday, between 5:30 p.m. and 7:30 a.m. and all day Saturday, Sunday and holidays. Emergency personnel and certain duty officers still have long distance access. Other personnel who need to place an official long distance call during these hours of restricted access are required to have a telephone control number before the call will be placed. To obtain a telephone control number, contact your respective Unit's designated agent. The Post Staff Duty Officer no longer issues telephone control numbers; each Unit, Directorate and Activity issues them. The Post Operator will place the call when a valid telephone control number is provided.

**IDENTIFYING DIAL-UP DATA LINES**—All data line jacks should have the telephone number written on the jack. If it has been inadvertently erased or painted over the phone number can be obtained by plugging a pushbutton phone into the jack and dialing 15; the Operator will tell you the phone number. This will facilitate reporting trouble on the line.

**TELEPHONE FEATURES**

Available telephone features are listed below. To activate these features you need only use the switchhook flash or a combination of the switchhook flash, the \* key and the access code. The first three features are available on all single-line, touchtone telephones. Other features must be requested on a Department of the Army Form 3938.

- **CALL TRANSFER** - Allows a phone to transfer a call to another phone.  
–switchhook flash/dial number/hang up
- **LAST NUMBER REDIAL** - Will redial the last number dialed from the phone.  
–access code (11 or #)
- **THREE-WAY CONFERENCE** - Allows a phone to have a three party call of on-post members only.  
–switchhook flash (1st party is now on hold)
- **CALL HOLD** - Allows any phone to place a call on hold against that phone.  
–switchhook flash/access code (\*78)
- **CALL PICK-UP** - Allows a phone to answer any incoming call to any other directory number in that pick-up group.  
–push \*, then access code (74).
- **SPEED CALL (LONG)** - Allows a phone access to a speed call long list.  
–access code (\*77)
- **RING AGAIN** - Notifies a user when a busy military number becomes idle.  
–to activate: switchhook flash/access code (\*75)  
–to cancel: Lift handset/access code (\*76)
- **CALL FORWARD** - Allows you to program your telephone so that calls to your extension will ring at another number.  
–to activate: push \*, then access code (70)/dial number of forward station.  
–to cancel: Lift handset/push \*/access code (71)

**FLEXIBLE STATION-CONTROLLED CONFERENCE**—Allows a user to establish a conference call consisting of up to six parties without the assistance of an attendant.  
–switchhook flash/access code (\*80) to set-up conference  
–switchhook flash/access code (\*80) to release conference

- **SPEED CALL (SHORT)**— Allows a phone access to a speed call short list.  
–access code (\*76)/one digit code
- **CALL WAITING** – Alerts a phone that a third party is calling it.  
–switchhook flash/ (1st party is now on hold)
- **PERMANENT HOLD** – This feature allows you put an active call on hold and return the handset to the cradle.  
–switchhook flash/access code (78)

**BOMB THREAT PROCEDURES**

**DIAL 9-1-1 FOR ALL EMERGENCIES**

If you receive a bomb threat DO NOT hang up the telephone. Use another telephone to notify the Military Police. If another telephone is not available, then you must use the same instrument. Either way, call the Military Police at ext. 3113/3114/911. If possible danger to life or property is involved, alert everyone and vacate the area. Use the following chart as a guide when receiving or reporting a bomb threat.

**QUESTIONS TO ASK:**

- When is the bomb going to explode?
- Where is the bomb?
- What does it look like?
- What kind of bomb is it?
- What will cause it to explode?
- Did you place the bomb?
- Why?
- What is your name?
- What is your address?

**RECORD THE EXACT WORDING OF THE THREAT:**

Sex of caller: \_\_\_\_\_ Age: \_\_\_\_\_ Length of call: \_\_\_\_\_

Number where call was received: \_\_\_\_\_

Time: \_\_\_\_\_ Date: \_\_\_\_\_

Name: \_\_\_\_\_

Position: \_\_\_\_\_

Phone Number: \_\_\_\_\_

**IF VOICE IS FAMILIAR WHOM DID IT SOUND LIKE?**

*CALLER'S VOICE*

- |            |            |                   |

| • Well-spoken (educated) |         | • Irrational |
| • Message read to caller |         |              |

**REPORT CALL IMMEDIATELY TO MILITARY POLICE**

**TORNADO PROCEDURES**

Tornadoes occur frequently in South Carolina with March, April and May being the peak months. There may be little to no advance warning and tornadoes are extremely unpredictable. Measures to protect yourself and your family must be taken immediately.

## SECTION I: General Information

**TORNADO WATCHES** are issued by the National Weather Service (NWS) and mean that conditions are favorable for the formation of tornadoes. Monitor radio and television and listen for the Fort Jackson Tornado Warning Siren. Prepare to take shelter immediately.

**TORNADO WARNINGS** are also issued by the NWS and mean that tornado formation is imminent or a tornado has actually been sighted. If you see a NWS Tornado Warning on television, for the Fort Jackson area, or hear the Fort Jackson tornado-warning siren, TAKE SHELTER IMMEDIATELY.

**TORNADO SIREN**, the mass notification system (tornado warning siren) is currently located on fifteen towers across the cantonment area. When a tornado warning pertinent to the Fort Jackson area is received from the National Weather Service (NWS) at either the Emergency Services Center (ESC) or the Installation Operation Center (IOC), either one or both of those locations can activate the tornado warning.

The tornado warning consists of a 15-second pulsed steady tone followed by the announcement "Your attention please. A tornado warning is in effect for the Fort Jackson area. Fort Jackson is in imminent danger of severe weather. Take shelter immediately," with one repetition.

When the danger has passed, the ESC or the IOC will issue the "all clear" which is a 15-second pulsed steady tone followed by, "Your attention please. All clear, the danger has passed and Fort Jackson is no longer in an emergency status. You may resume normal activities," with one repetition.

In addition to the "canned" messages that the system is capable of delivering, there is a public address system capability at both the ESC and IOC. This enables the operator to speak over any of the towers independently, in small groups, or across the entire system in order to issue special warnings and instructions.

The Mass Notification System is tested every Wednesday at 11:30 a.m. If bad weather actually threatens at that time, the test will be cancelled.

### TORNADO SAFETY

While there is no place that is 100 percent safe during a tornado, some are safer than others.

#### TAKE SHELTER:

- In an interior closet.
- Under interior stairs.
- In a bathroom, (interior if possible).
- Next to a bed with the mattress over you.

#### STAY AWAY FROM:

- Windows. Flying glass is the greatest danger.
- Heavy objects such as appliances and bookshelves.
- Corridors facing the wind.

#### IF AWAY FROM HOME:

- If in a motor vehicle, get out and seek shelter. If no shelter is available, seek a depression or ditch. DO NOT attempt to take shelter under an overpass.
- Get away from windows.
- Get low, protect your head.
- Avoid trees, poles and power lines.

**THUNDERSTORM WATCHES** are issued when the National Weather Service determines that conditions are right for the formation of a thunderstorm. You should monitor a radio or television to see if severe thunderstorms are predicted to pass through the area. Keep listening to the radio or television for updates.

**THUNDERSTORM WARNINGS** are issued when a thunderstorm actually exists and is predicted to hit this area.

Remain indoors. If in the field, ground weapons and move to a lightning shelter area.

### MINIMIZE LONG DISTANCE TELEPHONE TRAFFIC IN AN EMERGENCY

When an actual or simulated emergency arises, or is anticipated, it is necessary to reduce the volume of record and long distance telephone traffic ordinarily transmitted over U.S. Military Networks. This action is required to facilitate prompt transmission of essential traffic, which must be transmitted electronically to avoid a serious impact on mission accomplishment or personnel safety.

Notification will be transmitted by the Joint Chiefs of Staff (JCS) or the Command concerned, as appropriate, MINIMIZE will be automatically imposed upon declaration of a defense emergency. The Joint Chiefs of Staff or Command concerned will convert to MINIMIZE when it is no longer required.

During periods when MINIMIZE is imposed over voice communication, authority to originate or certify long-distance telephone calls will be limited to the Commander or his designated representative within the command or activity, normally the Information Management Systems Control Officer (IMSCO).

Upon notification the MINIMIZE is imposed, switchboard operators will advise the person for whom calls are pending of the MINIMIZE condition. All calls placed subsequently must be authorized according to the Joint Uniform Precedence System.

### ACTION HOTLINES

Fort Jackson's leadership is concerned about the overall quality of life of its Soldiers, civilian employees, and family members. This philosophy has helped maintain a true community of excellence. To maintain a safe, pleasant environment conducive to the well being of the Fort Jackson family, as series of telephone hotlines have been established for community members to voice their concerns.
