

It's Transfer Season!

A look at how the Special Needs Program can support you and your family through this time of transition.

Transferring from one locale to another has its challenges for every family who have made a commitment to the Coast Guard. But, for families with special needs those challenges can be especially great. The Special Needs Program can support your family through the transfer process by:

1. Working with you as you identify specific areas for your pick list;
2. Helping you to research the availability of doctors, specialists, school settings, housing needs, and community supports in your new locale;
3. Recommending the most appropriate assignments to your detailer as decisions are made; and
4. Working with you and your family before and after the transfer to ensure a seamless transition to your next station.

If you are already enrolled in the Special Needs Program, please call your ISC Work-Life office and schedule some time to work with your specialist on your upcoming move. If you think you may have a family member with a special need because of an ongoing illness and/or a child receiving special services at school, please call us at **(206) 217-6612**. We will be happy to answer any questions you may have concerning the program.

The Special Needs Program is here for you. We are in the business of supporting the whole service member and his/her family, to make sure you can truly be *Semper Paratus*.
