## **USAF BRAC 2005 Description of Contents**

| USAF ContentsYou are reading this document now.Installation ListThis document lists the USAF installations and HQ<br>units that were asked questions by the data calls, plus<br>the unique "orgid" used to identify their data. This is<br>essential for making sense of the information in the xls<br>data files. The "orgid" of 216 was used to hold Range<br>data that was identical regardless of installation.Section ListLists the sections (or groupings) of questions.Sections 1-10, 11-20, 21-30<br>and 31-41A set of zip files that contain spreadsheet files (xls)<br>listing the answers for all installations for questions<br>asked of USAF installations during the data calls.<br>Each file contains all the answers for each installation<br>for a single question. The file names start with the<br>section number and an abbreviation of the section title,<br>followed by the question number and an abbreviation<br>of the question title. The "orgid" of 216 was used to<br>hold Range data that was identical regardless of<br>installation.USAF Analysis DataAs above, but only includes those questions that were<br>used in the USAF analysis. Also includes a file with<br>the text of the questions in it.MCI Score SheetsTwo files, listing the MCI scores for each MCI for<br>each Base, broken down into the individual formula<br>scores. One file shows the formulas in the same order<br>for each base, one files shows the formulas in "most<br>lost points first" order.MCI Formula Sheets e-MAs above, but E thru H.MCI Formula Sheets i-OAs above, but E thru H.MCI Formula Sheets i-OAs above, but P thru Z.   | OUAI DIVAC 2003 DE     |   |
