Ms. Espinel and the Obama Administration,

I just wanted to share with you the importance of copyright and my intellectual property rights as a photographer. For more than 30 years I have been self-employed as a freelance photographer here in Columbia, SC. Since 1984 I have been a general member of ASMP and have learned my business practices from this outstanding trade organization. From time to time over the years I have had my rights infringed upon and without the benefit of Federal Copyright Law I can safely say that my career would not be as successful. I depend on copyright law to protect my artistry and creative works.

Best,
Brian

Our best clients say that the quality of the photography we provide represents their products and services well and is a reflection of their firm's values.
