Dear Ms Espinel,

I am a working professional photographer and a Lifetime Member of ASMP based in Trenton, NJ.

As you can understand, I am most concerned with keeping the copyright to more than 5,000 photographs that I have taken over the past 50 years, especially with the advent of the Internet and digital copying opportunities for unlawful use of my work and livelihood.

I am especially worried that the Obama Administration is even considering further weakening the protection of my intellectual property and urge you to take steps to STRENGTHEN the laws pertaining to Copyright and intellectual property for photographers and all other creative workers.

I'll be glad to testify in this regard should you so desire.

Respectfully,

Jon Naar ASMP
