Subject: ORPHAN WORKS BILL
Date: Friday, March 19, 2010 8:07:02 AM

Every area of our society is being attacked by the greedy. We need to protect our artists. It is next to impossible for an artist to copyright every single piece of art work they produce. We need to get back to some core values and respect the rights of all artists and not just allow the rich to make money off our often starving artists. Please oppose this bill. Thank you, Margaret OConnor
