The Copyright Alliance has informed me of this welcome invitation from the Obama Administration to share my thoughts on my rights as a creator. I know intellectual infringement hurts me and my industry. Photography is a tough business and making money is extremely hard. The art and the industry will suffer if people are allowed to infringe on our intellectual rights. Please take the steps to make it harder for people and corporations to steal our rights and way of life. I am a college student and freelance photographer from California and I am in favor of stricter intellectual rights. Thank you for your time and consideration.

Sincerely,

Diego James Robles
