a message from you to the veteran, providing VA has a current address on record.

Write your message to your friend and place it in an unsealed, stamped envelope. Include a note to VA explaining who it is that you are trying to reach and add as much identifying information as you have. Put all of this in another envelope and address it to the nearest VA Regional Office.

If the veteran is in VA records, your message to the veteran will be sealed and the envelope will be sent to the address on file for the veteran. It is then up to the veteran to contact you. This process is designed to protect the privacy of veterans as required by law. If you have questions, you may call VA at 1-800-827-1000.

You may also contact the Women In Military Service for America Memorial (WIMSA) located at the ceremonial entrance of Arlington National Cemetery in Arlington, VA, at [www.womensmemorial.org](http://www.womensmemorial.org) or by telephone at 1-800-222-2294.

Members of the National Guard activated for federal service during a period of war or domestic emergency may be eligible for certain VA benefits, such as VA health care, compensation for injuries or conditions connected to that service and burial benefits. Activation for other than federal service does not qualify Guard members for all VA benefits.

This benefit covers all illnesses and injuries except those clearly unrelated to active military service. For more information call 1-877-222-8387. Polytrauma care is available for veterans who sustained an injury to the brain in addition to other body parts or systems resulting in physical, cognitive, psychological, or psychosocial impairment and functional disability. The polytrauma system of care consists of four levels: Level I (comprehensive care), Level II (specialized care), Level III (follow-up care), and Level IV (lifelong care). To coordinate care, consult with a VA primary care physician or a Women Veterans Program Manager at the local VA medical center.

**The Transition Assistance Program (TAP)** was established to meet the needs of separating service members during their period of transition into civilian life by offering job-search assistance and related services. The law creating TAP established a partnership among the Departments of Defense, Veterans Affairs, Transportation and the Department of Labor's Veterans' Employment and Training Service (VETS), to give employment and training information to armed forces members within 180 days of separation or retirement. TAP helps service members and their spouses make the initial transition from military service to the civilian workplace with less difficulty and at less overall cost to the government. TAP consists of comprehensive three-day workshops at selected military installations nationwide. Professionally-trained workshop facilitators from the State Employment Services, military family support services, Department of Labor contractors, or VETS' staff present the workshops.

Transition resources are available to both active duty and Guard/Reserve members at the [www.turboTAP.org](http://www.turboTAP.org) portal.
