PRINCIPLES OF FEDERAL APPROPRIATIONS LAW

Second Edition

Volume V

GAO will not update Volume V of the Second Edition of the Principles of Federal Appropriations Law. The electronic version of Volume V of the Second Edition (index and table of authorities for the Second Edition) will continue to be available to support research in Volume III of the Second Edition at <http://www.gao.gov/products/GAO/OGC-94-33>.

Foreword

Volume V completes the second edition of the Principles of Federal Appropriations Law—more commonly known as “the Red Book.” This volume provides detailed tables of authorities and an index covering all four previous volumes.

We recognize here Bridget Beverly, Janet Brooks, Susan Brooks, Bob Centola, Lydia Koeller, Lin Morss, Neill Martin-Rolsky, Kate Mertes, Nancy Mufti, Wanda Okoro, and Stephen Palincsar, who made major contributions to the production of this volume. We also thank our readers for their support of the preceding volumes.

We trust that the Red Book continues to serve as a useful reference. In November, 1942, Sir Winston Churchill, gave a speech in which he said, referring to another, somewhat larger endeavor: “Now, this is not the end. It is not even the beginning of the end. But it is, perhaps, the end of the beginning.” We expect this to be true of the Red Book, as well.

U.S.C.	United States Code (Federal Laws)	T-255

Notes:

¹ The compilation of these tables has revealed a number of errors and inconsistencies in the citations contained in the text of Volumes I through IV. For ease and simplicity of use, these tables report the citations as they presently appear in the text of those volumes, notwithstanding citation errors and inconsistencies. Occasional notes in the tables provide cross-references between correct and incorrect citations in order to provide the reader with more complete access to information on how the cited authority is treated in the text.

² Court cases are published (and cited) in many different reporters. These are just a few of the more commonly cited ones which appear in the Principles of Federal Appropriations Law. Each court case has a name derived from the parties to the case (i.e., Plaintiff v. Defendant). Court cases are filed alphabetically by that name in the table entitled "Court Cases." Usually, the case is filed under the Plaintiff's name; but if the Plaintiff is the United States, the case is filed under the defendant's name, instead. (This makes the table easier to use, and provides an exception sufficient to "prove the rule.")
