

Inside bin Laden's compound

The daring raid on Osama Bin Laden's secretive compound in Abbottabad, Pakistan, by U.S. Navy SEALs had been planned for months but was over in about 40 minutes.

The diagram below is based on a rendering released by the Department of Defense.

- 1** Two choppers carrying the SEALs landed inside the compound.
- 2** The SEALs encountered bin Laden and others inside the residence and killed the fugitive terrorist during a brief but intense shoot out. One of bin Laden's wives and one of his sons were also killed.
