¶38.8 MESSAGE FROM THE PRESIDENT—
FLOOD PLAIN MANAGEMENT

The SPEAKER pro tempore, Mr. KNOLLENBERG, laid before the House a message from the President, which was read as follows:

To the Congress of the United States:

It is with great pleasure that I transmit *A Unified National Program for Floodplain Management* to the Congress. The Unified National Program responds to section 1302(c) of the National Flood Insurance Act of 1968 (Public Law 90-448), which calls upon the President to report to the Congress on a Unified National Program. The report sets forth a conceptual framework for managing the Nation's floodplains to achieve the dual goals of reducing the loss of life and property caused by floods and protecting and restoring the natural resources of floodplains. This document was prepared by the Federal Interagency Floodplain Management Task Force, which is chaired by FEMA.

This report differs from the 1986 and 1979 versions in that it recommends four national goals with supporting objectives for improving the implementation of floodplain management at all levels of government. It also urges the formulation of a more comprehensive, coordinated approach to protecting and managing human and natural systems to ensure sustainable development relative to long-term economic and ecological health. This report was prepared independent of *Sharing the Challenge: Floodplain Management Into the 21st Century* developed by the Floodplain Management Review Committee, which was established following the Great Midwest Flood of 1993. However, these two reports complement and reinforce each other by the commonality of their findings and recommendations. For example, both reports recognize the importance of continuing to improve our efforts to reduce the loss of life and property caused by floods and to preserve and restore the natural resources and functions of floodplains in an economically and environmentally sound manner. This is significant in that the natural resources and func-
