So the amendment in the nature of a substitute was not agreed to.

After some further time, The SPEAKER pro tempore, Mr. TORKILDSEN, assumed the Chair.

When Mr. KLUG, Chairman, pursuant to House Resolution 116, reported the joint resolution back to the House.

The previous question having been ordered by said resolution.

The joint resolution was ordered to be engrossed and read a third time, was read a third time by title.

The question being put, viva voce,

Will the House pass said joint resolution?

The SPEAKER pro tempore, Mr. TORKILDSEN, announced that two-thirds of the Members present had voted in the affirmative.

Mr. CONYERS demanded a recorded vote on passage of said joint resolution, which demand was supported by one-fifth of a quorum, so a recorded vote was ordered.

The vote was taken by electronic device.

It was decided in the negative .....

NOT VOTING—3

de la Garza Frost Pomeroy

So, two-thirds of the Members present not having voted in favor thereof, the joint resolution was not passed.

¶52.16 WAIVING POINTS OF ORDER
AGAINST CONFERENCE REPORT ON H.R. 831

Mr. SOLOMON, by direction of the Committee on Rules, reported (Rept. No. 104-93) the resolution (H. Res. 121) waiving certain points of order against the conference report to accompany the bill (H.R. 831) to amend the Internal Revenue Code of 1986 to permanently extend the deduction for the health insurance costs of self-employed individuals, to repeal the provision permitting nonrecognition of gain on sales and exchanges effectuating policies of the Federal Communications Commission, and for other purposes.

When said resolution and report were referred to the House Calendar and ordered printed.

¶52.17 MESSAGE FROM THE PRESIDENT—
SCIENCE AND TECHNOLOGY
INVESTMENTS

The SPEAKER pro tempore, Mr. TORKILDSEN, laid before the House a message from the President, which was read as follows:

To the Congress of the United States:

This Nation's future depends on strong public and private support for science and technology. My Administration's decision to make sound investments in science and technology even as the Federal Government cuts other spending is premised on three basic assumptions:

- Technology is the engine of economic growth.
-Scientific knowledge is the key to the future.
-Responsible government advances science and technology.

The Congress and the American people can find evidence of the Administration's dedication to responsible government support for science and technology in our defense and economic policies as well as our management of the science and technology enterprise. We have decreased the Federal deficit, helped to create millions of new jobs, and improved the tax treatment of small businesses and of investments in research and development. Hemispheric and global trade agreements as well as relaxation of outdated export controls have opened huge export markets to America's high-tech industries. My National Security Strategy of Engagement and Enlargement (February 1995) depends on farsighted and efficient science and technology investments. Our foreign policy and security interests are also supported by mutually beneficial international cooperation in science and technology.

We have consistently endorsed technology policies to increase prosperity
