

¶67.12 ORDER OF BUSINESS—
CONSIDERATION OF AMENDMENTS—
H.R. 961

On motion of Mr. SHUSTER, by unanimous consent,

Ordered. That during the further consideration of the bill (H.R. 961) to amend the Federal Water Pollution Control Act, in the Committee of the Whole House on the state of the Union, the time for debate on the Boehlert substitute amendment to title VIII, and all amendments thereto, be limited to one hour; and the time for debate on the Gilchrest amendment to delete wetland delineation and wetland classification provisions, and all amendments thereto, be limited to thirty minutes.

¶67.13 CLEAN WATER AMENDMENTS

The SPEAKER pro tempore, Mr. BARRETT, pursuant to House Resolution 140 and rule XXIII, declared the House resolved into the Committee of the Whole House on the state of the Union for the further consideration of the bill (H.R. 961) to amend the Federal Water Pollution Control Act.

Mr. MCINNIS, Chairman of the Committee of the Whole, resumed the chair; and after some time spent therein,

¶67.14 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the Whole on the following amendment submitted by Mr. BOEHLERT:

Strike title VIII of the bill (page 239, line 3, through page 322, line 22) and insert the following:

TITLE VIII—WETLANDS CONSERVATION AND MANAGEMENT

SEC. 801. SHORT TITLE.

This title may be cited as the "Wetlands and Watershed Management Act of 1995".

SEC. 802. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds and declares the following:

(1) Wetlands perform a number of valuable functions needed to restore and maintain the chemical, physical, and biological integrity of the Nation's waters, including—

(A) reducing pollutants (including nutrients, sediment, and toxics) from nonpoint and point sources;

(B) storing, conveying, and purifying flood and storm waters;

(C) reducing both bank erosion and wave and storm damage to adjacent lands and trapping sediment from upland sources;

(D) providing habitat and food sources for a broad range of commercial and recreational fish, shellfish, and migratory wildlife species (including waterfowl and endangered species); and

(E) providing a broad range of recreational values for canoeing, boating, birding, and nature study and observation.

(2) Original wetlands in the contiguous United States have been reduced by an estimated 50 percent and continue to disappear at a rate of 200,000 to 300,000 acres a year. Many of these original wetlands have also been altered or partially degraded, reducing their ecological value.

(3) Wetlands are highly sensitive to changes in water regimes and are, therefore, susceptible to degradation by fills, drainage, grading, water extractions, and other activities within their watersheds which affect the

quantity, quality, and flow of surface and ground waters. Protection and management of wetlands, therefore, should be integrated with management of water systems on a watershed basis. A watershed protection and management perspective is also needed to understand and reverse the gradual, continued destruction of wetlands that occurs due to cumulative impacts.

(4) Wetlands constitute an estimated 5 percent of the Nation's surface area. Because much of this land is in private ownership wetlands protection and management strategies must take into consideration private property rights and the need for economic development and growth. This can be best accomplished in the context of a cooperative and coordinated Federal, State, and local strategy for data gathering, planning, management, and restoration with an emphasis on advance planning of wetlands in watershed contexts.

(b) PURPOSES.—The purposes of this Act are—

(1) to help create a coordinated national wetland management effort with efficient use of scarce Federal, State, and local financial and manpower resources to protect wetland functions and values and reduce natural hazard losses;

(2) to help reverse the trend of wetland loss in a fair, efficient, and cost-effective manner;

(3) to reduce inconsistencies and duplication in Federal, State, and local wetland management efforts and encourage integrated permitting at the Federal, State, and local levels;

(4) to increase technical assistance, cooperative training, and educational opportunities for States, local governments, and private landowners;

(5) to help integrate wetland protection and management with other water resource management programs on a watershed basis such as flood control, storm water management, allocation of water supply, protection of fish and wildlife, and point and nonpoint source pollution control;

(6) to increase regionalization of wetland delineation and management policies within a framework of national policies through advance planning of wetland areas, programmatic general permits and other approaches and the tailoring of policies to ecosystem and land use needs to reflect significant watershed variance in wetland resources;

(7) to address the cumulative loss of wetland resources;

(8) to increase the certainty and predictability of planning and regulatory policies for private landowners;

(9) to help achieve no overall net loss and net gain of the remaining wetland base of the United States through watershed-based restoration strategies involving all levels of government;

(10) to restore and create wetlands in order to increase the quality and quantity of the wetland resources and by so doing to restore and maintain the quality and quantity of the waters of the United States; and

(11) to provide mechanisms for joint State, Federal, and local development and testing of approaches to better protect wetland resources such as mitigation banking.

SEC. 803. STATE, LOCAL, AND LANDOWNER TECHNICAL ASSISTANCE AND COOPERATIVE TRAINING.

(a) STATE AND LOCAL TECHNICAL ASSISTANCE.—Upon request, the Administrator or the Secretary of the Army, as appropriate, shall provide technical assistance to State and local governments in the development and implementation of State and local government permitting programs under sections 404(e) and 404(h) of the Federal Water Pollution Control Act, State wetland conservation

plans under section 805, and regional or local wetland management plans under section 805.

(b) COOPERATIVE TRAINING.—The Administrator and the Secretary, in cooperation with the Coordinating Committee established pursuant to section 804, shall conduct training courses for States and local governments involving wetland delineation, utilization of wetlands in nonpoint pollution control, wetland and stream restoration, wetland planning, wetland evaluation, mitigation banking, and other subjects deemed appropriate by the Administrator or Secretary.

(c) PRIVATE LANDOWNER TECHNICAL ASSISTANCE.—The Administrator and Secretary shall, in cooperation with the Coordination Committee, and appropriate Federal agencies develop and provide to private landowners guidebooks, pamphlets, or other materials and technical assistance to help them in identifying and evaluating wetlands, developing integrated wetland management plans for their lands consistent with the goals of this Act and the Federal Water Pollution Control Act, and restoring wetlands.

SEC. 804. FEDERAL, STATE, AND LOCAL GOVERNMENT COORDINATING COMMITTEE.

(a) ESTABLISHMENT.—Not later than 90 days after the date of the enactment of this Act, the Administrator shall establish a Federal, State, and Local Government Wetlands Coordinating Committee (hereinafter in this section referred to as the "Committee").

(b) FUNCTIONS.—The Committee shall—

(1) help coordinate Federal, State, and local wetland planning, regulatory, and restoration programs on an ongoing basis to reduce duplication, resolve potential conflicts, and efficiently allocate manpower and resources at all levels of government;

(2) provide comments to the Secretary of the Army or Administrator in adopting regulatory, policy, program, or technical guidance affecting wetland systems;

(3) help develop and field test, national policies prior to implementation such as wetland, delineation, classification of wetlands, methods for sequencing wetland mitigation responses, the utilization of mitigation banks;

(4) help develop and carry out joint technical assistance and cooperative training programs as provided in section 803;

(5) help develop criteria and implementation strategies for facilitating State conservation plans and strategies, local and regional wetland planning, wetland restoration and creation, and State and local permitting programs pursuant to section 404(e) or 404(g) of the Federal Water Pollution Control Act; and

(6) help develop a national strategy for the restoration of wetland ecosystems pursuant to section 6 of this Act.

(c) MEMBERSHIP.—The Committee shall be composed of 18 members as follows:

(1) The Administrator or the designee of the Administrator.

(2) The Secretary or the designee of the Secretary.

(3) The Director of the United States Fish and Wildlife Service or the designee of the Director.

(4) The Chief of the Natural Resources Conservation Service or the designee of the Chief.

(5) The Undersecretary for Oceans and Atmosphere or the designee of the Under Secretary.

(6) One individual appointed by the Administrator who will represent the National Governor's Association.

(7) One individual appointed by the Administrator who will represent the National Association of Counties.

(8) One individual appointed by the Administrator who will represent the National League of Cities.

(9) One State wetland expert from each of the 10 regions of the Environmental Protection Agency. Each member to be appointed under this paragraph shall be jointly appointed by the Governors of the States within the Environmental Protection Agency's region. If the Governors from a region cannot agree on such a representative, they will each submit a nomination to the Administrator and the Administrator will select a representative from such region.

(d) TERMS.—Each member appointed pursuant to paragraph (6), (7), (8), or (9) of subsection (c) shall be appointed for a term of 2 years.

(e) VACANCIES.—A vacancy in the Committee shall be filled, on or before the 30th day after the vacancy occurs, in the manner in which the original appointment was made.

(f) PAY.—Members shall serve without pay, but may receive travel expenses (including per diem in lieu of subsistence) in accordance with sections 5702 and 5703 of title 5, United States Code.

(g) COCHAIRPERSONS.—The Administrator and one member appointed pursuant to paragraph (6), (7), (8), or (9) of subsection (c) (selected by such members) shall serve as co-chairpersons of the Committee.

(h) QUORUM.—Two-thirds of the members of the Committee shall constitute a quorum but a lesser number may hold meetings.

(i) MEETINGS.—The Committee shall hold its first meeting not later than 120 days after the date of the enactment of this Act. The Committee shall meet at least twice each year thereafter. Meetings will be opened to the public.

SEC. 805. STATE AND LOCAL WETLAND CONSERVATION PLANS AND STRATEGIES; GRANTS TO FACILITATE THE IMPLEMENTATION OF SECTION 404.

(a) STATE WETLAND CONSERVATION PLANS AND STRATEGIES.—Subject to the requirements of this section, the Administrator shall make grants to States and tribes to assist in the development and implementation of wetland conservation plans and strategies. More specific goals for such conservation plans and strategies may include:

(1) Inventorying State wetland resources, identifying individual and cumulative losses, identifying State and local programs applying to wetland resources, determining gaps in such programs, and making recommendations for filling those gaps.

(2) Developing and coordinating existing State, local, and regional programs for wetland management and protection on a watershed basis.

(3) Increasing the consistency of Federal, State, and local wetland definitions, delineation, and permitting approaches.

(4) Mapping and characterizing wetland resources on a watershed basis.

(5) Identifying sites with wetland restoration or creation potential.

(6) Establishing management strategies for reducing causes of wetland degradation and restoring wetlands on a watershed basis.

(7) Assisting regional and local governments prepare watershed plans for areas with a high percentage of lands classified as wetlands or otherwise in need of special management.

(8) Establishing and implementing State or local permitting programs under section 404(e) or 404(h) of the Federal Water Pollution Control Act.

(b) REGIONAL AND LOCAL WETLAND PLANNING, REGULATION, AND MANAGEMENT PROGRAMS.—Subject to the requirements of this section, the Administrator shall make grants to States which will, in turn, use this funding to make grants to regional and local governments to assist them in adopting and implementing wetland and watershed management programs consistent with goals stated in section 101 of the Federal Water

Pollution Control Act and section 802 of this Act. Such plans shall be integrated with (where appropriate) or coordinated with planning efforts pursuant to section 319 of the Federal Water Pollution Control Act. Such programs shall, at a minimum, involve the inventory of wetland resources and the adoption of plans and policies to help achieve the goal of no net loss of wetland resources on a watershed basis. Other goals may include, but are not limited to:

(1) Integration of wetland planning and management with broader water resource and land use planning and management, including flood control, water supply, storm water management, and control of point and nonpoint source pollution.

(2) Adoption of measures to increase consistency in Federal, State, and local wetland definitions, delineation, and permitting approaches.

(3) Establishment of management strategies for restoring wetlands on a watershed basis.

(c) GRANTS TO FACILITATE THE IMPLEMENTATION OF SECTION 404.—Subject to the requirements of this section, the Administrator may make grants to States which assist the Federal Government in the implementation of the section 404 Federal Water Pollution Control program through State assumption of permitting pursuant to sections 404(g) and 404(h) of such Act through State permitting through a State programmatic general permit pursuant to section 404(e) of such Act or through monitoring and enforcement activities. In order to be eligible to receive a grant under this section a State shall provide assurances satisfactory to the Administrator that amounts received by the State in grants under this section will be used to issue regulatory permits or to enforce regulations consistent with the overall goals of section 802 and the standards and procedures of section 404(g) or 404(e) of this Act.

(d) MAXIMUM AMOUNT.—No State may receive more than \$500,000 in total grants under subsections (a), (b), and (c) in any fiscal year and more than \$300,000 in grants for subsection (a), (b), or (c), individually.

(e) FEDERAL SHARE.—The Federal share of the cost of activities carried out using amounts made available in grants under this section shall not exceed 75 percent.

(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$15,000,000 per fiscal year for each of fiscal years 1996, 1997, 1998, 1999, and 2000.

SEC. 806. NATIONAL COOPERATIVE WETLAND ECOSYSTEM RESTORATION STRATEGY.

(a) DEVELOPMENT.—Not later than 180 days after the date of the enactment of this Act, the Administrator, in cooperation with other Federal agencies, State, and local governments, and representatives of the private sector, shall initiate the development of a National Cooperative Wetland Ecosystem Restoration Strategy.

(b) GOALS.—The goal of the National Cooperative Wetland Ecosystem Restoration Strategy shall be to restore damaged and degraded wetland and riparian ecosystems consistent with the goals of the Water Pollution Control Amendments and the goals of section 802, and the recommendations of the National Academy of Sciences with regard to the restoration of aquatic ecosystems.

(c) FUNCTIONS.—The National Cooperative Wetland Ecosystem Restoration Strategy shall—

(1) be designed to help coordinate and promote restoration efforts by Federal, State, regional, and local governments and the private sector, including efforts authorized by the Coastal Wetlands Planning, Protection, and Restoration Act, the North American

Waterfowl Management Plan, the Wetlands Reserve Program, and the wetland restoration efforts on Federal, State, local, and private lands;

(2) involve the Federal, State, and local Wetlands Coordination Committee established pursuant to section 804;

(3) inventory and evaluate existing restoration efforts and make suggestions for the establishment of new watershed specific efforts consistent with existing Federal programs and State, regional, and local wetland protection and management efforts;

(4) evaluate the role presently being played by wetland restoration in both regulatory and nonregulatory contexts and the relative success of wetland restoration in these contexts;

(5) develop criteria for identifying wetland restoration sites on a watershed basis, procedures for wetlands restoration, and ecological criteria for wetlands restoration; and

(6) identify regulatory obstacles to wetlands ecosystem restoration and recommend methods to reduce such obstacles.

SEC. 807. PERMITS FOR DISCHARGE OF DREDGED OR FILL MATERIAL.

(a) PERMIT MONITORING AND TRACKING.—Section 404(a) (33 U.S.C. 1344) is amended by adding at the end thereof the following: "The Secretary shall, in cooperation with the Administrator, establish a permit monitoring and tracking programs on a watershed basis to monitor the cumulative impact of individual and general permits issued under this section. This program shall determine the impact of permitted activities in relationship to the no net loss goal. Results shall be reported biannually to Congress."

(b) ISSUANCE OF GENERAL PERMITS.—Paragraph (1) of section 404(e) is amended by inserting "local," before "State, regional, or nationwide basis" in the first sentence.

(c) REVOCATION OR MODIFICATION OF GENERAL PERMITS.—Paragraph (2) of section 404(e) is amended by striking the period at the end and inserting "or a State or local government has failed to adequately monitor and control the individual and cumulative adverse effects of activities authorized by State or local programmatic general permits."

(d) PROGRAMMATIC GENERAL PERMITS.—Section 404(e) is amended by adding at the end thereof the following new paragraph:

"(3) PROGRAMMATIC GENERAL PERMITS.—Consistent with the following requirements, the Secretary may, after notice and opportunity for public comment, issue State or local programmatic general permits for the purpose of avoiding unnecessary duplication of regulations by State, regional, and local regulatory programs:

"(A) The Secretary may issue a programmatic general permit based on a State, regional, or local government regulatory program if that general permit includes adequate safeguards to ensure that the State, regional, or local program will have no more than minimal cumulative impacts on the environment and will provide at least the same degree of protection for the environment, including all waters of the United States, and for Federal interests, as is provided by this section and by the Federal permitting program pursuant to section 404(a). Such safeguards shall include provisions whereby the Corps District Engineer and the Regional Administrators or Directors of the Environmental Protection Agency, the United States Fish and Wildlife Service, and the National Marine Fisheries Service (where appropriate), shall have an opportunity to review permit applications submitted to the State, regional, or local regulatory agency which would have more than minimal individual or cumulative adverse impacts on the environment, attempt to resolve any envi-

ronmental concern or protect any Federal interest at issue, and, if such concern is not adequately addressed by the State, local, or regional agency, require the processing of an individual Federal permit under this section for the specific proposed activity. The Secretary shall ensure that the District Engineer will utilize this authority to protect all Federal interests including, but not limited to, national security, navigation, flood control, Federal endangered or threatened species, Federal interests under the Wild and Scenic Rivers Act, special aquatic sites of national importance, and other interests of overriding national importance. Any programmatic general permit issued under this subsection shall be consistent with the guidelines promulgated to implement subsection (b)(1).

“(B) In addition to the requirements of subparagraph (A), the Secretary shall not promulgate any local or regional programmatic general permit based on a local or regional government’s regulatory program unless the responsible unit of government has also adopted a wetland and watershed management plan and is administering regulations to implement this plan. The watershed management plan shall include—

“(i) the designation of a local or regional regulatory agency which shall be responsible for issuing permits under the plan and for making reports every 2 years on implementation of the plan and on the losses and gains in functions and acres of wetland within the watershed plan area;

“(ii) mapping of—

“(I) the boundary of the plan area;

“(II) all wetlands and waters within the plan area as well as other areas proposed for protection under the plan; and

“(III) proposed wetland restoration or creation sites with a description of their intended functions upon completion and the time required for completion;

“(iii) a description of the regulatory policies and standards applicable to all wetlands and waters within the plan areas and all activities which may affect these wetlands and waters that will assure, at a minimum, no net loss of the functions and acres of wetlands within the plan area; and

“(iv) demonstration that the regulatory agency has the legal authority and scientific monitoring capability to carry out the proposed plan including the issuance, monitoring, and enforcement of permits in compliance with the plan.”.

(e) GRANDFATHER OF EXISTING GENERAL PERMITS.—Section 404(e) is further amended by adding at the end the following:

“(4) GRANDFATHER OF EXISTING GENERAL PERMITS.—General permits in effect on day before the date of the enactment of the Wetlands and Watershed Management Act of 1995 shall remain in effect until otherwise modified by the Secretary.”.

(f) DISCHARGES NOT REQUIRING A PERMIT.—Section 404(f) (33 U.S.C. 1344(f)) is amended by striking the subsection designation and paragraph (1) and inserting the following:

“(f) EXEMPTIONS.—

“(1) ACTIVITIES NOT REQUIRING PERMIT.—

“(A) IN GENERAL.—Activities are exempt from the requirements of this section and are not prohibited by or otherwise subject to regulation under this section or section 301 or 402 of this Act (except effluent standards or prohibitions under section 307 of this Act) if such activities—

“(i) result from normal farming, silviculture, aquaculture, and ranching activities and practices, including but not limited to plowing, seeding, cultivating, haying, grazing, normal maintenance activities, minor drainage, burning of vegetation in connection with such activities, harvesting for the production of food, fiber, and forest

products, or upland soil and water conservation practices;

“(ii) are for the purpose of maintenance, including emergency reconstruction of recently damaged parts, of currently serviceable structures such as dikes, dams, levees, flood control channels or other engineered flood control facilities, water control structures, water supply reservoirs (where such maintenance involves periodic water level drawdowns) which provide water predominantly to public drinking water systems, groins, riprap, breakwaters, utility distribution and transmission lines, causeways, and bridge abutments or approaches, and transportation structures;

“(iii) are for the purpose of construction or maintenance of farm, stock or aquaculture ponds, wastewater retention facilities (including dikes and berms) that are used by concentrated animal feeding operations, or irrigation canals and ditches or the maintenance or reconstruction of drainage ditches and tile lines (including resloping of drainage ditches to control bank erosion);

“(iv) are for the purpose of construction of temporary sedimentation basins on a construction site, or the construction of any upland dredged material disposal area, which does not include placement of fill material into the navigable waters;

“(v) are for the purpose of construction or maintenance of farm roads or forest roads, in accordance with best management practices, to assure that flow and circulation patterns and chemical and biological characteristics of the waters are not impaired, that the reach of the waters is not reduced, and that any adverse effect on the aquatic environment will be otherwise minimized;

“(vi) are undertaken on farmed wetlands, except that any change in use of such land for the purpose of undertaking activities that are not exempt from regulation under this subsection shall be subject to the requirements of this section to the extent that such farmed wetlands are ‘wetlands’ under this section;

“(vii) are undertaken in incidentally created wetlands, unless such incidentally created wetlands have exhibited wetlands functions and values for more than 5 years in which case activities undertaken in such wetlands shall be subject to the requirements of this section; and

“(viii) are for the purpose of preserving and enhancing aviation safety or are undertaken in order to prevent an airport hazard.”.

(g) AREAS NOT CONSIDERED TO BE NAVIGABLE WATERS.—Section 404(f) is further amended by adding the following:

“(3) AREAS NOT CONSIDERED TO BE NAVIGABLE WATERS.—

“(A) IN GENERAL.—For purposes of this section, the following shall not be considered navigable waters:

“(i) Irrigation ditches excavated in uplands.

“(ii) Artificially irrigated areas which would revert to uplands if the irrigation ceased.

“(iii) Artificial lakes or ponds created by excavating or diking uplands to collect and retain water, and which are used exclusively for stock watering, irrigation, or rice growing.

“(iv) Artificial reflecting or swimming pools or other small ornamental bodies of water created by excavating or diking uplands to retain water for primarily aesthetic reasons.

“(v) Temporary, water filled depressions created in uplands incidental to construction activity.

“(vi) Pits excavated in uplands for the purpose of obtaining fill, sand, gravel, aggregates, or minerals, unless and until the construction or excavation operation is aban-

doned and the resulting body of water meets the definition of waters of the United States.

“(vii) Artificial stormwater detention areas and artificial sewage treatment areas which are not modified natural waters.

“(B) DEMONSTRATION REQUIRED.—Subparagraph (A) shall not apply to a particular water body unless the person desiring to discharge dredged or fill material in that water body is able to demonstrate that the water body qualifies under subparagraph (A) for exemption from regulation under this section.”.

SEC. 808. TECHNICAL ASSISTANCE TO PRIVATE LANDOWNERS, CODIFICATION OF REGULATIONS AND POLICIES.

Section 404 (33 U.S.C. 1344) is amended by adding at the end the following:

“(u)(1) The Secretary and the Administrator shall in cooperation with the United States Fish and Wildlife Service, Natural Resources Conservation Service, and National Marine Fisheries Service provide technical assistance to private landowners in delineation of wetlands and the planning and management of their wetlands. This assistance shall include—

“(A) the delineation of wetland boundaries within 90 days (providing on the ground conditions allow) of a request for such delineation for a project with a proposed individual permit application under this section and a total assessed value of less than \$15,000; and

“(B) the provision of technical assistance to owners of wetlands in the preparation of wetland management plans for their lands to protect and restore wetlands and meet other goals of this Act, including control of nonpoint and point sources of pollution, prevention and reduction of erosion, and protection of estuaries and lakes.

“(2) The Secretary shall prepare, update on a biannual basis, and make available to the public for purchase at cost, an indexed publication containing all Federal regulations, general permits, and regulatory guidance letters relevant to the permitting of activities in wetland areas pursuant to section 404(a). The Secretary and the Administrator shall also prepare and distribute brochures and pamphlets for the public addressing—

“(A) the delineation of wetlands,

“(B) wetland permitting requirements; and

“(C) wetland restoration and other matters considered relevant.”.

SEC. 809. DELINEATION.

Section 404 (33 U.S.C. 1344) is further amended by adding at the end the following:

“(v) DELINEATION.—

“(1) IN GENERAL.—The United States Army Corps of Engineers, the United States Environmental Protection Agency, and other Federal agencies shall use the 1987 Corps of Engineers Manual for the Delineation of Jurisdictional Wetlands pursuant to this section until a new manual has been prepared and formally adopted by the Corps and the Environmental Protection Agency with input from the United States Fish and Wildlife Service, Natural Resources, Natural Resources Conservation Service, and other relevant agencies and adopted after field testing, hearing, and public comment. Any new manual shall take into account the conclusions of the National Academy of Sciences panel concerning the delineation of wetlands. The Corps, in cooperation with the Environmental Protection Agency and the Department of Agriculture, shall develop materials and conduct training courses for consultants, State, and local governments, and landowners explaining the use of the Corps 1987 wetland manual in the delineation of wetland areas. The Corps, in cooperation with the Environmental Protection Agency and the Department of Agriculture, may also, in cooperation with the States, develop supplemental criteria and procedures for

identification of regional wetland types. Such criteria and procedures may include supplemental plant and soil lists and supplementary technical criteria pertaining to wetland hydrology, soils, and vegetation.

“(2) AGRICULTURAL LANDS.—

“(A) DELINEATION BY SECRETARY OF AGRICULTURE.—For purposes of this section, wetlands located on agricultural lands and associated nonagricultural lands shall be delineated solely by the Secretary of Agriculture in accordance with section 1222(j) of the Food Security Act of 1985 (16 U.S.C. 3822(j)).

“(B) EXEMPTION OF LANDS EXEMPTED UNDER FOOD SECURITY ACT.—Any area of agricultural land or any discharge related to the land determined to be exempt from the requirements of subtitle C of title XII of the Food Security Act of 1985 (16 U.S.C. 3821 et seq.) shall also be exempt from the requirements of this section for such period of time as those lands are used as agricultural lands.

“(C) EFFECT OF APPEAL DETERMINATION PURSUANT TO FOOD SECURITY ACT.—Any area of agricultural land or any discharge related to the land determined to be exempt pursuant to an appeal taken pursuant to subtitle C of title XII of the Food Security Act of 1985 (16 U.S.C. 3821 et seq.) shall be exempt under this section for such period of time as those lands are used as agricultural lands.”

SEC. 810. FAST TRACK FOR MINOR PERMITS.

Section 404 (33 U.S.C. 1344) is further amended by adding at the end the following:

“(w)(1) Not later than 6 months after the date of enactment of this subsection, the Secretary shall issue regulations to explore the review and practice of individual permits for minor activities. Minor activities include activities of 1 acre or less in size which also have minor direct, secondary, or cumulative impacts.

“(2) Permit applications for minor permits shall ordinarily be processed within 60 days of the receipt of completed application.

“(3) The Secretary shall establish fast-track field teams or other procedures in the individual offices sufficient to expedite the processing of the individual permits involving minor activities.”

SEC. 811. COMPENSATORY MITIGATION.

Section 404 (33 U.S.C. 1344) is amended by adding at the end the following:

“(x) GENERAL REQUIREMENTS.—(1) Each permit issued under this section that results in loss of wetland functions or acreage shall require compensatory mitigation. The preferred sequence of mitigation options is as set forth in subparagraph (A) and (C). However, the Secretary shall have sufficient flexibility to approve practical options that provide the most protection to the resource—

“(A) measures shall first be undertaken by the permittee to avoid any adverse effects on wetlands caused by activities authorized by the permit.

“(B) measures shall be undertaken by the permittee to minimize any such adverse effects that cannot be avoided;

“(C) measures shall then be undertaken by the permittee to compensate for adverse impacts on wetland functions, values, and acreage;

“(D) where compensatory mitigation is used, preference shall be given to in-kind restoration on the same water body and within the same local watershed;

“(E) where on-site and in-kind compensatory mitigation are impossible, impractical, would fail to work in the circumstances, or would not make ecological sense, off-site and/or out-of-kind compensatory mitigation may be permitted within the watershed including participation in cooperative mitigation ventures or mitigation banks as provided in section 404(y).

“(2) The Secretary in consultation with the Administrator shall ensure that compensable mitigation by a permittee—

“(A) is a specific, enforceable condition of the permit for which it is required;

“(B) will meet defined success criteria; and

“(C) is monitored to ensure compliance with the conditions of the permit and to determine the effectiveness of the mitigation in compensating for the adverse effects for which it is required.”

SEC. 812. COOPERATIVE MITIGATION VENTURES AND MITIGATION BANKS.

Section 404 (33 U.S.C. 1344) is amended by adding at the end the following:

“(y)(1) Not later than 1 year after the date of the enactment of this Act, the Secretary and the Administrator shall jointly issue rules for a system of cooperative mitigation ventures and wetland banks. Such rules shall, at the minimum, address the following topics:

“(A) Mitigation banks and cooperative ventures may be used on a watershed basis to compensate for unavoidable wetland losses which cannot be compensated on-site due to inadequate hydrologic conditions, excessive sedimentation, water pollution, or other problems. Mitigation banks and cooperative ventures may also be used to improve the potential success of compensatory mitigation through the use of larger projects, by locating projects in areas in more favorable short-term and long-term hydrology and proximity to other wetlands and waters, and by helping to ensure short-term and long-term project protection, monitoring, and maintenance.

“(B) Parties who may establish mitigation banks and cooperative mitigation ventures for use in specific context and for particular types of wetlands may include government agencies, nonprofits, and private individuals.

“(C) Surveys and inventories on a watershed basis of potential mitigation sites throughout a region or State shall ordinarily be required prior to the establishment of mitigation banks and cooperative ventures pursuant to this section.

“(D) Mitigation banks and cooperative mitigation ventures shall be used in a manner consistent with the sequencing requirements to mitigate unavoidable wetland impacts. Impacts should be mitigated within the watershed and water body if possible with on-site mitigation preferable as set forth in section 404(x).

“(E) The long-term security of ownership interests of wetlands and uplands on which projects are conducted shall be insured to protect the wetlands values associated with those wetlands and uplands;

“(F) Methods shall be specified to determine debits by evaluating wetland functions, values, and acreages at the sites of proposed permits for discharges or alternations pursuant to subsections (a), (c), and (g) and methods to be used to determine credits based upon functions, values, and acreages at the times of mitigation banks and cooperative mitigation ventures.

“(G) Geographic restrictions on the use of banks and cooperative mitigation ventures shall be specified. In general, mitigation banks or cooperative ventures shall be located on the same water body as impacted wetlands. If this is not possible or practical, banks or ventures shall be located as near as possible to impacted projects with preference given to the same watershed where the impact is occurring.

“(H) Compensation ratios for restoration, creation, enhancement, and preservation reflecting and overall goal of no net loss of function and the status of scientific knowledge with regard to compensation for individual wetlands, risks, costs, and other relevant factors shall be specified. A minimum

restoration compensation ratio of 1:1 shall be required for restoration of lost acreage with larger compensation ratios for wetland creation, enhancement and preservation.

“(I) Fees to be charged for participation in a bank or cooperative mitigation venture shall be based upon the costs of replacing lost functions and acreage on-site and off-site; the risks of project failure, the costs of long-term maintenance, monitoring, and protection, and other relevant factors.

“(J) Responsibilities for long-term monitoring, maintenance, and protection shall be specified.

“(K) Public review of proposals for mitigation banks and cooperative mitigation ventures through one or more public hearings shall be provided.

“(2) The Secretary, in consultation with the Administrator, is authorized to establish and implement a demonstration program for creating and implementing mitigation banks and cooperative ventures and for evaluating alternative approaches for mitigation banks and cooperative mitigation ventures as a means of contributing to the goals established by section 101(a)(8) or section 10 of the Act of March 3, 1899 (33 U.S.C. 401 and 403). The Secretary shall also monitor and evaluate existing banks and cooperative ventures and establish a number of such banks and cooperative ventures to test and demonstrate:

“(A) The technical feasibility of compensation for lost on-site values through off-site cooperative mitigation ventures and mitigation banks.

“(B) Techniques for evaluating lost wetland functions and values at sites for which permits are sought pursuant to section 404(a) and techniques for determining appropriate credits and debits at the sites of cooperative mitigation ventures and mitigation banks.

“(C) The adequacy of alternative institutional arrangements for establishing and administering mitigation banks and cooperative mitigation ventures.

“(D) The appropriate geographical locations of bank or cooperative mitigation ventures in compensation for lost functions and values.

“(E) Mechanisms for ensuring short-term and long-term project monitoring and maintenance.

“(F) Techniques and incentives for involving private individuals in establishing and implementing mitigation banks and cooperative mitigation ventures.

Not later than 3 years after the date of the enactment of this subsection, the Secretary shall transmit to Congress a report evaluating mitigation banks and cooperative ventures. The Secretary shall also, within this time period, prepare educational materials and conduct training programs with regard to the use of mitigation banks and cooperative ventures.”

SEC. 813. WETLANDS MONITORING AND RESEARCH.

Section 404 (33 U.S.C. 1344) is further amended by adding at the end the following:

“(z) The Secretary, in cooperation with the Administrator, the Secretary of Agriculture, the Director of the United States Fish and Wildlife Service, and appropriate State and local government entities, shall initiate, with opportunity for public notice and comment, a research program of wetlands and watershed management. The purposes of the research program shall include, but not be limited—

“(1) to study the functions, values and management needs of altered, artificial, and managed wetland systems including lands that were converted to production of commodity crops prior to December 23, 1985, and report to Congress within 2 years of the date of the enactment of this subsection;

“(2) to study techniques for managing and restoring wetlands within a watershed context;

“(3) to study techniques for better coordinating and integrating wetland, floodplain, stormwater, point and nonpoint source pollution controls, and water supply planning and plan implementation on a watershed basis at all levels of government; and

“(4) to establish a national wetland regulatory tracking program on a watershed basis.

This program shall track the individual and cumulative impact of permits issued pursuant to section 404(a), 404(e), and 404(h) in terms of types of permits issued, conditions, and approvals. The tracking program shall also include mitigation required in terms of the amount required, types required, and compliance.”

SEC. 814. ADMINISTRATIVE APPEALS.

Section 404 (33 U.S.C. 1344) is further amended by adding at the end the following:

“(aa) ADMINISTRATIVE APPEALS.—

“(1) REGULATIONS ESTABLISHING PROCEDURES.—Not later than 1 year after the date of the enactment of the Wetlands and Watershed Management Act of 1995, the Secretary shall, after providing notice and opportunity for public comment, issue regulations establishing procedures pursuant to which—

“(A) a landowner may appeal a determination of regulatory jurisdiction under this section with respect to a parcel of the landowner’s property;

“(B) a landowner may appeal a wetlands classification under this section with respect to a parcel of the landowner’s property;

“(C) any person may appeal a determination that the proposed activity on the landowner’s property is not exempt under subsection (f);

“(D) a landowner may appeal a determination that an activity on the landowner’s property does not qualify under a general permit issued under this section;

“(E) an applicant for a permit under this section may appeal a determination made pursuant to this section to deny issuance of the permit or to impose a requirement under the permit; and

“(F) a landowner or any other person required to restore or otherwise alter a parcel of property pursuant to an order issued under this section may appeal such order.

“(2) DEADLINE FOR FILING APPEAL.—An appeal brought pursuant to this subsection shall be filed not later than 30 days after the date on which the decision or action on which the appeal is based occurs.

“(3) DEADLINE FOR DECISION.—An appeal brought pursuant to this subsection shall be decided not later than 90 days after the date on which the appeal is filed.

“(4) PARTICIPATION IN APPEALS PROCESS.—Any person who participated in the public comment process concerning a decision or action that is the subject of an appeal brought pursuant to this subsection may participate in such appeal with respect to those issues raised in the person’s written public comments.

“(5) DECISIONMAKER.—An appeal brought pursuant to this subsection shall be heard and decided by an appropriate and impartial official of the Federal Government, other than the official who made the determination or carried out the action that is the subject of the appeal.

“(6) STAY OF PENALTIES AND MITIGATION.—A landowner or any other person who has filed an appeal under this subsection shall not be required to pay a penalty or perform mitigation or restoration assessed under this section or section 309 until after the appeal has been decided.”

SEC. 815. CRANBERRY PRODUCTION.

Section 404 (33 U.S.C. 1344) is further amended by adding at the end the following:

“(bb) CRANBERRY PRODUCTION.—Activities associated with expansion, improvement, or modification of existing cranberry production operations shall be deemed in compliance, for purposes of sections 309 and 505, with section 301, if—

“(1) the activity does not result in the modification of more than 10 acres of wetlands per operator per year and the modified wetlands (other than where dikes and other necessary facilities are placed) remain as wetlands or other waters of the United States; or

“(2) the activity is required by any State or Federal water quality program.”

SEC. 816. STATE CLASSIFICATION SYSTEMS.

Section 404 (33 U.S.C. 1344) is further amended by adding at the end the following:

“(cc) STATE CLASSIFICATION SYSTEMS.—

“(1) GUIDELINES.—Not later than 1 year after the date of the enactment of this subsection, the Secretary, in consultation with the Administrator, the Secretary of Agriculture, and the Director of the United States Fish and Wildlife Service, shall establish guidelines to aid States and Indian tribes in establishing classification systems for the planning, managing, and regulating of wetlands.

“(2) ESTABLISHMENT.—In accordance with the guidelines established under paragraph (1), a State or Indian tribe may establish a wetlands classification system for lands of the State or Indian tribe and may submit such classification system to the Secretary for approval. Upon approval, the Secretary shall use such classification system in making permit determinations and establishing mitigation requirements for lands of the State or Indian tribe under this section.

“(3) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this subsection shall be construed to affect a State with an approved program under subsection (h) or a State with a wetlands classification system in effect on the date of the enactment of this subsection.”

SEC. 817. AGRICULTURAL LANDS.

Section 404 (33 U.S.C. 1344) is further amended by adding at the end the following:

“(dd) AGRICULTURAL LANDS.—

“(1) PERMIT AUTHORITY.—The Secretary of Agriculture is authorized to issue permits under this section for any activity subject to permitting under this section that is carried out on agricultural land (other than agricultural land subject to sections 1221–1223 of the Food Security Act of 1985 (16 U.S.C. 3821–3823)). Any activity allowed by the Secretary of Agriculture under such sections 1221–1223 shall be treated as having a permit issued under this section and no individual request for or granting of a permit shall be required under this section.

“(2) MITIGATION.—Any mitigation approved by the Secretary of Agriculture for agricultural lands shall be accepted by the Secretary as mitigation under this section.”

SEC. 818. DEFINITIONS.

Section 502 (33 U.S.C. 1362) is amended by adding at the end the following:

“(26) The term ‘wetland’ means those areas that are inundated or saturated by surface water or ground water at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted to life in saturated soil conditions.

“(27) The term ‘discharge of dredged or fill material’ means the act of discharging and any related act of filling, grading, draining, dredging, excavation, channelization, flooding, clearing of vegetation, driving of piling or placement of other obstructions, diversion of water, or other activities in navigable waters which impair the flow, reach, or circulation of surface water, or which result in a more than minimal change in the hydrologic

regime, bottom contour, or configuration of such waters, or in the type, distribution, or diversity of vegetation in such waters.

“(28) The term ‘mitigation bank’ shall mean wetland restoration, creation, or enhancement projects undertaken primarily for the purpose of providing mitigation compensation credits for wetland losses from future activities. Often these activities will be, as yet, undefined.

“(29) The term ‘cooperative mitigation ventures’ shall mean wetland restoration, creation, or enhancement projects undertaken jointly by several parties (such as private, public, and nonprofit parties) with the primary goal of providing compensation for wetland losses from existing or specific proposed activities. Some compensation credits may also be provided for future as yet undefined activities. Most cooperative mitigation ventures will involve at least one private and one public cooperating party.

“(30) The term ‘normal farming, silviculture, aquaculture and ranching activities’ means normal practices identified as such by the Secretary of Agriculture, in consultation with the Cooperative Extension Service for each State and the land grant university system and agricultural colleges of the State, taking into account existing practices and such other practices as may be identified in consultation with the affected industry or community.

“(31) The term ‘agricultural land’ means cropland, pastureland, native pasture, rangeland, an orchard, a vineyard, nonindustrial forest land, an area that supports a water dependent crop (including cranberries, taro, watercress, or rice), and any other land used to produce or support the production of an annual or perennial crop (including forage or hay), aquaculture product, nursery product, or wetland crop or the production of livestock.”

Conform the table of contents of the bill accordingly.
