

This is an agreement for the economy of the 21st century. Inventors, performers, authors, and creative enterprises in the United States and Singapore will benefit from enhanced copyright, patent, trademark, trade secret, and other intellectual property rights protection. The Agreement also contains state-of-the-art protections for digital products and electronic commerce.

My Administration is committed to moving forward on multiple fronts to advance environmental protection and worker rights in a credible and responsible manner. This Agreement meets the labor and environmental objectives provided by the Congress in the Trade Act.

In sum, free trade is a fundamental source of America's economic vitality. This Agreement will benefit the U.S. economy through both higher-paying jobs created by exports and lower prices paid by consumers. It will strengthen U.S. ties with a valued economic partner and promote America's political and security interests in an important region.

As called for by the Trade Act, I am sending this notification at least 90 days in advance of signing the U.S.-Singapore FTA. My Administration looks forward to working with the Congress to develop appropriate legislation to approve and implement this Free Trade Agreement.

**Message to the Congress on the
United States Air Force Operating
Location Near Groom Lake, Nevada**

January 29, 2003

To the Congress of the United States:

Consistent with section 6001(a) of the Resource Conservation and Recovery Act (RCRA) (the "Act"), as amended, 42 U.S.C. 6961(a), notification is hereby given that on September 13, 2002, I issued Presidential Determination 2002-30 (copy enclosed) and thereby exercised the authority to grant certain exemptions under section 6001(a) of the Act.

Presidential Determination 2002-30 exempted the United States Air Force's operating location near Groom Lake, Nevada, from any Federal, State, interstate, or local hazardous or solid waste laws that might require the disclosure of classified information concerning that operating location to unauthorized persons. Information concerning activities at the operating location near Groom Lake has been properly determined to be classified, and its disclosure would be harmful to national security. Continued protection of this information is, therefore, in the paramount interest of the United States.

The determination was not intended to imply that, in the absence of a Presidential exemption, RCRA or any other provision of law permits or requires the disclosure of classified information to unauthorized persons. The determination also was not intended to limit the applicability or enforcement of any requirement of law applicable to the Air Force's operating location near Groom Lake
