Your Prescription Drug List:

Helping you get the most out of your pharmacy benefit.

This Prescription Drug List (PDL) outlines the most commonly prescribed medications for certain conditions and divides them into tiers. Your costs may change depending on a medication's tier placement.

To help you better use your pharmacy benefit, this guide answers commonly asked questions about your PDL.

Go to www.uhcsr.com for complete and up-to-date PDL information

Since the PDL may change, we encourage you to click on "Login To My Account" at our website, www.uhcsr.com. This website is the best source for up-to-date information about the medications your pharmacy benefit covers, possible lower-cost options, and how the cost of medications compare.

The screenshot displays the UnitedHealthcare StudentResources website. At the top left is the UnitedHealthcare logo. On the right, it says "StudentResources" and includes a search bar with a "GO" button. Below the search bar is a breadcrumb trail: "Home > Student Health Insurance & Plans > Prescription Drug Plan". A navigation menu contains four items: "Student Health Insurance & Plans", "Self Service & Support", and "Request Information". The main content area is titled "Prescription Drug Plan" and includes the following text:

UnitedHealthcare StudentResources Prescription Drug Programs
Schools today are faced with many decisions about their students' health care plan - including how to balance student benefits and health and well being needs while keeping the health care plan affordable.

UnitedHealthcare StudentResources' insured's may have access to a comprehensive and quality pharmacy benefit. Simply log into [My Account](#) to access your Pharmacy Benefit Program information, including:

- Prescription refills/renewals
- New prescription requests
- Retail and mail-order prescription history
- Over-the-counter product offering
- Preferred Drug List (PDL)
- Pharmacy directory
- Health and well-being information
- E-mail reminders

Welcome to your 2012 Three-Tier Prescription Drug List

We want to help you better understand your medication choices. Your pharmacy benefit offers flexibility and choice in determining the right medication for you. To help you get the most out of your pharmacy benefit, we've included some of the most commonly asked questions about the PDL.

What is a PDL?

A PDL is a list of commonly prescribed medications placed into tiers. The PDL includes both brand and generic prescription medications approved by the U.S. Food and Drug Administration (FDA). The PDL is reviewed periodically and may change. It is not a complete list of medications and not all medications listed may be covered under your plan. If you have pharmacy benefit coverage with UnitedHealthcare Student Resources, please look at your benefit plan documents provided by your university or school to see what medications are covered under your plan. Where differences are noted between this PDL quick-reference guide and your benefit plan documents, the benefit plan documents will govern. You may also click on "Login To My Account" at www.uhcsr.com or call the toll-free member phone number on the back of your health plan ID card for more information.

How do I use my PDL?

When choosing a medication, you and your doctor should consult the PDL. This guide is organized by common medical conditions. Then, within each medical condition section, medications are listed by tier.

If your medication is not located in the PDL please click on "Login To My Account" at www.uhcsr.com or call the toll-free member phone number on the back of your health plan ID card.

What are Tiers?

Tiers are the different cost levels you pay for a medication. Each tier is assigned a cost, which is determined by your university or school. This is how much you will pay when you fill a prescription. Tier 1 medications are your lowest-cost options. If your medication is placed in Tier 2 or 3 look to see if there is a Tier 1 alternative. Discuss your options with your doctor.

Check your benefit plan documents to find out your pharmacy plan costs.

		
Tier 1 Your lowest-cost medications	Tier 2 Your midrange-cost medications	Tier 3 Your highest-cost medications

Who determines medication tier placements?

The UnitedHealthcare PDL Management Committee makes tier placement decisions. The PDL Management Committee is comprised of senior level UnitedHealth Group physicians and business leaders. The Committee's goal is to help ensure access to a wide range of medications, while helping to control health care costs for you and your university or school.

What factors impact tier placement decisions?

The PDL Management Committee decides tier placement based on several factors including:

- ▶ **Clinical information** from the UnitedHealth Group National Pharmacy and Therapeutics Committee about the safety and effectiveness of different medications.
- ▶ **The medication's costs** and other economic factors.

Why are there notations (SL, N, etc.) next to certain medications in the PDL, and what do they mean?

As you go through this list, you might notice some medications are noted with symbols next to them. The notations refer to our pharmacy programs. Your benefit plan determines how these medications may be covered for you but the symbols are guidelines to help you check what medications may be impacted.

To learn more about a pharmacy program or to find out if it applies to you, please click on "Login To My Account" at www.uhcsr.com or call the toll-free member phone number on the back of your health plan ID card.

Here is a quick symbol overview:

PDL Symbols

1/2T	Eligible for Half Tablet Program
N	Notification or Prior Authorization required*
SL	Supply limit

*Depending on your benefit you may have notification or prior authorization requirements for select medications.

Why is the medication that I am currently taking no longer covered?

Medications may be excluded from coverage under your pharmacy benefit. For example, a medication may be excluded from coverage when it is therapeutically equivalent to another prescription medication or an over-the-counter (OTC) medication. There may be alternatives on the PDL or OTC medications that are right for your treatment.

Should I talk to my doctor about OTC medications?

An OTC medication may be the right treatment for some conditions. Talk to your doctor about OTC options. These medications are not covered under your pharmacy benefit, but they may cost less than your out-of-pocket expense for prescription medications.

What is the difference between brand-name and generic medications?

Generic medications contain the same active ingredients as brand-name medications, but they often cost less. After the patent on a brand-name medication expires, other companies can manufacture an FDA-approved version of the medication. These types of medications are called generic medications. Many times, the same company that makes a brand-name medication also makes the generic version.

What if my doctor writes a brand-name prescription?

The next time your doctor gives you a prescription for a brand-name medication, ask if a generic equivalent or lower-tier alternative is available and if it might be right for you. Generic medications are usually your lowest-cost option, but not always. Click on "Login To My Account" at www.uhcsr.com to make sure.

How do I access updated information about my pharmacy benefit?

Since the PDL may change, we encourage you to click on “Login To My Account” at www.uhcsr.com or call the toll-free member phone number on the back of your health plan ID card for more current information.

What if I still have questions?

Please call the toll-free member phone number on the back of your health plan ID card. Representatives are available 24 hours a day (except Thanksgiving and Christmas).

Medications are categorized by common therapeutic conditions in this PDL for ease of reference only. These categories do not determine coverage for the medication for your condition. Your benefit plan determines how these medications may be covered for you.

In certain documents, the Prescription Drug List (PDL) was referred to as the “Preferred Drug List (PDL).” This change in descriptive terms does not affect your benefit coverage.

Where differences are noted between this PDL reference guide and your benefit plan documents, the benefit plan documents will govern. For the most current PDL information, click on “Login To My Account” at www.uhcsr.com.
