- The Office of Insular Affairs' accepts proposals for its Technical Assistance Program (TAP) which provides grant funding for short-term projects intended to meet the immediate needs of the insular areas. Funding priorities include, but are not limited to, projects that foster the development of the insular areas in the following categories:
- Accountability; financial management (including tax collection improvements); economic development; training/education; energy; management control initiatives, safety, emergency, historical & cultural preservation, and health initiatives.

- Generally, TAP grants are not awarded to supplant local funding of routine operating expenses of an insular government or organization or to be used for large construction projects.
- Routine operating expenses include the purchase of office supplies and equipment upgrades, such as new computers, that are not necessitated as part of a broader project, such as the installation of new financial management software.
- Technical assistance grants do not fund the salaries of local government employees, but may be utilized to provide temporary short term expertise.

- Due to funding limitations, preference is given to proposals that foster the development of the insular areas in the following categories: accountability, financial management (including tax collection improvements, economic development, training/education, energy, management control initiatives, safety, emergency, historical and cultural preservation and health initiatives.
- The period of performance for the majority of projects funded under this program is twelve to eighteen months. Project proposals must be designed accordingly.
- Past and present recipients of awards under this program are eligible but must submit new proposals to compete for funding each year unless multi-year funding has been awarded.

Application Restrictions

- Applications should not include requests to fund force accounts or indirect costs:
- Force Accounts: A force account refers to a grantee's own (existing)
 personnel being charged to the grant. OIA is opposed to funding
 force accounts with its grants, however, outside expertise and
 consultant services will be considered if detailed in the project
 narrative and budget.
- Indirect Costs: Indirect costs are defined as costs which are a) incurred for a common or joint purpose benefiting more than one cost objective, and (b) not readily assignable to the cost objectives specifically benefitted. OIA does not generally allow its grantees to charge indirect costs to its grants and as a result has not established indirect cost rates with the insular areas. Costs associated with the administration of OIA grant projects and programs are to be charged against the grant funds only as approved in the project budget.

- Review Process for Applications
- Once a TAP grant application is received through <u>www.grants.gov</u>, generally it will be scheduled for review by the TAP Review Committee.
- TAP Review Committee is generally comprised of Technical Assistance staff, Desk Officers for the respective insular areas, Division Directors of TAP, Budget and Policy, OIA Field Staff, the Director, Office of Insular Affairs, and other OIA staff as necessary. Comments are sought from other Federal agencies and stakeholders as deemed appropriate.
- When the TAP Committee has completed its review recommendations are submitted to the Assistant Secretary for Insular Areas.
- If the Assistant Secretary concurs, a grant award is prepared.

- ASAP is the payment system which is required to be used for payments under a TAP grant for U.S. Territories, and it can be used for payments to the Freely Associated States if a U.S. bank is utilized.
- In order to use ASAP, you have to enroll. The first step to enrollment is to complete the 3 enrollment forms and submit to Faride Kraft: faride_kraft@ios.doi.gov (202) 219-1335
- Even if a potential recipient is ASAP enrolled with another agency (including one within DOI like FWS), they will still need to complete the forms and enroll to "link" with OIA via our ALC. So an entity may end up being ASAP enrolled several times with several different agencies/bureaus.
