## Key Vote Alert - RSC Budget

### KEY VOTE ALERT

#### *"YES" ON RSC ALTERNATIVE BUDGET (AMDT. 13)*

The Club for Growth urges all House members to vote "YES" on the Republican Study Committee's alternative budget, which will be offered as a substitute amendment (Amdt. 13) to the FY10 budget resolution (H. Con. Res. 85). A vote is expected today or tomorrow. This vote will be included in the Club for Growth's 2009 Congressional Scorecard.

**This is a strong, pro-growth budget that lowers taxes, greatly reduces spending, and will aid in a faster economic recovery.**

The RSC budget would extend the 2001 and 2003 tax cuts, and even suspend the capital gains tax for the next two years. It would reduce spending every year over ten years resulting in a surplus in 2019. It would achieve this by requiring committees to find cuts in mandatory spending, reductions or elimination of programs like Amtrak and the National Endowment of the Arts, and a moratorium on earmarks. It would also open up ANWR for oil and gas exploration.

Our Congressional Scorecard for the 111th Congress provides a comprehensive rating of how well or how poorly each member of Congress supports pro-growth, free-market policies and will be distributed to our members and to the public.
