## UNITED STATES SERVICE ACADEMY NOMINATIONS

### I. GENERAL INFORMATION

Because of the extreme competition for nominations, you are urged to apply to every nominating authority which your eligibility allows, (i.e., Presidential, Vice Presidential, Senator, Congressman, Children of Deceased or Disabled Veterans, etc.) However, if you receive a nomination from another source, please let me know immediately.

Each Congressional Office uses a selection process which is designed to meet its own needs and standards. To applicants who apply to more than one office these different procedures are often confusing. Last minute misunderstandings can be avoided by carefully studying and following the instructions of each office.

The information outlined below is required in order for you to be considered as an applicant. It is your responsibility to submit this information and to keep it updated. The deadline for receipt of the Nomination Packet is **1 OCTOBER** because there must be adequate time to assess each candidate's qualifications. Although information received after the deadline is acceptable until the selections of nominees are complete, candidates whose files are incomplete when nominations are made cannot be given consideration.

Careful thought should be given to your first choice of an academy. Second choices are considered in the event that there are not a sufficient number of qualified candidates in an academy category to fill a slate of nominees; this rarely happens.

### II. REQUIREMENTS

A. Eligibility. As of July 1 of the year of admission to a U. S. Service Academy: He or she must be at least 17 years old, but not have passed the 23rd birthday, must be a United States citizen, and must be unmarried, not pregnant, and have no legal obligation to support children or other dependents.

B. Residency. Applicants must be a legal resident of the First Congressional District of Georgia.

D. Academic Achievement. Your Transcripts and College Board Scores are key in this process.

C. Leadership. Leadership potential and physical fitness are judged from the information provided on your Application Form. The Academies place a high premium on leadership and extra-curricular activities. Unlike civilian colleges, the Service Academies also place strong emphasis on physical training.

### **III. NOMINATION TYPE: PRINCIPAL WITH COMPETING ALTERNATES**

There are three methods of nomination which may be used by Members of Congress. They are: Competitive, Principal with Competing Alternates, and Principal with Numbered Alternates. Members may use any of these methods at their discretion. Regardless of the nominating method and means of evaluation used, it is strongly encouraged that a full slate of ten nominations be submitted for each vacancy. The higher the number of nominees, the better the quality of an incoming class is likely to be.

The nomination method utilized by Congressman Jack Kingston's Academy Board is Principal with Competing Alternates. This method provides for designation of the Principal Nominee by the Member of Congress and his Academy Board. The other nine unranked nominees are submitted to the academy applicant pool for evaluation and compete as alternates with this pool. If the Principal qualifies (scholastically, medically, and in physical aptitude), he or she will be appointed and will fill the Principal vacancy. Please note that if the Principal does not qualify, the alternates then compete for the Principal vacancy. Principal selection at this point is based on merit as determined by the evaluation and ranking of the alternates by the service academy.

### **IV. BASIS FOR SELECTION**

Selections are made competitively on the basis of composite of academic factors and leadership potential, extra-curricular activities, physical fitness, and recommendations. The following are included:

Grade point average and class ranking. We look for GPAs of 3.5 or higher.

College Board scores. The academies normally establish qualifying scores for admission. We look for total SAT scores to be above 1500.

Both West Point and the Air Force Academy accept the highest verbal and math scores from all tests taken. The Naval Academy averages the scores from all tests. The Merchant Marines qualifying scores for admission will be determined by the Academy for each class.

Extra-curricular activities and leadership. The Board and I look for a "whole candidate" who has strength in all areas.

Motivation. One of the most important considerations in the selection of nominees is motivation -- the candidate's desire to attend an academy. It is also the most difficult to measure. To an extent, motivation can be judged by a candidate's diligence in completing his file, which is the reason those with incomplete files are not considered for nominations. In addition, candidates write a personal statement on their reasons for wanting to attend an Academy.

**GOOD LUCK!**
