The Honorable Randy Neugebauer

Dear Congressman Neugebauer:

On behalf of the Texas Tech University System, I respectfully ask for your support of FY2010 funding in the amount of \$8.5M for Compact Pulsed Power for Defense Applications at Texas Tech University.

This important research will aid the Department of Defense in its expressed interest in compact electrical generators that can disable enemy communications, radars and computers, with a key issue being to minimize collateral damage. The main focus is to develop these generators to protect our deployed soldiers from improvised explosive devices on the battlefield.

Again, I am grateful for your assistance and truly appreciate your continued support of Texas Tech and all that you do for the great State of Texas. Please feel free to contact me if I or my staff can assist you in any way.

Very truly yours,
