**J**oin your colleagues at the FEDLINK Spring Membership meeting for updates on:

- ~ The Army Corps of Engineers' test of a proxy server for remote access to the library's resources
- ~ The US test of Resource Description and Access (RDA)
- ~ The National Science Foundation's implementation of an open source ILS

Our agenda will also include:

- ~ Steven W. Sutton will describe the Espresso Book Machine (EBM), print on demand and how the landscape is changing for printed and e-book delivery. For more information, please check out <http://www.ondemandbooks.com>.
- ~ Marybeth Dowdell, Chair of the FLICC Budget and Finance Working Group, will present the proposed Fiscal Year 2011 FLICC/FEDLINK budget.
- ~ FLICC/FEDLINK will provide further updates on services.

In the afternoon, FLICC will co-host with CENDI and FADGI Workshop #1 - Digitization Deconstructed: A Survey and Census of Digital Repositories Being Built by Federal Libraries with Deborah Keller, US Army Corps of Engineers. The FLICC Preservation and Digitization Working Group Survey Committee has adopted the mission of assessing the federal library community to determine what digitization projects are currently being undertaken within federal libraries, the infrastructure that is being used to support these efforts, and the ongoing needs of the libraries as they pursue digital initiatives. Ms. Keller will share the planning and early data collection stages of a multi-year effort to survey the federal library community about its digitization efforts.
