Part of the FEDLINK's series for federal library technicians, this five-day institute will focus on the emerging technology new and seasoned technicians need for their expanding roles as technologists. Aligned with FEDLINK's Competencies for Federal Librarians, this training program will zero in on the critical skills all federal library technicians need to meet the technological challenges of the latest trends.

Topics for the week include
~ Mobile Applications
~ Digitization: What it is and what are the issues
~ Cloud Computing
~ New Cataloging: RDA
~ Web Conferencing and Online Collaboration
~ Library Para-Professionalism
~ Professional Portfolio Workshops

Speakers for these topics will be from a variety of federal agencies including the National Institute of Health, Department of Transportation, College of DuPage and the Library of Congress.
