Housed in a facility shared by the National Ocean Service and the Maryland Department of Natural Resources, the library is part of the National Ocean Service's Center for Coastal Environmental Health and Biomolecular Research Charleston Laboratory. Much of the collection comprises current subscriptions to approximately 45 scientific journals, in the fields of ecology, fisheries, habitat, nature conservation, and pathology. The library maintains collections of dissertations and theses, maps, newsletters, newspaper clippings, photographs, reports, and technical and information bulletins. The serial and monographic collections total over 13,500 volumes, and the reprint collection includes over 25,000 reprints. |

Since its formation, CMH has provided historical support to the Army Secretariat and Staff, contributing essential background information for decision making, staff actions, command information programs, and public statements by Army officials. Over the decades it also has progressively expanded its role in the vital areas of military history education, the management of the Army's museum system, and the introduction of automated data-retrieval systems. The Center's work with Army schools ensures that the study of history is a significant part of the training of officers and noncommissioned officers. It also supports the use of history to foster unit pride and give today's soldiers an understanding of the Army's past. |
