SUBDIVISION SIMPLIFICATION PROGRESS

Since the Subject Subdivisions Conference took place at Airlie House, Virginia, in May 1991, progress continues to be made in simplifying subdivisions in the Library of Congress Subject Headings system. On Weekly Lists 99-43 to 99-52, changes were made in the following areas:

Recommendation #1. Toward achieving the recommended standard order of **[topic]—[place]—[chronology]—[form]** where it can be applied in LC subject heading strings, new topical subdivisions for which geographic orientation is possible are established with the designation (*May Subd Geog*). On a case-by-case basis, subdivisions not previously divided by place are authorized for geographic subdivision. Five subdivisions were authorized for geographic subdivision during this period, including one free-floating subdivision listed below.

Recommendation #6. During the fourth quarter of 1999, progress in simplifying subdivisions was made in the following areas:

1) *Cancellation of subdivisions that represent the same or similar concepts in different forms.*

Two subdivisions were replaced with standard free-floating subdivisions. The subdivision —**Psychology** was cancelled under the heading **Music** and replaced with the form generally used under topical headings: —**Psychological aspects**. The subdivision —**Equipment**, which had been established under the heading **Mars (Planet)—Exploration**, was replaced with —**Equipment and supplies**.

Two subdivision combinations were split into their topical and form aspects. The subdivision —**Bibliography—First editions**, which had been authorized for free-floating use under names of individual authors and literatures, was replaced by the subdivisions —**First editions** and —**First editions—Bibliography**. The former subdivision is to be used for works about first editions of those authors and literatures and the latter for lists of first editions. The subdivision —**Bibliography—First issues**, which was established under the heading **English periodicals**, was cancelled and replaced with the subdivisions —**First issues** and —**First issues—Bibliography**.

2) *Phrase headings replaced with subdivisions.* The phrase headings **Woman (Theology)**, **Woman (Buddhism)**, **Woman (Christian theology)**, and **Woman (Mormon theology)** were cancelled and replaced with the subdivisions —**Religious aspects**, —**Religious aspects—Buddhism**, —**Religious aspects—Christianity**, and —**Religious aspects—Mormon Church** established under the heading **Women**. The subdivision —**Religious aspects—[religion or denomination]** is the preferred means of expressing the religious aspects of a non-religious topic from the viewpoint of an individual religion or Christian denomination.

3) *Subdivisions no longer needed.* The subdivision —**Doctrines—Introductions**, which was authorized for free-floating use under headings for religions, was cancelled and replaced with the subdivision —**Doctrines**.

The following changes to existing free floating subdivisions took place during the fourth quarter of 1999.
