

14 FTW Commander's Energy, Environment, Safety and Occupational Health Management System

JAMES R. SEARS, JR., Col, USAF
Commander

SUBJECT: Energy, Environment, Safety and Occupational Health (EESOH) Management System

1. Columbus Air Force Base's mission is to Produce Pilots, Advance Airmen, and Feed the Fight. We are committed to conducting this mission in an environmentally safe and responsible manner that will protect human health, natural resources and the environment. This commitment goes beyond compliance and encompasses the integration of a cost conscious culture (C3) and sound energy, environment, safety and occupational health (EESOH) practices into our daily decisions and activities.

2. In support of our EESOH goals, we shall:

- a. Comply with applicable federal, state, local and Air Force energy, environmental, safety and occupational health laws, standards and other requirements.**
- b. Continually assess Columbus AFB activities to determine EESOH aspects and hazards and their subsequent impact on the environment and safety of our personnel. Identify significant impacts and risks and ensure they are considered when establishing mission objectives and targets.**
- c. Actively seek opportunities for pollution prevention, waste reduction and safe work practices.**
- d. Sustain the resource base through responsible use of water, energy, alternative fuels and environmentally-friendly products and services.**
- e. Strive for continual improvement in our EESOH performance.**

3. Compliance with these EESOH goals is the responsibility of every member of Team BLAZE in accordance with his or her roles and responsibilities in the organization.
