

(1) raising awareness of the importance of sanitation and its impact on reaching other Millennium Development Goals;

(2) encouraging governments and their partners to promote and implement policies and actions for meeting the sanitation target; and

(3) mobilizing communities, particularly women's groups, towards changing sanitation and hygiene practices through sanitation health education campaigns: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That the Congress—

(1) supports the goals and ideals of the International Year of Sanitation;

(2) recognizes the importance of sanitation on public health, poverty reduction, economic and social development, and the environment; and

(3) encourages the people of the United States to observe the International Year of Sanitation with appropriate recognition, ceremonies, activities, and programs to demonstrate the importance of sanitation and hygiene in achieving the Millennium Development Goals, and to support developing countries in their efforts to achieve the Millennium Development Goal target on basic sanitation among populations at greatest need.

Agreed to August 1, 2008.

Sept. 22, 2008
[H. Con. Res. 163]

DIRECTOR OF THE NATIONAL INSTITUTES OF HEALTH—COMMENDATION

Whereas Dandy-Walker syndrome is the most common congenital malformation of the cerebellum and its causes are largely unknown;

Whereas between 10,000 and 40,000 people have Dandy-Walker syndrome in the United States;

Whereas the incidence of Dandy-Walker syndrome is at least 1 case per every 25,000 to 35,000 live births, however this is likely a significant underestimate because of difficulties diagnosing the syndrome;

Whereas the Metropolitan Atlanta Congenital Defects Program, Centers for Disease Control and Prevention reports that Dandy-Walker syndrome may affect as many as 1 in 5000 live born infants;

Whereas approximately 70 to 90 percent of patients with Dandy-Walker syndrome have hydrocephalus;

Whereas Dandy-Walker syndrome accounts for approximately 1 to 4 percent of hydrocephalus cases;

Whereas patients with Dandy-Walker syndrome present with developmental delay, enlarged head circumference, or signs and symptoms of hydrocephalus;

Whereas Dandy-Walker syndrome affects males and females approximately equally;

Whereas seizures occur in 15 to 30 percent of patients with Dandy-Walker syndrome;

CONCURRENT RESOLUTIONS—SEPT. 22, 2008 122 STAT. 5201

Whereas subnormal intelligence is manifested in 41 to 71 percent of patients with Dandy-Walker syndrome;

Whereas failure to diagnose Dandy-Walker syndrome with hydrocephalus in a Neonate or a child can cause serious neurologic complications;

Whereas Dandy-Walker syndrome is named after former University of New Mexico neurosurgeon and professor Arthur E. Walker (1907–1995) and Walter E. Dandy (1883–1941), who first described the disorder in 1914; and

Whereas there are 2 known researchers dedicated to Dandy-Walker Syndrome in the United States and additional investigators are needed: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That—

(1) Congress commends the Director of the National Institutes of Health for working with leading scientists and researchers to organize the first National Institutes of Health conference on hydrocephalus in September 2005 and the Inaugural “Cerebellar Development: Bench to Bedside International Conference” in November 2006; and

(2) it is the sense of Congress that—

(A) the Director of the National Institutes of Health should continue the current collaboration, with respect to Dandy-Walker syndrome, among the National Human Genome Research Institute, the National Institute of Biomedical Imaging and Bioengineering, the National Institute of Child Health and Human Development, the National Institute of Neurological Disorders and Stroke, and the Office of Rare Diseases;

(B) further research into the epidemiology, diagnosis, pathophysiology, disease burden, and improved treatment of Dandy-Walker syndrome and hydrocephalus should be conducted and supported; and

(C) public awareness and professional education regarding Dandy-Walker research should increase through partnerships between the Federal Government and patient advocacy organizations, such as the Dandy-Walker Alliance and the Hydrocephalus Association.

Agreed to September 22, 2008.

NATIONAL HEAT STROKE AWARENESS MONTH—
SUPPORT

Sept. 22, 2008
[H. Con. Res. 296]

Whereas heat stroke is a medical emergency that can be fatal if not properly and promptly treated, and 50 percent of those with heat stroke die from it;

Whereas children absorb more heat from a hot environment because they have greater surface area-to-body mass ratio than adults;

Whereas the smaller the child, the faster he or she can overheat;

Whereas children and adolescents may have a reduced ability to dissipate heat through sweating;
