

ical role in deploying and sustaining our troops and their equipment around the world.

Throughout our history, advances in transportation have been at the forefront of progress. Last December, we celebrated the centennial of the Wright Brothers' first flight in North Carolina. The pioneering work of the Wright Brothers and subsequent improvements in aviation ushered in new eras of freedom and captured the imaginations of people around the world.

Today, our Nation proudly continues this tradition of innovation in all transportation fields. As we observe National Defense Transportation Day and National Transportation Week, we continue to modernize transportation, and we honor transportation professionals who help to keep our transportation systems secure, efficient, and reliable.

To recognize the men and women who work in the transportation industry and who contribute to our Nation's well-being and defense, the Congress, by joint resolution approved May 16, 1957, as amended (36 U.S.C. 120), has designated the third Friday in May of each year as "National Defense Transportation Day,"; and, by joint resolution approved May 14, 1962, as amended (36 U.S.C. 133), declared that the week during which that Friday falls be designated as "National Transportation Week.";

NOW, THEREFORE, I, GEORGE W. BUSH, President of the United States of America, do hereby proclaim Friday, May 21, 2004, as National Defense Transportation Day and May 16 through May 22, 2004, as National Transportation Week.

IN WITNESS WHEREOF, I have hereunto set my hand this fourteenth day of May, in the year of our Lord two thousand four, and of the Independence of the United States of America the two hundred and twenty-eighth.

GEORGE W. BUSH

Proclamation 7786 of May 14, 2004

National Hurricane Preparedness Week, 2004

By the President of the United States of America

A Proclamation

Hurricanes are among nature's most powerful forces, bringing destructive winds, tornadoes, and floods from torrential rains and ocean storm surges. Each year, several hurricanes develop off American shores in the Atlantic Ocean, Caribbean Sea, and Gulf of Mexico. Some of these strike the United States coastline every year, causing numerous fatalities and costing billions of dollars in damage. Many Americans are vulnerable to the dangers of these storms.

In recent years, advances in how we predict and track these storms have improved preparedness and saved lives, but people living in hurricane-prone areas still must be prepared. The National Hurricane Center within the Department of Commerce's National Oceanic and Atmospheric Administration (NOAA) recommends developing a family dis-

aster plan, creating a disaster supply kit, and staying aware of current weather situations.

While citizens make preparations to keep themselves safe, the Federal Government is maintaining our commitment to improve forecasts to provide advance warning and to coordinate effective emergency response. The Department of Homeland Security's Federal Emergency Management Agency is also working on a plan to better position disaster equipment and supplies, so Federal resources to support local emergency services arrive quickly.

While no policy can eliminate the threat that hurricanes pose to lives and property, cooperation among citizens and Federal, State, and local officials can reduce the dangers and provide a more effective response to these storms.

NOW, THEREFORE, I, GEORGE W. BUSH, President of the United States of America, by virtue of the authority vested in me by the Constitution and laws of the United States, do hereby proclaim May 16 through May 22, 2004, as National Hurricane Preparedness Week. I call upon government agencies, private organizations, schools, news media, and residents in hurricane-prone areas to share information about hurricane preparedness and response, and to implement steps to minimize storm damage and save lives. I also call upon Americans living in the coastal areas of our Nation to use this opportunity to learn more about how to protect themselves against the effects of hurricanes and tropical storms.

IN WITNESS WHEREOF, I have hereunto set my hand this fourteenth day of May, in the year of our Lord two thousand four, and of the Independence of the United States of America the two hundred and twenty-eighth.

GEORGE W. BUSH

Proclamation 7787 of May 14, 2004

Small Business Week, 2004

By the President of the United States of America

A Proclamation

The dedication and entrepreneurial spirit of small business owners are vital to our Nation's economic growth and prosperity. We celebrate Small Business Week to applaud the efforts of America's small business men and women in our communities.

Small businesses are a central part of America's economy. They create approximately 70 percent of new private sector jobs in this country. As our Nation's economy continues to grow stronger, we must encourage their spirit of enterprise.

To help small businesses invest and create more jobs, we have decreased the tax burden. We have given small business men and women a fair chance to bid on government contracts. We have a plan to create more opportunity for America's small businesses and workers by making health care costs more affordable and predictable; streamlining regulations and paperwork requirements; reducing frivolous lawsuits;
