AN ACT

September 1, 1954
[H. R. 10009]

To provide for the review of customs tariff schedules, to improve procedures for the tariff classification of unenumerated articles, and for other purposes.

Customs Simpli-
fication Act of
1954.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Customs Simplification Act of 1954".

TITLE I—REVIEW OF CUSTOMS TARIFF SCHEDULES

SEC. 101. (a) The United States Tariff Commission shall proceed promptly to make a complete study of all provisions of the customs laws of the United States under which imported articles may be classified for tariff purposes, including the dutiable and free lists and related special provisions of the Tariff Act of 1930, as amended and as modified, the provisions of the Internal Revenue Code relating to the duties designated as import taxes, as amended and as modified, and other laws. The Commission shall compile a revision and consolidation of such provisions of the customs laws which, in the judgment of the Commission, will accomplish to the extent practicable the following purposes:

46 Stat. 590.
19 USC 1654.

(1) Establish schedules of tariff classifications which will be logical in arrangement and terminology and adapted to the changes which have occurred since 1930 in the character and importance of articles produced in and imported into the United States and in the markets in which they are sold.

(2) Eliminate anomalies and illogical results in the classification of articles.

(3) Simplify the determination and application of tariff classifications.

(b) The Commission shall seek to accomplish the purposes of subsection (a) without suggesting changes in any rate or rates of duty on individual products, whether those rates are applied by statute or by Presidential proclamation. Where, however, in the judgment of the Commission, the purposes of subsection (a) cannot be accomplished without such changes, the Commission shall specify each incidental change in rates which in its judgment would accomplish such purposes, and shall accompany it with a summary of all the data on which such suggested change was based, together with a statement of the probable effect of such suggested change on any industry in the United States. Before suggesting any changes in rates of duty, the Commission shall give public notice of its intention to do so and shall afford reasonable opportunity for parties interested to be present, to produce evidence, and to be heard at public hearings with respect to the probable effect of such suggested changes on any industry in the United States.

Transmission of
data, etc., to Pres-
ident and Con-
gress.

(c) Not later than two years after the enactment of this Act the Commission shall transmit copies of the schedules and accompanying data and statements to the President and to the chairmen of the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate.

Report.

(d) On or before March 15, 1955, the Commission shall report to the President and to the chairmen of the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate (1) the progress that has been made in carrying out the provisions of this section, (2) the significant complexities of tariff classification that have been developed as existing in the present law, and (3) suggestions as to standards and methods which might be

adopted for a simplification of existing tariff schedules without significant changes in tariff levels.

(e) The Commission may invoke all the powers granted to it under part II, title III, of the Tariff Act of 1930, as amended, and is authorized to make reasonable rules and regulations, for the purpose of carrying out its functions under this title.

46 Stat. 672, 685.
19 USC 1201,
1303-1351.

(f) The Commission may procure temporary and intermittent services in accordance with section 15 of the Act of August 2, 1946 (5 U. S. C., sec. 55a), but at rates not to exceed \$75 per diem for individuals. The Commission may reimburse employees, experts, and consultants for travel, subsistence, and other necessary expenses incurred by them in the performance of their official duties, and make reasonable advances to such persons for such purposes. Service by a person pursuant to the first sentence of this subsection shall not be considered as service or employment bringing such person within the provisions of section 281, 283, 284, or 1914 of title 18 of the United States Code, or section 512 of the Mutual Security Act of 1954, or section 190 of the Revised Statutes (5 U. S. C., sec. 99).

60 Stat. 810.

62 Stat. 697, 793.

(g) There are hereby authorized to be appropriated such sums as may be required to enable the United States Tariff Commission to carry out the functions assigned to it by this section.

Appropriation.

TITLE II—UNENUMERATED ARTICLES—AMERICAN GOODS RETURNED

46 Stat. 672.

"PAR. 1559. (a) Each and every imported article, not enumerated in this Act, which is similar in the use to which it may be applied to any article enumerated in this Act as chargeable with duty, shall be subject to the same rate of duty as the enumerated article which it most resembles in the particular before mentioned; and if any non-enumerated article equally resembles in that particular two or more enumerated articles on which different rates of duty are chargeable, it shall be subject to the rate of duty applicable to that one of such two or more articles which it most resembles in respect of the materials of which it is composed.

"(b) The words 'component of chief value', wherever used in this Act, shall be held to mean that component material which shall exceed in value any other single component material of the article involved; and the value of each component material shall be determined by the ascertained value of such material in its condition as found in the article.

Definition.

"(c) If two or more enumerations shall be equally applicable to any article, it shall be subject to duty at the highest rate prescribed for any such enumeration."

CERTAIN METAL ARTICLES RETURNED TO UNITED STATES

SEC. 202. Paragraph 1615 (g) of the Tariff Act of 1930, as amended (U. S. C., 1952 edition, title 19, sec. 1201, par. 1615 (g)), is further amended to read as follows:

52 Stat. 1093.

"(g) (1) Any article exported from the United States for repairs or alterations may be returned upon the payment of a duty upon the value of the repairs or alterations at the rate or rates which would apply to the article itself in its repaired or altered condition if not within the purview of this subparagraph (g).

“(2) If—

“(A) any article of metal (except precious metal) manufactured in the United States or subjected to a process of manufacture in the United States is exported for further processing; and

“(B) the exported article as processed outside the United States, or the article which results from the processing outside the United States, as the case may be, is returned to the United States for further processing,

then such article may be returned upon the payment of a duty upon the value of such processing outside the United States at the rate or rates which would apply to such article itself if it were not within the purview of this subparagraph (g).

“(3) This subparagraph (g) shall not apply to any article exported—

“(A) from bonded warehouse or from continuous customs custody elsewhere than bonded warehouse with remission, abatement, or refund of duty;

“(B) with benefit of drawback through substitution or otherwise; or

“(C) for the purpose of complying with any law of the United States or regulation of any Federal agency requiring exportation.

“(4) For the purposes of this subparagraph (g), the value of repairs, alterations, or processing outside the United States shall be considered to be—

“(A) the cost to the importer of such repairs, alterations, or processing; or

“(B) if no charge is made, the value of such repairs, alterations, or processing,

as set out in the invoice and entry papers; except that, if the Secretary of the Treasury concludes that the amount so set out does not represent a reasonable cost or fair value, as the case may be, then the value of the repairs, alterations, or processing shall be determined in accordance with section 402 of this Act. No appraisalment of the imported article in its repaired, altered, or processed condition shall be required unless necessary to a determination of the rate or rates of duty applicable to such article.”

The said Commission, after such investigation as it deems necessary, shall notify the Secretary of its determination, and, if that determination is in the affirmative, the Secretary shall make public a notice (hereinafter in this Act called a ‘finding’) of his determination and the determination of the said Commission. The Secretary’s finding shall include a description of the class or kind of merchandise to which it applies in such detail as he shall deem necessary for the guidance of customs officers.

The actual number of Reserve officers in an active status at any time shall not exceed these authorized numbers unless the Secretary shall determine that a greater number is necessary for planned mobilization requirements, or unless such excess shall result directly from the operation of mandatory provisions of this or other laws.

admiral shall be a percentage of the total number of such officers in active status below the grade of rear admiral, and shall be 1.5 per centum in the grade of captain, 7 per centum in the grade of commander, 22 per centum in the grade of lieutenant commander, 37 per centum in the grade of lieutenant, and 32.5 per centum in the combined grades of lieutenant (junior grade) and ensign, except that when the actual number of Naval Reserve line officers in active status in any grade is less than the number which is so authorized, the difference may be applied to increase the authorized number in any lower grade or grades. No Reserve officer shall be reduced in rank or grade solely because of a reduction in an authorized number provided in this subsection. The authorized number of Naval Reserve officers in active status in the grade of rear admiral shall be forty-eight, distributed among the line and staff corps of the Naval Reserve in the following numbers: twenty-eight in the line, seven in the Medical Corps, eight in the Supply Corps, one in the Chaplain Corps, two in the Civil Engineer Corps, and two in the Dental Corps.

(c) The authorized number of officers of the Marine Corps Reserve in active status in each of the grades below the grade of brigadier general shall be a percentage of the total number of such officers in active status below the grade of brigadier general, and shall be 2 per centum in the grade of colonel, 6 per centum in the grade of lieutenant colonel, 12 per centum in the grade of major, 35 per centum in the grade of captain, and 45 per centum in the combined grades of first and second lieutenant, except that when the actual number of Marine Corps Reserve officers in active status in any grade is less than the number which is so authorized, the difference may be applied to increase the authorized number in any lower grade or grades. No Reserve officer shall be reduced in rank or grade solely because of a reduction in an authorized number provided in this subsection. The total authorized number of Marine Corps Reserve officers in active status in general officer grades shall be five.

(d) The Secretary shall prescribe the number of Reserve officers in each grade who may be promoted annually under the provisions of this title. The number which shall be so prescribed for each grade shall be the number determined to be necessary to provide equitable opportunity for promotion among succeeding groups of Reserve officers and an adequate continuing strength of Reserve officers in an active status, and shall not cause the number of Reserve officers in active status in any grade to exceed the number authorized in this section for that grade.

SEC. 403. The law now existing or hereafter enacted relating to the selection for promotion of an officer of the corresponding regular component shall apply to an officer of the reserve component, except as otherwise provided in this Act or except as may be necessary, in the discretion of the Secretary, to adapt such provisions to the reserve component. The relationship between officers of the line and staff corps of the Naval Reserve shall conform to that prescribed for line and staff officers of the Regular Navy in respect to a determination of the number of staff officers which may be recommended for promotion.

Promotion.

SEC. 404. (a) While in the grade of lieutenant (junior grade) or in a higher grade to which initially appointed, each Naval Reserve officer shall have a running mate of the same grade who shall be the line officer on active duty on the lineal list of the Navy next junior to him.

Running mates.

(b) While in the grade of first lieutenant, or a higher grade to which initially appointed, each Marine Corps Reserve officer shall have a running mate of the same grade who shall be the line officer of the regular Marine Corps next junior to him.

(c) A Reserve officer assigned a running mate at any time subsequent to the initial assignment provided in subsection (a), (b) or (f) of this section, shall be assigned such running mate in accordance with the principle prescribed by law for the assignment of running mates of the staff corps of the regular Navy, except that whenever possible such running mate shall be the line officer on active duty on the lineal list of the Navy next junior to him or the line officer of the regular Marine Corps next junior to him, in accordance with the principle expressed in subsections (a) or (b) of this section.

(d) In the application of subsections (a), (b), and (c) of this section, running mates shall be officers who by law are not restricted in the performance of duty.

(e) A woman Reserve officer shall have as her running mate a woman officer of the corresponding regular component.

(f) A Reserve officer who has been assigned a running mate under laws in effect on the effective date of this Act, shall continue to be considered for the purposes of this Act with that running mate, unless assigned a new running mate under the provision of subsection (c) of this section.

Eligibility for promotion.

SEC. 405. (a) A male Naval Reserve officer of any grade higher than ensign shall be in a promotion zone when his running mate is in or above a promotion zone and shall then become eligible for consideration by a selection board for promotion to the next higher grade. A woman Naval Reserve officer of any grade higher than ensign shall become eligible for consideration for promotion when her running mate becomes eligible for consideration for promotion, and shall remain eligible for consideration for promotion until transferred to the Retired Reserve or the inactive-status list or discharged under any law. An officer of the Nurse Corps Reserve of any grade higher than ensign shall be eligible for consideration for promotion when she is senior to the junior officer in the same grade on active duty on the lineal list who has been selected for promotion.

(b) A male Marine Corps Reserve officer of any grade higher than second lieutenant shall be in a promotion zone when his running mate or any male Reserve officer junior to that Reserve officer is in or above a promotion zone and shall then become eligible for consideration by a selection board for promotion to the next higher grade. A woman Marine Corps Reserve officer of any grade higher than second lieutenant shall be eligible for consideration for promotion when her running mate, or any woman Reserve officer junior to that woman Reserve officer, becomes ineligible for consideration by a selection board for promotion to the next higher grade.

(c) A Reserve officer in the grade of ensign or second lieutenant shall be eligible for promotion to the grade of lieutenant (junior grade) or first lieutenant, respectively, upon the completion of three years' service in grade in an active status computed from date of rank of ensign or second lieutenant.

(d) The name of any officer who is otherwise eligible for consideration for selection for promotion under subsections (a) or (b) of this section, or for promotion under subsection (c) of this section, but who has failed to meet requirements for eligibility prescribed by the Secretary of the Navy, may be withheld from consideration.

Date of rank upon promotion.

SEC. 406. Except as otherwise provided in this Act, the laws relating to the eligibility for promotion and the promotion of an officer of the regular component on a promotion list shall apply to an officer of the reserve component on a promotion list, except that—

(1) a line officer of the Naval Reserve shall have, on promotion, the same date of rank which has been, or in due course will be, given the officer who is to be his running mate in the grade

to which promoted and shall be allowed the pay and allowances of the higher grade for duty performed from the date of the vacancy that such running mate was promoted to fill; and

(2) an officer of the Marine Corps Reserve shall have, on promotion, the same date of rank which has been, or in due course will be, given the officer who is to be his running mate in the grade to which promoted, or, if considered for promotion by reason of being senior to a Reserve officer on active duty in the promotion zone, the same date of rank as that Reserve officer; and shall be allowed the pay and allowances of the higher grade for duty performed from the date he became eligible for promotion.

SEC. 407. (a) This title shall apply only to a Reserve officer in an active status. However, the provisions of this title relating to eligibility for consideration by a selection board for promotion shall not apply to any such officer whose name was furnished by the Secretary of the Navy to the immediately preceding selection board appointed to recommend officers on active duty in the Navy or Marine Corps for promotion to the grade next higher than that of the officer concerned.

Applicability of title.

(b) Notwithstanding subsection (a), any Reserve officer who has been selected for promotion under any law, and whose status with respect to active duty has been changed prior to his promotion, shall be eligible for promotion under the provisions of this Act.

SEC. 408. (a) No Reserve officer shall be promoted to a higher grade until he has qualified therefor by such moral, professional, and physical examinations as the Secretary may prescribe, and until he has attained the minimum number of points prescribed by the Secretary with the approval of the Secretary of Defense. The physical standards for promotion shall be the same as those which may be prescribed for retention in the Naval Reserve or Marine Corps Reserve.

Qualifications for promotion.

(b) Subsection (a) of this section shall not exclude from the promotion to which he would otherwise be regularly entitled any Reserve officer in whose case a medical board may report that his physical disqualification for duty at sea or in the field was occasioned by wounds received in the line of duty, and that such wounds do not incapacitate him for other duties in the grade to which he shall be promoted.

SEC. 409. The President may remove the name of any Reserve officer from the promotion list. An officer whose name is so removed from the promotion list, or one whose appointment is rejected by the Senate, shall continue to be eligible for consideration for recommendation for promotion. The next ensuing selection board may recommend the officer concerned for promotion, and thereupon, with the approval of the President, the name of such officer shall be replaced on the promotion list without prejudice by reason of its having been temporarily removed therefrom, and when promoted such officer shall take the same lineal rank and date of rank that he would have had had his name not been so removed. If such officer is not so recommended by such next ensuing selection board or if the President shall again remove his name from the promotion list or if the Senate shall again reject his appointment, he shall be held for all purposes to have twice failed of selection for promotion.

Removal by President or rejection by Senate.

SEC. 410. Reserve officers in each grade shall take precedence among themselves and with officers of the same grades of the corresponding regular component in accordance with the dates of rank stated in their commissions. When Reserve and Regular officers of the same grade have the same date of rank they shall take precedence among themselves as determined by the Secretary.

Precedence.

SEC. 411. (a) A Reserve officer who is eliminated from an active status under this section—

Attrition.

(1) shall be afforded opportunity to request transfer to the Retired Reserve if qualified; and

(2) if qualified and he elects transfer to the Retired Reserve, shall be so transferred; or

(3) if not transferred to the Retired Reserve under (1) and (2) above, shall be transferred to the inactive status list or discharged in the discretion of the Secretary.

(b) Notwithstanding any other provision of this title, whenever the Secretary shall determine it to be necessary to provide a steady flow of promotion, an appropriate number of Reserve officers may be eliminated from an active status.

(c) A Reserve officer not above the grade of lieutenant in the Naval Reserve or captain in the Marine Corps Reserve after failing of selection for promotion to the next higher grade a second time may be retained in or eliminated from an active status in the discretion of the Secretary. Other Reserve officers who are not on a promotion list after failing of selection for promotion to the next higher grade a second time shall be given opportunity to apply for transfer to the Retired Reserve if qualified, but unless so transferred shall be discharged if they have completed the following periods of total commissioned service for the grades specified:

Grade	Total commissioned service
Captain-colonel	30 years
Commander-lieutenant colonel	26 years
Lieutenant commander-major	20 years

For the purposes of this subsection, the total commissioned service of an officer who shall have served continuously in the Naval Reserve or Marine Corps Reserve following appointment therein in the grade or rank of ensign or second lieutenant shall be computed from June 30 of the fiscal year in which he accepted appointment. Each other officer shall be deemed to have for these purposes as much total commissioned service as any officer of the line of the Regular Navy not restricted in performance of duty, or officer of the Regular Marine Corps, as appropriate, who has served continuously since original appointment as ensign in the Regular Navy or as second lieutenant in the Regular Marine Corps and has not lost numbers or precedence and who is or subsequent to September 6, 1947, shall have been junior to such other officer, except that the total commissioned service such other officer shall be deemed to have shall not be less than the actual number of years he has served in commissioned officer status above the grade of commissioned warrant officer.

(d) Except as otherwise provided in this Act, a woman Reserve officer may be retained in or eliminated from an active status in the discretion of the Secretary at the times prescribed by law for the retirement or separation from the active list of the woman line officer of the Regular Navy or the Regular Marine Corps next junior to her or at any time thereafter. For the purposes of this subsection only, all commissioned service shall be considered as active commissioned service.

(e) An officer of any grade of the Nurse Corps of the Naval Reserve may be eliminated from an active status under the conditions prescribed by law for the separation from the active list of an officer of the same grade in the Nurse Corps of the Regular Navy by reason of age or failure of selection for promotion.

(f) No Reserve officer shall be involuntarily eliminated from an active status pursuant to subsections (b), (d), and (e) of this section except upon the recommendation of a Board which shall be appointed by the Secretary and convened at such times as he may direct.

SEC. 412. (a) A Reserve officer not previously transferred to the Retired Reserve shall be so transferred on the date on which he becomes sixty-two years of age. However, a Reserve officer initially appointed prior to January 1, 1953, who cannot complete twenty years of satisfactory Federal service for retirement purposes by age sixty-two, but can complete such service by age sixty-four, may be retained in an active status not later than the date on which he becomes sixty-four years of age.

Retirement for age.

(b) Notwithstanding the provisions of subsection (a), the Secretary may authorize and designate a flag or general officer to be retained in an active status until he becomes sixty-four years of age. However, not more than such ten officers of the Naval Reserve and Marine Corps Reserve may be so retained in an active status at any one time, distributed between the Naval Reserve and Marine Corps Reserve as the Secretary may determine.

SEC. 413. (a) Notwithstanding any other provision of this Act, a Reserve officer above the grade of ensign or second lieutenant to whom this title applies may be promoted under regulations prescribed by the Secretary whenever any part or parts of the law governing the promotion of his running mate are suspended by the President. A Reserve officer of the grade of ensign or second lieutenant may be promoted under regulations prescribed by the Secretary whenever officers of the corresponding Regular component of the same grade are being promoted with less than three years' service. Such regulations shall provide for equality of opportunity for consideration for promotion among the officers of the Naval Reserve and among the officers of the Marine Corps Reserve, respectively.

Suspension of other laws.

(b) Reserve officers may be promoted under this section in such numbers as the Secretary may prescribe.

(c) Notwithstanding any other provision of law, if the promotion of the running mate of a Reserve officer is on a temporary basis, the promotion of the Reserve officer shall be on a temporary basis. If subsequently the running mate is reverted to a lower grade (for reasons other than disciplinary), the Reserve officer shall likewise revert to the same lower grade in the same manner as his running mate and take corresponding precedence. If the running mate is permanently appointed in the grade in which he is serving on a temporary basis, the Reserve officer likewise may be permanently appointed to the grade in which he is serving on a temporary basis.

Temporary promotions.

The numbers authorized for any grade may be exceeded by the number of vacancies existing in any higher grade. It is not mandatory that the numbers authorized for the several grades be maintained.

(b) The authorized number of Reserve officers in any grade below colonel may be temporarily increased to give effect to the promotion system prescribed in this title.

(c) An officer retained in an active status under section 205 of this Act is an additional number to officers otherwise authorized by law.

SEC. 504. (a) For promotion purposes, seniority among Reserve officers is determined as follows:

Seniority for promotion purposes.

(1) Officers in any grade shall be senior to all officers in any lower grade;

(2) Among officers of the same grade—

(A) the officer with the longest period of promotion service in grade is the senior;

(B) when seniority determined under clause (2) (A) is the same, the officer with the longest service as a commissioned officer (including service in the federally recognized National Guard or in a federally recognized status therein prior to 1933) is the senior; and

(C) in all other cases the Secretary shall establish seniority.

(b) A Reserve officer who is returned to an active status shall, for the purpose of promotion, if necessary, suffer loss of precedence, and a reduction in his years of promotion service in grade, so that one year after the date on which he is returned to an active status, the years of promotion service with which he is entitled to be credited for promotion purposes shall not be more than four, seven, or seven years of promotion service in grade if he is in the grade of first lieutenant, captain, or major, respectively.

SEC. 505. (a) A person credited with service under section 201 of this Act shall be appointed as a Reserve officer in the grade indicated as follows:

(5) A person with at least twenty-one years—lieutenant colonel, except that a person with at least twenty-three years may, under regulations prescribed by the Secretary, be appointed in the grade of colonel.

(b) In determining seniority in grade and eligibility for promotion, a person appointed as a Reserve officer in a grade below colonel under this section shall be credited with the number of years of promotion service in the grade in which appointed equal to the difference between the number of years of service credited under section 201 of this Act and the minimum number of years of service required under subsection (a) of this section for the grade in which he was appointed.

SEC. 506. (a) A Reserve officer in the grade of second lieutenant may not be promoted to, or federally recognized in, the next higher grade until he has completed three years of promotion service in the grade of second lieutenant.

Minimum service in grade.

(b) A Reserve officer in a grade above second lieutenant, other than an adjutant general or assistant adjutant general of a State, a Territory, or the District of Columbia who holds his grade as a Reserve officer solely because of his position as an adjutant general or an assistant adjutant general, may not be considered by a selection board for promotion, or examined by a Federal recognition board for Federal

recognition in the next higher grade, until he has completed the following minimum number of years of promotion service in grade:

Grade	Minimum number of years of promotion service in that grade

Time limit for consideration.

SEC. 507. Selection.

SEC. 508. (a) Selection boards to consider officers for promotion shall be convened from time to time in such number, and under such regulations, as the Secretary may prescribe,

(b) Except when it is considering officers under section 513 of this title and except for officers covered by section 522 of this title who may not be considered at that time, whenever a Reserve officer is being considered by a selection board for promotion, the board shall consider all Reserve officers in that officer's grade who are senior to him and whose names are not carried on a recommended list.

(c) The name of each Reserve officer who is recommended for promotion by a selection board shall be placed on a recommended list for promotion, and carried thereon until the officer is promoted to the grade for which recommended or until his name is removed therefrom under another provision of this Act. The names of Reserve officers recommended by such a selection board shall be placed on the appropriate recommended list below the names of Reserve officers recommended by any prior selection board but in the same order as existed among themselves at the time of their consideration by the selection board. Except as provided in sections 513, 519, and 521 (1) of this title, no Reserve officer whose name is on a recommended list may be promoted ahead of any other officer whose name precedes his on the same recommended list.

Promotion to first lieutenant.

SEC. 509. (a) Except as provided in subsection (b) of this section, each officer of the Air Force Reserve in an active status in the grade of second lieutenant who is found to be qualified for promotion shall be promoted to the grade of first lieutenant effective on that date upon which he completes three years of promotion service in grade.

(b) A Reserve officer in the grade of second lieutenant who completes three years of promotion service in grade and who is found not qualified for promotion, shall, notwithstanding any other provision of law except section 204 or 205 of this Act, be discharged.

Captain, major, and lieutenant colonel. Consideration.

SEC. 510. (a) Irrespective of the existence of a vacancy in the next higher grade, each Reserve officer in the grade of first lieutenant, captain, or major shall be considered for promotion sufficiently in advance of the date on which he completes four, seven, or seven years of promotion service in grade, respectively, and seven, fourteen, or twenty-one total years of service, respectively, so that, if recommended for promotion by the selection board, he may be promoted effective on the date upon which he completes that service.

(b) Based upon the number of existing and anticipated vacancies in the Air Force Reserve in the grade of captain, major, or lieutenant colonel, the Secretary may direct a selection board to consider and

recommend Reserve officers for promotion to those grades. The names of the officers to be considered shall include—

- (1) the name of the senior officer in the grade of first lieutenant, captain, or major, as the case may be, and whose name is not on a recommended list; and
- (2) the name of such additional officers in those grades, in order of seniority, as the Secretary may prescribe.

(c) This section does not apply to the promotion of female Reserve officers designated as nurses or women medical specialists to a grade above captain, or to the promotion of any female Reserve officer appointed under section 310 of the Women's Armed Services Integration Act of 1948 (5 U. S. C. 627i), to a grade above major.

SEC. 511. (a) A Reserve officer whose name is on a recommended list may be promoted to fill a vacancy at any time, but shall be promoted, irrespective of the existence of a vacancy, on the date upon which he completes four years of promotion service in grade and seven total years of service, if he is in the grade of first lieutenant; seven years of promotion service in grade and fourteen total years of service, if he is in the grade of captain; or seven years of promotion service in grade and twenty-one total years of service, if he is in the grade of major.

(b) A Reserve officer on active duty who is recommended for promotion to a grade higher than that in which he is serving, shall, before being promoted, elect to serve on active duty in the grade in which he is then serving or be released.

SEC. 512. (a) When a Reserve officer in the grade of first lieutenant, captain, or major must be considered by a selection board for promotion because he will complete the prescribed number of years of promotion service in grade and total years of service, the Secretary may furnish to the selection board the names of such officers to be considered for promotion to the grade concerned and direct the board to recommend those whom it considers fully qualified for promotion.

(b) Whenever Reserve officers are to be considered by a selection board for promotion to fill existing or anticipated vacancies, the Secretary may direct the board to—

- (1) consider the officers whose names are referred to it in the order of their seniority;
- (2) recommend those considered who are fully qualified for promotion;
- (3) pass over those who are not fully qualified for promotion; and
- (4) continue such procedure until the number of officers specified by him to be recommended is obtained.

(c) In lieu of the procedure prescribed in subsection (a) or (b), the Secretary may furnish to a selection board the names of Reserve officers to be considered by it and direct the board to recommend for promotion a specific number of officers whom the board considers to be the best qualified of those named for consideration. When officers are considered for promotion to the grade of captain, major, or lieutenant colonel, under this subsection, the selection board shall recommend for promotion at least 80 percent of the officers named for consideration.

(d) This section does not apply to the promotion of female Reserve officers designated as nurses or women medical specialists to a grade above captain, or to the promotion of any female Reserve officer appointed under section 310 of the Women's Armed Services Integration Act of 1948 (5 U. SEC. 513. (a) Whenever there are vacancies in the Air Force Reserve in grade of captain, major, lieutenant colonel, or colonel, and the Secretary considers that there are or will be an inadequate number of officers in any of those grades with special qualifications, he may direct a selection board to recommend for promotion to that grade a prescribed number of officers of the Air Force Reserve with those qualifications. In selecting officers for promotion under this subsection to a grade below colonel, the procedures prescribed in subsection 512 (b), or in the first sentence of subsection 512 (c), of this title shall be followed. In selecting officers for promotion under this subsection to the grade of colonel, the procedures prescribed in the first sentence of subsection 512 (c) of this title shall be followed.

(b) Whenever in the opinion of the Secretary the number of officers in the grade of captain, major, lieutenant colonel, or colonel in—

(2) the Air Force Reserve in positions which are to be filled by officers with mobilization assignments or designations;

is, or may become, unbalanced and vacancies exist in any of those grades, he may direct that, of the officers to be considered and selected for those grades by a selection board, specified numbers be selected from among officers of the Air Force Reserve who are not on active duty and who are specially qualified for, and geographically available to fill, such vacancies. In selecting officers for promotion under this subsection, the procedure prescribed in the first sentence of subsection 512 (c) of this title shall be followed.

(c) An officer recommended for promotion under this section may be promoted only to fill a vacancy for which recommended.

(d) Officers whose names are on a recommended list and who meet the requirements of subsection (b) of this section may be promoted as prescribed in this section, in the order in which their names appear on that recommended list.

(e) If an officer enters upon active duty before being promoted to fill a vacancy for which he was recommended under subsection (b) of this section, his name shall be removed from the recommended list and he shall be treated as if he had not been considered for promotion under this section.

(f) An officer considered for promotion under this section, but not recommended by a selection board, is not a deferred officer.

Temporary grade
higher than perma-

SEC. 514. (a) A Reserve officer serving on active duty in a temporary grade higher than his permanent grade and who was promoted to that temporary grade under a general selection board procedure shall, upon application, be promoted to the next higher permanent grade upon completing the promotion service prescribed by section 506 (b) of this title without further selection board action. If he is an officer of the Air National Guard of the United States and applies for permanent promotion under this section, the Governor or other appropriate authority of the State, Territory, or the District of Columbia, whichever is concerned, may promote the officer to fill a vacancy specially created, if necessary, in the State or Territory, or in the District of Columbia, whichever is concerned. If the officer is promoted he shall be extended Federal recognition in the higher grade, without the examination prescribed in section 75 of the National Defense Act, as amended, effective on the date of that promotion. If he is not promoted in the Air National Guard of the State, Territory, or the District of Columbia, whichever is concerned, within ninety days after his application therefor, Federal recognition in his permanent grade shall be terminated and he shall be transferred to the Air Force Reserve and promoted.

(b) A Reserve officer serving on active duty in a temporary grade higher than his permanent grade, who was promoted to that temporary grade under any procedure, and who is released from active duty before completing the promotion service in grade prescribed in section 506 (b) of this title, shall retain that temporary grade. After completing that prescribed promotion service in grade, an officer of the Air Force Reserve shall, upon application, be promoted to the next higher permanent grade without regard to vacancies in that grade.

(c) An officer of the Air National Guard of the United States who is appointed to a temporary grade under subsection (b) shall, if promoted to the same grade in the Air National Guard of the State, Territory, or the District of Columbia, whichever is concerned, be extended Federal recognition in that grade, without the examination prescribed by section 75 of the National Defense Act, as amended, and if necessary be carried as an additional number therein until a vacancy occurs, but not to exceed two years. If such a vacancy does not occur within two years, his Federal recognition shall be terminated, and he shall be transferred to the Air Force Reserve.

TITLE VI—THE COAST GUARD RESERVE

SEC. 601. As used in this title—

(a) "Secretary" means the Secretary of the respective department in which the Coast Guard is operating.

(b) "Reserve" means the Coast Guard Reserve.

(c) "Reserve officer" means an officer in the Coast Guard Reserve except those officers specifically excluded by subsection 602 (b) of this title.

SEC. 602. (a) This title is applicable only to the Coast Guard Reserve.

Applicability of title.

(b) This Act is not applicable to those officers of the Reserve whose names appear in the Register of the Commissioned and Warrant Officers and Cadets of the United States Coast Guard. Such officers shall be considered for promotion under the regulations governing promotion of officers of the Regular Coast Guard as though such officers were officers of the Regular Coast Guard.

(c) This title shall apply equally to women members of the Reserve except where the context indicates otherwise.

(d) Temporary members of the Coast Guard Reserve are excluded from the provisions of this Act.

Authorized number of officers.

SEC. 603. (a) The authorized number of officers in the Coast Guard Reserve in active status shall be six thousand. The actual number of Reserve officers in active status at any time shall not exceed these authorized numbers unless the Secretary shall determine that a greater number is necessary for planned mobilization requirements, or unless such excess shall result directly from the operation of mandatory provisions of this or other laws.

(b) The authorized number of officers of the Coast Guard Reserve in active status in each of the grades below the grade of rear admiral shall be a percentage of the total number of such officers in active status below the grade of rear admiral, and shall be 0.6 per centum in the grade of captain, 3.5 per centum in the grade of commander, 25 per centum in the grade of lieutenant commander, 37 per centum in the grade of lieutenant, and 33.9 per centum in the combined grades of lieutenant (junior grade) and ensign, except that when the actual number of Coast Guard Reserve officers in active status in any grade is less than the number which is so authorized, the difference may be applied to increase the authorized number in any lower grade or grades. No Reserve officer shall be reduced in rank or grade solely because of a reduction in an authorized number provided in this subsection. The authorized number of Coast Guard Reserve officers in active status in the grade of rear admiral shall be two.

(c) The Secretary may determine the number of Reserve officers in each grade who may be promoted annually under the provisions of this title. The number which shall be so determined for each grade shall be the number deemed to be necessary to provide equitable opportunity for promotion among succeeding groups of Reserve officers and an adequate continuing strength of Reserve officers in an active status, and shall not cause the number of Reserve officers in active status in any grade to exceed the number authorized in this section for that grade.

Promotion.

SEC. 604. (a) Except as otherwise provided by law, all promotions of Reserve officers shall be effected pursuant only to the recommendation of a selection board.

(b) Selection boards shall be convened from time to time so that Reserve officers in the promotion zone for a particular grade will receive consideration for promotion concurrently with, or as soon as practicable after, their running mates. Separate boards may be convened to consider officers in one or more grades; or one board may be convened to consider officers in all grades, whichever is most practicable, provided that all members of such boards shall be senior to all officers to be considered by the board.

(c) Each selection board, from among those officers whose names are submitted to it as determined by section 607 of this title, and without regard to existing precedence or seniority, shall recommend for promotion those officers whom it considers to be qualified to assume the duties of the next higher grade. Such officers shall receive consideration in the order of their relative seniority and when the number of officers found to be qualified equals the number of vacancies to be filled, the board need not consider any officers junior to the last officer found to be qualified and recommended for promotion.

(d) Any such junior officers not considered pursuant to subsection (c) of this section shall not be considered to have failed of selection, and the names of such officers shall be again submitted to the next ensuing selection board.

(e) The law and regulations now or hereafter existing relating to the selection for promotion of commissioned officers of the Coast

Guard to the grade of rear admiral shall apply to officers of the Reserve except that no officer in the grade of captain shall be eligible for consideration who has not completed a minimum of twenty years of total commissioned Coast Guard or Coast Guard Reserve service. Until January 1, 1963, for purposes of this subsection, in addition to actual commissioned service, a Reserve officer initially appointed in a grade above that of ensign shall be allowed a period of constructive service equal to that of the regular officer next senior to him in precedence who has served continuously on active duty and who has not lost numbers or precedence, computed from the date of such regular officer's first appointment as ensign up to the date of original appointment of such Reserve officer.

(f) The report of each promotion board shall be submitted to the Commandant for review and transmission to the President for approval. In case any officer or officers recommended by a board for promotion are not acceptable to the President, the final action by the President will disapprove their selection for promotion.

(g) The recommendations of promotion boards, as approved by the President, will constitute promotion lists from which promotion of officers of the Reserve will be made, subject to establishment of physical qualification and verification that service subsequent to the convening of the promotion board has remained of satisfactory character. Officers on a promotion list will remain thereon until promoted unless removed by the President for due cause. If an existing promotion list has not been exhausted by the time a later list has been approved, all remaining officers on the older list shall be tendered appointments before use of the later list is commenced.

(h) The procedure of selection boards and the procedures for effecting the promotion of those officers selected shall be as determined by the Secretary.

SEC. 605. Officers of the Reserve shall have rank and take precedence in their respective grades among themselves and with officers of the same grades of the Regular Coast Guard respectively in accordance with the dates of rank as stated in their commissions. When Reserve and Regular officers have the same date of rank in a grade, such officers shall take precedence as determined by the Secretary.

Precedence.

SEC. 606. (a) Each officer of the Reserve in an active status shall have a running mate who shall be the officer of the Regular Coast Guard of the same grade, exclusive of extra numbers, who is next senior to him in precedence as determined in the manner prescribed in section 605 of this title.

Running mates.

(b) When necessary, new running mates shall be determined at the times and in the manner set forth below:

(1) If a running mate is retired, dies, or otherwise is separated from the service, suffers loss of numbers, or fails to qualify for promotion, the new running mate shall be the officer of the Regular Coast Guard of the same grade who was next senior to the old running mate, exclusive of extra numbers, or if there be no such Regular officer then the most senior Regular officer in the grade.

(2) If an officer of the Reserve suffers loss of numbers, the new running mate shall be the officer of the Regular Coast Guard, exclusive of extra numbers, who is the running mate of the Reserve officer next senior to the officer concerned after the loss of numbers has been effected.

(3) If an officer of the Reserve fails of selection or fails to qualify for promotion and his running mate is promoted, the new running mate shall be the senior officer of the Regular Coast Guard remaining in that grade, exclusive of extra numbers, whose name is not on a promotion list.

Promotion zone.

SEC. 607. Subject to the provisions of section 202 of title II of this Act—

(a) an officer of the Reserve shall be deemed to be in the promotion zone when his running mate is in the promotion zone and shall then become eligible for consideration by a selection board for promotion to the next higher grade at approximately the same time as his running mate is considered for promotion; and

(b) an officer whose name is on a promotion list, shall, unless his promotion is withheld pursuant to applicable laws or regulations, be tendered an appointment in the next higher grade at the same time, or as soon thereafter as practicable, as a similar appointment is tendered to his running mate.

Date of rank upon promotion.

SEC. 608. When an officer of the Reserve is promoted to the next higher grade under the provisions of this Act either for temporary service or for service in permanent grade, he shall be assigned the same date of rank as that assigned to his running mate for either and/or both types of service and shall be allowed the pay and allowances of the higher grade for duty performed from the date his running mate became entitled to such pay and allowances.

Minimum points.

SEC. 609. No officer of the Reserve shall receive consideration for promotion or be promoted under any provision of law unless he has attained the minimum number of points prescribed by the Secretary. Such number of points shall not exceed fifty points per anniversary year.

Qualifications.

SEC. 610. (a) No officer of the Coast Guard Reserve shall be promoted to a higher grade until he has been found to be mentally, morally, professionally, and physically qualified therefor.

(b) Subsection (a) of this section shall not exclude from the promotion to which he would otherwise be regularly entitled any Reserve officer in whose case a medical board may report that his physical disqualification for duty at sea or in the field was occasioned by wounds received in the line of duty, and that such wounds do not incapacitate him for other duties in the grade to which he shall be promoted.

Failure of selection and elimination.

SEC. 611. (a) A Reserve officer not above the grade of lieutenant after failing of selection for promotion to the next higher grade for a second time may be retained in or eliminated from an active status in the discretion of the Secretary. Other Reserve officers whose names are not on a promotion list after failing of selection for promotion to the next higher grade a second time shall be given an opportunity to apply for transfer to the Retired Reserve if qualified, but unless so transferred shall be discharged on June 30 of the fiscal year in which they have completed the following periods of total commissioned service for the grades specified:

Grade	Total Commissioned service
Captain	30 years
Commander	26 years
Lieutenant Commander	20 years

For the purposes of this subsection, the total commissioned service of an officer who shall have served continuously in the Coast Guard Reserve following appointment therein in the grade or rank of ensign shall be computed from June 30 of the fiscal year in which he accepted appointment. Each Reserve officer initially appointed in a grade above that of ensign shall be deemed to have for these purposes, as much total commissioned service as any officer of the Regular Coast Guard who has served continuously since original appointment as ensign, has not lost numbers or precedence and who is, or shall have been, junior to such Reserve officer, except that the total commissioned

service that such Reserve officer shall be deemed to have shall not be less than the actual number of years he has served in commissioned officer status above the grade of commissioned warrant officer.

(b) A Reserve officer who is eliminated from an active status under this section—

(1) shall be afforded an opportunity to request transfer to the Retired Reserve, if qualified; and

(2) if qualified, and he elects transfer to the Retired Reserve, shall be so transferred; or

(3) if not transferred to the Retired Reserve under (1) and (2) above, he shall be transferred to the Inactive Status List or discharged in the discretion of the Secretary.

SEC. 612. The President may remove the name of any officer from the promotion list. An officer whose name is so removed from the promotion list, or one whose appointment to flag rank is rejected by the Senate, shall continue to be eligible for consideration for recommendation for promotion. The next ensuing selection board may recommend the officer concerned for promotion, and thereupon, with the approval of the President, the name of such officer shall be replaced on the promotion list, without prejudice by reason of its having been temporarily removed therefrom, and when promoted such officer shall take the same rank and date of rank that he would have had had his name not been so removed. If such officer is not so recommended by such next ensuing selection board or if the President shall again remove his name from the promotion list or if the Senate shall again reject his appointment, he shall be held for all purposes to have twice failed of selection for promotion.

SEC. 613. (a) A Reserve officer, if otherwise qualified, shall be transferred to the Retired Reserve on the date upon which he becomes sixty-two years of age, except that a Reserve officer initially appointed prior to January 1, 1953, at such age that completion of twenty years of satisfactory Federal service for retirement purposes cannot be accomplished by age sixty-two may be retained in an active status not later than the date upon which he becomes sixty-four years of age.

(b) Notwithstanding subsection (a), the Secretary may authorize such classes or categories of Reserve flag officers as he may designate to be retained in an active status not later than the date on which the officer concerned becomes sixty-four years of age.

(c) Except as provided in subsections (a) and (b) of this section, a Reserve officer shall, unless transferred to the Retired Reserve, be discharged effective upon the date he reaches sixty-two years of age.

SEC. 614. (a) Notwithstanding any other law, if a Reserve officer is promoted when his or her running mate in the Regular Coast Guard is promoted and such promotion of the Regular running mate is on a temporary basis, the promotion of the Reserve officer concerned shall be on a temporary basis, and if subsequently the Regular running mate is reverted to a lower grade (for reasons other than disciplinary or for incompetence or at his own request), the Reserve officer shall likewise revert to the same lower grade in the same manner as his running mate in the Regular service and take corresponding precedence.

(b) An officer of the Reserve shall be promoted for temporary service or promoted permanently dependent upon the character of the promotion extended to his running mate. Subject to satisfactory service, under such appointment for temporary service, the appointment of the officer of the Reserve will be made permanent when that of his running mate is made permanent or would have been made permanent if his temporary service in the higher grade was found to have been satisfactory.

Removal by President or rejection by Senate.

Maximum ages for active status.

Type of promotion.

Officers on active duty.

SEC. 615. While serving on extended active duty, an officer of the Reserve may be promoted for temporary service in the same manner as an officer of the Regular Coast Guard. If so promoted by reason of being on active duty, the officer concerned will be considered an extra number in the higher grade of the Reserve and when released from such active duty, unless permanently promoted while on extended active duty, shall resume his permanent rank and status in the Reserve. Such officers shall also be considered by promotion boards for officers of the Reserve if they otherwise meet the requirements of this Act and the regulations of the Secretary and may be promoted in the normal manner for Reserve officers if qualified under the provisions of this Act.

Former Navy and Coast Guard officers.

SEC. 616. Former officers of the Navy or Coast Guard who are appointed in the Reserve in the same grades or ranks held in the Regular Navy or Coast Guard as a result of application therefor, made within one year from date of resignation from the Navy or Coast Guard, shall be given the same date of rank as that held by them in the Navy or Coast Guard.

Recall of retired officers.

SEC. 617. (a) Reserve officers of the Retired Reserve or officers on a Reserve retired list, when recalled to active duty, shall be recalled in the grades authorized or which may hereafter be authorized for the recall of Regular retired officers.

Grade upon relief.

(b) Notwithstanding any other provisions of this Act, any officer recalled to active duty pursuant to subsection (a) of this section and who is advanced to a higher grade under a temporary appointment shall, upon relief from active duty, if his performance of duty under such temporary appointment was satisfactory, be advanced on the retired list to the highest grade held while on active duty.

Regulations.

SEC. 618. The Secretary may prescribe such regulations, not inconsistent with this Act, as he may deem necessary and appropriate in the premises.

The said trust patents shall be in form and effect the same as corresponding trust patents heretofore issued to said individuals. The holders of exchange assignments within the said taking area shall be regarded as holders of trust patents and shall be accorded the same privileges and procedures as holders of land held in trust as in this section provided.

The right of any individual member of said Indian Tribe to reject the final appraisal made on his land and improvements shall be preserved and, if any individual does reject such final appraisal, he shall file notice of such rejection by notice in writing to the Chief of Engineers, United States Army, who shall thereupon file a proceeding in the United States District Court of the District of South Dakota as in a condemnation proceeding and jurisdiction is hereby conferred upon said Court to determine, by procedure corresponding to a condemnation proceeding, the value of said land and improvements and the said Tribal Council shall deposit with the clerk of said court the full amount set out in the final appraisal which was previously offered to said individual, which fund shall be used in payment in full or in part of the final judgment of said United States District Court. Cost of such proceedings shall be borne by the United States and the individual involved shall be entitled to counsel at his own expense. AN ACT

For the relief of the Columbia Hospital of Richland County, South Carolina.

Columbia Hospital of Richland County, S. C.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) the Secretary of the Treasury is authorized and directed to pay, out of any money in the Treasury not otherwise appropriated, to the Columbia Hospital of Richland County, South Carolina, the sum of \$18,322.92. Such sum represents reimbursement for the reasonable and necessary expenses incurred by such hospital in providing care and treatment during the period beginning September 18, 1942, and ending October 18, 1952, to one Halsford V. Sharpe, a former prisoner of the United States who is permanently and totally disabled as a result of an injury sustained by him in the course of his arrest on March 7, 1942, by agents of the Alcohol Tax Unit, Bureau of Internal Revenue, Department of the Treasury, and who was placed in such hospital by such agents on such date. The United States, through the Department of Justice, paid all expenses for such care and treatment for the period beginning March 7, 1942, and ending September 17, 1942, during which period the said Halsford V. Sharpe was in the custody of a United States marshal but, on the latter date, the said Halsford V. Sharpe was discharged from such custody and the United States disclaimed further liability in law to pay such expenses.

(b) After reference of the matter to the United States Court of Claims by H. Res. 404, Eighty-second Congress, agreed to on October 4, 1951, such court in the congressional reference case styled Columbia Hospital of Richland County against the United States (Congressional Numbered 17872, decided July 13, 1953) determined (1) that there was a moral obligation on the part of the United States to compensate the Columbia Hospital of Richland County, South Carolina, for the reasonable and necessary expenses incurred by such hospital in the care and treatment of the said Halsford V. Sharpe, (2) that the sum of \$18,322.92 is the amount of such expenses for the period beginning September 18, 1942, and ending October 18, 1952, and (3) that the United States should compensate such hospital for all such expenses occurring after the end of such period or, in lieu thereof, should arrange the transfer of the said Halsford V. Sharpe to a Federal institution properly equipped to care for him on a permanent basis.

(c) In accordance with such determination of the court, the Secretary of the Treasury, the Secretary of Health, Education, and Welfare and the Administrator of Veterans' Affairs are authorized and directed to make such arrangements as may be necessary and appropriate (1) to assist in the transfer of the said Halsford V. Sharpe, on the earliest practicable date, from the Columbia Hospital of Richland County, South Carolina, to any hospital under the jurisdiction of the Public Health Service, Department of Health, Education, and Welfare, or the Veterans' Administration, which is properly equipped to receive and care for the said Halsford V. Sharpe, and (2) to provide care and treatment on a permanent basis for the said Halsford V. Sharpe in such hospital under the jurisdiction of the Public Health Service or the Veterans' Administration, as the case may be. There are authorized to be appropriated to the Secretary of the Treasury for each fiscal year such sums as may be necessary to enable the Secretary to reimburse the Public Health Service or the Veterans' Administration, as the case may be, for care and treatment provided under the authority in this subsection.

(d) The Secretary of the Treasury is further authorized and directed to pay, out of any money in the Treasury not otherwise appropriated, to the Columbia Hospital of Richland County, South Carolina, a sum equal to the amount which shall be certified by such hospital to the United States Court of Claims, and shall be approved and certified by such court to the Secretary of the Treasury, as being the amount of the reasonable and necessary expenses incurred by such hospital in providing for the care and treatment of the said Halsford V. Sharpe during the period beginning October 19, 1952, and ending on the day immediately prior to the date of the transfer of the said Halsford V. Sharpe to the hospital under the jurisdiction of the Public Health Service or the Veterans' Administration, as provided for in subsection (c).

(e) The payments to the Columbia Hospital of Richland County, South Carolina, of the sums referred to in subsections (a) and (d) and the transfer of the said Halsford V. Sharpe to a hospital under the jurisdiction of the Public Health Service or the Veterans' Administration for care and treatment therein on a permanent basis as provided for in subsection (c) shall be in full settlement of all claims against the United States for reimbursement of expenses incurred in connection with the care and treatment of the said Halsford V. Sharpe.

(f) No part of either of the sums appropriated in this Act in excess of 10 per centum thereof shall be paid or delivered to or received by any agent or attorney on account of services rendered in connection with the claim or portion thereof settled by the payment of such sum, and the same shall be unlawful, any contract to the contrary notwithstanding, nor shall any sum appropriated in this Act be paid to such agent or attorney with respect to amounts accrued after the date of enactment of this Act. Any person violating the provisions of this subsection shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not exceeding \$1,000.

PRAYERS FOR DELIVERANCE OF THOSE BEHIND IRON CURTAIN

Whereas our country has, from its beginning, been inspired by God and its citizens throughout its history have sought His divine guidance; and

Whereas the dictatorship of communism is based upon atheism and directed toward the complete destruction of all religious worship; and

Whereas this atheistic dictatorship has subjected religious leaders and their congregations to barbaric persecutions such as the world has not seen for nearly two thousand years, as exemplified in Hungary by the torture of Cardinal Mindszenty and Lutheran Bishop Lajos Ordass, in Poland by the incarceration of Cardinal Wyszynski, in Yugoslavia by the imprisonment of Archbishop Stepinac, in Bulgaria by the oppression of Protestant ministers, and by the persecution of Jews throughout the area dominated by communism; and Whereas millions of worshipers behind the Iron Curtain are prevented by force and violence from the free exercise of their religious beliefs and rituals: Therefore be it

Resolved by the Senate (the House of Representatives concurring), That the Congress respectfully suggests that the churches and synagogues of America set aside a portion of their services on Easter Sunday and on the first day of Passover in 1954, both of which fall on April 18, for special prayers for the deliverance of all those behind the Iron Curtain who are denied freedom to worship in their own way.

Agreed to March 19, 1954.

NURSE GENEVIEVE DE GALARD-TERRAUBE

Whereas this year marks the one hundredth anniversary of Florence Nightingale's historic nursing of the wounded in the Crimean War; and

Whereas Nurse Genevieve de Galard-Terraube, officer of the Army of the Republic of France, in her ministering to the sick and wounded at Dien Bien Phu and her subsequent service to her comrades as prisoners of the Viet Minh has provided an example of the courage of a woman in battle and of the devotion of a nurse to her sworn duty which has been unsurpassed in this century; and

Whereas this inspiring woman is representative of the devotion to duty of soldiers of the Republic of France, which has been an ally of the United States for one hundred and seventy-eight years and whose people today are considered the warm friends of the people of the United States; and

Whereas Nurse Genevieve de Galard-Terraube's example of fortitude in the face of supreme danger has changed the fall of Dien Bien Phu from a military reversal to a great psychological victory of the undefeatable principles of free mankind fighting the force of darkness; and

CARACAS DECLARATION OF SOLIDARITY,

REAFFIRMATION OF SUPPORT BY UNITED STATES

Whereas for many years it has been the joint policy of the United States and the other States in the Western Hemisphere to act vigorously to prevent external interference in the affairs of the nations of the Western Hemisphere; and

Whereas in the recent past there has come to light strong evidence of intervention by the international Communist movement in the State of Guatemala, whereby government institutions have been infiltrated by Communist agents, weapons of war have been secretly shipped into that country, and the pattern of Communist conquest has become manifest; and

Whereas on Sunday, June 20, 1954, the Soviet Government vetoed in the United Nations Security Council a resolution to refer the matter of the recent outbreak of hostilities in Guatemala to the Organization of American States: Therefore, be it

Resolved by the Senate (the House of Representatives concurring), That it is the sense of Congress that the United States should reaffirm its support of the Caracas Declaration of Solidarity of March 28, 1954, which is designed to prevent interference in Western Hemisphere affairs by the international Communist movement, and take all necessary and proper steps to support the Organization of American States in taking appropriate action to prevent any interference by the international Communist movement in the affairs of the states of the Western Hemisphere.

PAYMENT OF DAMAGES TO CERTAIN UNITED NATIONS' EMPLOYEES

Whereas eleven American employees in the United Nations were asked in 1952 and 1953 to testify before the Internal Security Subcommittee of the Senate concerning their membership in the Communist apparatus and other subversive activities, but refused under the fifth amendment to answer, with the result that such subcommittee recommended their dismissal from such employment; and

Whereas on appeal the United Nations Administrative Tribunal awarded damages to the eleven employees in a total amount of \$179,420 on account of such dismissal, and the International Court of Justice has recently upheld the Administrative Tribunal; and

Whereas the case is now before the General Assembly of the United Nations, which must approve the award of such damages before payment thereof can be made; and

Whereas the United States, which pays approximately one-third of the expenses of the United Nations, should not be compelled to contribute any of its funds for the payment of damages in a case of this kind to persons who have a record of disloyalty to the United States: Therefore be it

Resolved by the House of Representatives (the Senate concurring), That it is the sense of the Congress that the United States delegation to the United Nations should take all possible steps to prevent the General Assembly of the United Nations from authorizing or approving the payment, to the eleven American employees in the United Nations who were dismissed because of their refusal under the fifth amendment to answer proper questions before the Internal Security Subcommittee of the Senate, of the awards of damages (in a total amount of \$179,420) made by the United Nations Administrative Tribunal and recently upheld by the International Court of Justice, and that no part of the funds heretofore appropriated, or hereafter appropriated by the Congress for the United Nations shall be used for the payment of such awards.

[No. 3029]

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS opportunities for suitable and gainful employment are the hope and ambition of all workers, and the American system of free choice of occupations, consistent with each worker's abilities and interests, is best suited to provide such opportunities; and

WHEREAS a great many physically handicapped workers presently employed have proved the competence of such workers when they have been rehabilitated or otherwise properly prepared for suitable jobs; and

WHEREAS there is a continuing need for greater understanding of effective methods for the placement of physically handicapped workers in suitable occupations, and community participation in educational and promotional programs can best accomplish this purpose; and

WHEREAS the Congress, by a joint resolution approved August 11, 1945 (59 Stat. 530), has designated the first week in October of each year as National Employ the Physically Handicapped Week, and has requested the President to issue a proclamation calling public attention to the need for Nation-wide support of and interest in the employment of otherwise qualified but physically handicapped men and women:

National Employ
the Physically Handi-
capped Week, 1953.

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby call upon the people of our Nation to observe the week beginning October 4, 1953, as National Employ the Physically Handicapped Week, and to cooperate with the President's Committee on Employment of the Physically Handicapped in carrying out the purposes of the aforementioned joint resolution of Congress.

I also request the Governors of States, the mayors of municipalities, other public officials, leaders of industry and labor, and members of religious, civic, veterans', agricultural, women's, handicapped-persons', and fraternal organizations, as well as other groups representative of our national life, to take part in the observance of the designated week, in order to enlist the widest possible support of programs designed to increase opportunities in employment for the physically handicapped.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this tenth day of August in the year of our Lord nineteen hundred and fifty-three, and of the Independence of the United States of America the one hundred and seventy-eighth.

REGULATIONS FOR PREVENTING COLLISIONS AT SEA

PART A.—PRELIMINARY AND DEFINITIONS

RULE 1

(a) These Rules shall be followed by all vessels and seaplanes upon the high seas and in all waters connected therewith navigable by seagoing vessels, except as provided in Rule 30. Where, as a result of their special construction, it is not possible for seaplanes to comply fully with the provisions of Rules specifying the carrying of lights and shapes, these provisions shall be followed as closely as circumstances permit.

(b) The Rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such times no other lights shall be exhibited, except such lights as cannot be mistaken for the prescribed lights or impair their visibility or distinctive character, or interfere with the keeping of a proper look-out.

(c) In the following Rules, except where the context otherwise requires:

(i) the word "vessel" includes every description of water craft, other than a seaplane on the water, used or capable of being used as a means of transportation on water;

(ii) the word "seaplane" includes a flying boat and any other aircraft designed to manoeuvre on the water;

- (iii) the term "power-driven vessel" means any vessel propelled by machinery;
- (iv) every power-driven vessel which is under sail and not under power is to be considered a sailing vessel, and every vessel under power, whether under sail or not, is to be considered a power-driven vessel;
- (v) a vessel or seaplane on the water is "under way" when she is not at anchor, or made fast to the shore, or aground;
- (vi) the term "height above the hull" means height above the uppermost continuous deck;
- (vii) the length and breadth of a vessel shall be deemed to be the length and breadth appearing in her certificate of registry;
- (viii) the length and span of a seaplane shall be its maximum length and span as shown in its certificate of airworthiness, or as determined by measurement in the absence of such certificate;
- (ix) the word "visible," when applied to lights, means visible on a dark night with a clear atmosphere;
- (x) the term "short blast" means a blast of about one second's duration;
- (xi) the term "prolonged blast" means a blast of from four to six seconds' duration;
- (xii) the word "whistle" means whistle or siren;
- (xiii) the word "tons" means gross tons.

PART B.—LIGHTS AND SHAPES

RULE 2

- (a) A power-driven vessel when under way shall carry:
 - (i) On or in front of the foremast, or if a vessel without a foremast then in the forepart of the vessel, a bright white light so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass (225 degrees), so fixed as to show the light 10 points (112½ degrees) on each side of the vessel, that is, from right ahead to 2 points (22½ degrees) abaft the beam on either side, and of such a character as to be visible at a distance of at least 5 miles.
 - (ii) Either forward of or abaft the white light mentioned in sub-section (i) a second white light similar in construction and character to that light. Vessels of less than 150 feet in length, and vessels engaged in towing, shall not be required to carry this second white light but may do so.
 - (iii) These two white lights shall be so placed in a line with and over the keel that one shall be at least 15 feet higher than the other and in such a position that the lower light shall be forward of the upper one. The horizontal distance between the two white lights shall be at least three times the vertical distance. The lower of these two white lights or, if only one is carried, then that light, shall be placed at a height above the hull of not less than 20 feet, and, if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such breadth, so however that the light need not be placed at a greater height above the hull than 40 feet. In all circumstances the light or lights, as the case may be, shall be so placed as to be clear of and above all other lights and obstructing superstructures.
 - (iv) On the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass (112½ degrees), so fixed as to show the light from right ahead to 2 points (22½ degrees) abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 2 miles.

(v) On the port side a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass ($112\frac{1}{2}$ degrees), so fixed as to show the light from right ahead to 2 points ($22\frac{1}{2}$ degrees) abaft the beam on the port side, and of such a character as to be visible at a distance of at least 2 miles.

(vi) The said green and red sidelights shall be fitted with inboard screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bows.

(b) A seaplane under way on the water shall carry:

(i) In the forepart amidships where it can best be seen a bright white light, so constructed as to show an unbroken light over an arc of the horizon of 220 degrees of the compass, so fixed as to show the light 110 degrees on each side of the seaplane, namely, from right ahead to 20 degrees abaft the beam on either side, and of such a character as to be visible at a distance of at least 3 miles.

(ii) On the right or starboard wing tip a green light, so constructed as to show an unbroken light over an arc of the horizon of 110 degrees of the compass, so fixed as to show the light from right ahead to 20 degrees abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 2 miles.

(iii) On the left or port wing tip a red light, so constructed as to show an unbroken light over an arc of the horizon of 110 degrees of the compass, so fixed as to show the light from right ahead to 20 degrees abaft the beam on the port side, and of such a character as to be visible at a distance of at least 2 miles.

RULE 3

(a) A power-driven vessel when towing or pushing another vessel or seaplane shall, in addition to her sidelights, carry two bright white lights in a vertical line one over the other, not less than 6 feet apart, and when towing more than one vessel shall carry an additional bright white light 6 feet above or below such lights, if the length of the tow, measuring from the stern of the towing vessel to the stern of the last vessel or seaplane towed, exceeds 600 feet. Each of these lights shall be of the same construction and character and one of them shall be carried in the same position as the white light mentioned in Rule 2 (a) (i), except the additional light, which shall be carried at a height of not less than 14 feet above the hull. In a vessel with a single mast, such lights may be carried on the mast.

(b) The towing vessel shall also show either the stern light specified in Rule 10 or in lieu of that light a small white light abaft the funnel or aftermast for the tow to steer by, but such light shall not be visible forward of the beam. The carriage of the white light specified in Rule 2 (a) (ii) is optional.

(c) A seaplane on the water, when towing one or more seaplanes or vessels, shall carry the lights prescribed in Rule 2 (b) (i), (ii) and (iii); and, in addition, she shall carry a second white light of the same construction and character as the white light mentioned in Rule 2 (b) (i), and in a vertical line at least 6 feet above or below such light.

RULE 4

(a) A vessel which is not under command shall carry, where they can best be seen, and, if a power-driven vessel, in lieu of the lights required by Rule 2 (a) (i) and (ii), two red lights in a vertical line one over the other not less than 6 feet apart, and of such a character as to be visible all round the horizon at a distance of at least 2 miles. By day, she shall carry in a vertical line one over the other not less than 6 feet apart, where they can best be seen, two black balls or shapes each not less than 2 feet in diameter.

(b) A seaplane on the water which is not under command may carry where they can best be seen, two red lights in a vertical line, one over the other, not less than 3 feet apart, and of such a character as to be visible all round the horizon at a distance of at least 2 miles, and may by day carry in a vertical line one over the other not less than 3 feet apart, where they can best be seen, two black balls or shapes, each not less than 2 feet in diameter.

(c) A vessel engaged in laying or in picking up a submarine cable or navigation mark, or a vessel engaged in surveying or underwater operations when from the nature of her work she is unable to get out of the way of approaching vessels, shall carry, in lieu of the lights specified in Rule 2 (a) (i) and (ii), three lights in a vertical line one over the other not less than 6 feet apart. The highest and lowest of these lights shall be red, and the middle light shall be white, and they shall be of such character as to be visible all round the horizon at a distance of at least 2 miles. By day, she shall carry in a vertical line one over the other not less than 6 feet apart, where they can best be seen, three shapes each not less than 2 feet in diameter, of which the highest and lowest shall be globular in shape and red in colour, and the middle one diamond in shape and white.

(d) The vessels and seaplanes referred to in this Rule, when not making way through the water, shall not carry the coloured sidelights, but when making way they shall carry them.

(e) The lights and shapes required to be shown by this Rule are to be taken by other vessels and seaplanes as signals that the vessel or seaplane showing them is not under command and cannot therefore get out of the way.

(f) These signals are not signals of vessels in distress and requiring assistance. Such signals are contained in Rule 31.

RULE 5

(a) A sailing vessel under way and any vessel or seaplane being towed shall carry the same lights as are prescribed by Rule 2 for a power-driven vessel or a seaplane under way, respectively, with the exception of the white lights specified therein, which they shall never carry. They shall also carry stern lights as specified in Rule 10, provided that vessels towed, except the last vessel of a tow, may carry, in lieu of such stern light, a small white light as specified in Rule 3 (b).

(b) A vessel being pushed ahead shall carry, at the forward end, on the starboard side a green light and on the port side a red light, which shall have the same characteristics as the lights described in Rule 2 (a) (iv) and (v) and shall be screened as provided in Rule 2 (a) (vi), provided that any number of vessels pushed ahead in a group shall be lighted as one vessel.

RULE 6

(a) In small vessels, when it is not possible on account of bad weather or other sufficient cause to fix the green and red sidelights, these lights shall be kept at hand lighted and ready for immediate use, and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side nor the red light on the starboard side, nor, if practicable, more than 2 points ($22\frac{1}{2}$ degrees) abaft the beam on their respective sides.

(b) To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the lights they respectively contain, and shall be provided with proper screens.

RULE 7

Power-driven vessels of less than 40 tons, vessels under oars or sails of less than 20 tons, and rowing boats, when under way shall not be required to carry the lights mentioned in Rule 2, but if they do not carry them they shall be provided with the following lights:

(a) Power-driven vessels of less than 40 tons, except as provided in section (b), shall carry:

(i) In the forepart of the vessel, where it can best be seen, and at a height above the gunwale of not less than 9 feet, a bright white light constructed and fixed as prescribed in Rule 2 (a) (i) and of such a character as to be visible at a distance of at least 3 miles.

(ii) Green and red sidelights constructed and fixed as prescribed in Rule 2 (a) (iv) and (v), and of such a character as to be visible at a distance of at least 1 mile, or a combined lantern showing a green light and a red light from right ahead to 2 points ($22\frac{1}{2}$ degrees) abaft the beam on their respective sides. Such lantern shall be carried not less than 3 feet below the white light.

(b) Small power-driven boats, such as are carried by seagoing vessels, may carry the white light at a less height than 9 feet above the gunwale, but it shall be carried above the sidelights or the combined lantern mentioned in subsection (a) (ii).

(c) Vessels of less than 20 tons, under oars or sails, except as provided in section (d), shall, if they do not carry the sidelights, carry where it can best be seen a lantern showing a green light on one side and a red light on the other, of such a character as to be visible at a distance of at least 1 mile, and so fixed that the green light shall not be seen on the port side, nor the red light on the starboard side. Where it is not possible to fix this light, it shall be kept ready for immediate use and shall be exhibited in sufficient time to prevent collision and so that the green light shall not be seen on the port side nor the red light on the starboard side.

(d) Small rowing boats, whether under oars or sail, shall only be required to have ready at hand an electric torch or a lighted lantern showing a white light which shall be exhibited in sufficient time to prevent collision.

(e) The vessels and boats referred to in this Rule shall not be required to carry the lights or shapes prescribed in Rules 4 (a) and 11 (e).

RULE 8

(a) (i) Sailing pilot-vessels, when engaged on their station on pilotage duty and not at anchor, shall not show the lights prescribed for other vessels, but shall carry a white light at the masthead visible all round the horizon at a distance of at least 3 miles, and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed 10 minutes.

(ii) On the near approach of or to other vessels they shall have their sidelights lighted ready for use and shall flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side, nor the red light on the starboard side.

(iii) A sailing pilot-vessel of such a class as to be obliged to go alongside of a vessel to put a pilot on board may show the white light instead of carrying it at the masthead and may, instead of the sidelights above mentioned, have at hand ready for use a lantern with a green glass on the one side and a red glass on the other to be used as prescribed above.

(b) A power-driven pilot-vessel when engaged on her station on pilotage duty and not at anchor shall, in addition to the lights and flares required for sailing pilot-vessels, carry at a distance of 8 feet

below her white masthead light a red light visible all around the horizon at a distance of at least 3 miles, and also the sidelights required to be carried by vessels when under way. A bright intermittent all round white light may be used in place of a flare.

(c) All pilot-vessels, when engaged on their stations on pilotage duty and at anchor, shall carry the lights and show the flares prescribed in sections (a) and (b), except that the sidelights shall not be shown. They shall also carry the anchor light or lights prescribed in Rule 11.

(d) All pilot-vessels, whether at anchor or not at anchor, shall, when not engaged on their stations on pilotage duty, carry the same lights as other vessels of their class and tonnage.

RULE 9

(a) Fishing vessels when not fishing shall show the lights or shapes prescribed for similar vessels of their tonnage. When fishing they shall show only the lights or shapes prescribed by this Rule, which lights or shapes, except as otherwise provided, shall be visible at a distance of at least 2 miles.

(b) Vessels fishing with trolling (towing) lines, shall show only the lights prescribed for a power-driven or sailing vessel under way as may be appropriate.

(c) Vessels fishing with nets or lines, except trolling (towing) lines, extending from the vessel not more than 500 feet horizontally into the seaway shall show, where it can best be seen, one all round white light and in addition, on approaching or being approached by another vessel, shall show a second white light at least 6 feet below the first light and at a horizontal distance of at least 10 feet away from it (6 feet in small open boats) in the direction in which the outlying gear is attached. By day such vessels shall indicate their occupation by displaying a basket where it can best be seen; and if they have their gear out while at anchor, they shall, on the approach of other vessels, show the same signal in the direction from the anchor ball towards the net or gear.

(d) Vessels fishing with nets or lines, except trolling (towing) lines, extending from the vessel more than 500 feet horizontally into the seaway shall show, where they can best be seen, three white lights at least 3 feet apart in a vertical triangle visible all around the horizon. When making way through the water, such vessels shall show the proper coloured sidelights but when not making way they shall not show them. By day they shall show a basket in the forepart of the vessel as near the stem as possible not less than 10 feet above the rail; and, in addition, where it can best be seen, one black conical shape, apex upwards. If they have their gear out while at anchor they shall, on the approach of other vessels show the basket in the direction from the anchor ball towards the net or gear.

(e) Vessels when engaged in trawling, by which is meant the dragging of a dredge net or other apparatus along or near the bottom of the sea, and not at anchor:

(i) If power-driven vessels, shall carry in the same position as the white light mentioned in Rule 2 (a) (i) a tri-coloured lantern, so constructed and fixed as to show a white light from right ahead to 2 points ($22\frac{1}{2}$ degrees) on each bow, and a green light and a red light over an arc of the horizon from 2 points ($22\frac{1}{2}$ degrees) on each bow to 2 points ($22\frac{1}{2}$ degrees) abaft the beam on the starboard and port sides, respectively; and not less than 6 nor more than 12 feet below the tri-coloured lantern a white light in a lantern, so constructed as to show a clear, uniform, and unbroken light all round the horizon. They shall also show the stern light specified in Rule 10 (a).

(ii) If sailing vessels, shall carry a white light in a lantern so constructed as to show a clear, uniform, and unbroken light all round the horizon, and shall also, on the approach of or to other vessels show, where it can best be seen, a white flare-up light in sufficient time to prevent collision.

(iii) By day, each of the foregoing vessels shall show, where it can best be seen, a basket.

(f) In addition to the lights which they are by this Rule required to show vessels fishing may, if necessary in order to attract attention of approaching vessels, show a flare-up light. They may also use working lights.

(g) Every vessel fishing, when at anchor, shall show the lights or shape specified in Rule 11 (a), (b) or (c); and shall, on the approach of another vessel or vessels, show an additional white light at least 6 feet below the forward anchor light and at a horizontal distance of at least 10 feet away from it in the direction of the outlying gear.

(h) If a vessel when fishing becomes fast by her gear to a rock or other obstruction she shall in daytime haul down the basket required by sections (c), (d) or (e) and show the signal specified in Rule 11 (c). By night she shall show the light or lights specified in Rule 11 (a) or (b). In fog, mist, falling snow, heavy rainstorms or any other condition similarly restricting visibility, whether by day or by night, she shall sound the signal prescribed by Rule 15 (c) (v), which signal shall also be used, on the near approach of another vessel, in good visibility.

NOTE.—For fog signals for fishing vessels, see Rule 15 (c) (ix).

RULE 10

(a) A vessel when under way shall carry at her stern a white light, so constructed that it shall show an unbroken light over an arc of the horizon of 12 points of the compass (135 degrees), so fixed as to show the light 6 points (67½ degrees) from right aft on each side of the vessel, and of such a character as to be visible at a distance of at least 2 miles. Such light shall be carried as nearly as practicable on the same level as the sidelights.

NOTE.—For vessels engaged in towing or being towed, see Rules 3 (b) and 5.

(b) In a small vessel, if it is not possible on account of bad weather or other sufficient cause for this light to be fixed, an electric torch or a lighted lantern shall be kept at hand ready for use and shall, on the approach of an overtaking vessel, be shown in sufficient time to prevent collision.

(c) A seaplane on the water when under way shall carry on her tail a white light, so constructed as to show an unbroken light over an arc of the horizon of 140 degrees of the compass, so fixed as to show the light 70 degrees from right aft on each side of the seaplane, and of such a character as to be visible at a distance of at least 2 miles.

RULE 11

(a) A vessel under 150 feet in length, when at anchor, shall carry in the forepart of the vessel, where it can best be seen, a white light in a lantern so constructed as to show a clear, uniform, and unbroken light visible all round the horizon at a distance of at least 2 miles.

(b) A vessel of 150 feet or upwards in length, when at anchor, shall carry in the forepart of the vessel, at a height of not less than 20 feet above the hull, one such light, and at or near the stern of the vessel and at such a height that it shall be not less than 15 feet lower than the forward light, another such light. Both these lights shall be visible all round the horizon at a distance of at least 3 miles.

(c) Between sunrise and sunset every vessel when at anchor shall carry in the forepart of the vessel, where it can best be seen, one black ball not less than 2 feet in diameter.

(d) A vessel engaged in laying or in picking up a submarine cable or navigation mark, or a vessel engaged in surveying or underwater operations, when at anchor, shall carry the lights or shapes prescribed in Rule 4 (c) in addition to those prescribed in the appropriate preceding sections of this Rule.

(e) A vessel aground shall carry by night the light or lights prescribed in sections (a) or (b) and the two red lights prescribed in Rule 4 (a). By day she shall carry, where they can best be seen, three black balls, each not less than 2 feet in diameter, placed in a vertical line one over the other, not less than 6 feet apart.

(f) A seaplane on the water under 150 feet in length, when at anchor, shall carry, where it can best be seen, a white light, visible all round the horizon at a distance of at least 2 miles.

(g) A seaplane on the water 150 feet or upwards in length, when at anchor, shall carry, where they can best be seen, a white light forward and a white light aft, both lights visible all round the horizon at a distance of at least 3 miles; and, in addition, if the seaplane is more than 150 feet in span, a white light on each side to indicate the maximum span, and visible, so far as practicable, all round the horizon at a distance of 1 mile.

(h) A seaplane aground shall carry an anchor light or lights as prescribed in sections (f) and (g), and in addition may carry two red lights in a vertical line, at least 3 feet apart, so placed as to be visible all round the horizon.

RULE 12

Every vessel or seaplane on the water may, if necessary in order to attract attention, in addition to the lights which she is by these Rules required to carry, show a flare-up light or use a detonating or other efficient sound signal that cannot be mistaken for any signal authorised elsewhere under these Rules.

RULE 13

(a) Nothing in these Rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for ships of war, for vessels sailing under convoy, or for seaplanes on the water; or with the exhibition of recognition signals adopted by shipowners, which have been authorised by their respective Governments and duly registered and published.

(b) Whenever the Government concerned shall have determined that a naval or other military vessel or water-borne seaplane of special construction or purpose cannot comply fully with the provisions of any of these Rules with respect to the number, position, range or arc of visibility of lights or shapes, without interfering with the military function of the vessel or seaplane, such vessel or seaplane shall comply with such other provisions in regard to the number, position, range or arc of visibility of lights or shapes as her Government shall have determined to be the closest possible compliance with these Rules in respect of that vessel or seaplane.

RULE 14

A vessel proceeding under sail, when also being propelled by machinery, shall carry in the daytime forward, where it can best be seen, one black conical shape, point upwards, not less than 2 feet in diameter at its base.

RULE 15

(a) A power-driven vessel shall be provided with an efficient whistle, sounded by steam or by some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and with an efficient fog-horn, to be sounded by mechanical means, and also with an efficient bell. A sailing vessel of 20 tons or upwards shall be provided with a similar fog-horn and bell.

(b) All signals prescribed by this Rule for vessels under way shall be given:

(i) by power-driven vessels on the whistle;

(ii) by sailing vessels on the fog-horn;

(iii) by vessels towed on the whistle or fog-horn.

(c) In fog, mist, falling snow, heavy rainstorms, or any other condition similarly restricting visibility, whether by day or night, the signals prescribed in this Rule shall be used as follows:

(i) A power-driven vessel making way through the water, shall sound at intervals of not more than 2 minutes a prolonged blast.

(ii) A power-driven vessel under way, but stopped and making no way through the water, shall sound at intervals of not more than 2 minutes two prolonged blasts, with an interval of about 1 second between them.

(iii) A sailing vessel under way shall sound, at intervals of not more than 1 minute, when on the starboard tack one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in succession.

(iv) A vessel when at anchor shall at intervals of not more than 1 minute ring the bell rapidly for about 5 seconds. In vessels of more than 350 feet in length the bell shall be sounded in the forepart of the vessel, and in addition there shall be sounded in the after part of the vessel, at intervals of not more than 1 minute for about 5 seconds, a gong or other instrument, the tone and sounding of which cannot be confused with that of the bell. Every vessel at anchor may in addition, in accordance with Rule 12, sound three blasts in succession, namely, one short, one prolonged, and one short blast, to give warning of her position and of the possibility of collision to an approaching vessel.

(v) A vessel when towing, a vessel engaged in laying or in picking up a submarine cable or navigation mark, and a vessel under way which is unable to get out of the way of an approaching vessel through being not under command or unable to manoeuvre as required by these Rules shall, instead of the signals prescribed in subsections (i), (ii) and (iii) sound, at intervals of not more than 1 minute, three blasts in succession, namely, one prolonged blast followed by two short blasts.

(vi) A vessel towed, or, if more than one vessel is towed, only the last vessel of the tow, if manned, shall, at intervals of not more than 1 minute, sound four blasts in succession, namely, one prolonged blast followed by three short blasts. When practicable, this signal shall be made immediately after the signal made by the towing vessel.

(vii) A vessel aground shall give the signal prescribed in subsection (iv) and shall, in addition, give three separate and distinct strokes on the bell immediately before and after each such signal.

(viii) A vessel of less than 20 tons, a rowing boat, or a seaplane on the water, shall not be obliged to give the above-mentioned signals, but if she does not, she shall make some other efficient sound signal at intervals of not more than 1 minute.

(ix) A vessel when fishing, if of 20 tons or upwards, shall at intervals of not more than 1 minute, sound a blast, such blast to

be followed by ringing the bell; or she may sound, in lieu of these signals, a blast consisting of a series of several alternate notes of higher and lower pitch.

RULE 16

Speed to be moderate in fog, &c.

(a) Every vessel, or seaplane when taxi-ing on the water, shall, in fog, mist, falling snow, heavy rainstorms or any other condition similarly restricting visibility, go at a moderate speed, having careful regard to the existing circumstances and conditions.

(b) A power-driven vessel hearing, apparently forward of her beam, the fog-signal of a vessel the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

PART C.—STEERING AND SAILING RULES

PRELIMINARY

1. In obeying and construing these Rules, any action taken should be positive, in ample time, and with due regard to the observance of good seamanship.

2. Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change, such risk should be deemed to exist.

3. Mariners should bear in mind that seaplanes in the act of landing or taking off, or operating under adverse weather conditions, may be unable to change their intended action at the last moment.

RULE 17

When two sailing vessels are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other, as follows:

(a) A vessel which is running free shall keep out of the way of a vessel which is close-hauled.

(b) A vessel which is close-hauled on the port tack shall keep out of the way of a vessel which is close-hauled on the starboard tack.

(c) When both are running free, with the wind on different sides, the vessel which has the wind on the port side shall keep out of the way of the other.

(d) When both are running free, with the wind on the same side, the vessel which is to windward shall keep out of the way of the vessel which is to leeward.

(e) A vessel which has the wind aft shall keep out of the way of the other vessel.

RULE 18

(a) When two power-driven vessels are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other. This Rule only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other. The only cases to which it does apply are when each of two vessels is end on, or nearly end on, to the other; in other words, to cases in which, by day, each vessel sees the masts of the other in a line, or nearly in a line, with her own; and by night, to cases in which each vessel is in such a position as to see both the sidelights of the other. It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course; or, by

night, to cases where the red light of one vessel is opposed to the red light of the other or where the green light of one vessel is opposed to the green light of the other or where a red light without a green light or a green light without a red light is seen ahead, or where both green and red lights are seen anywhere but ahead.

(b) For the purposes of this Rule and Rules 19 to 29 inclusive, except Rule 20 (b), a seaplane on the water shall be deemed to be a vessel, and the expression "power-driven vessel" shall be construed accordingly.

RULE 19

When two power-driven vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

RULE 20

(a) When a power-driven vessel and a sailing vessel are proceeding in such directions as to involve risk of collision, except as provided in Rules 24 and 26, the power-driven vessel shall keep out of the way of the sailing vessel.

(b) A seaplane on the water shall, in general, keep well clear of all vessels, and avoid impeding their navigation. In circumstances, however, where risk of collision exists, she shall comply with these Rules.

RULE 21

Where by any of these Rules one of two vessels is to keep out of the way, the other shall keep her course and speed. When, from any cause, the latter vessel finds herself so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert collision (see Rules 27 and 29).

RULE 22

Every vessel which is directed by these Rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

RULE 23

Every power-driven vessel which is directed by these Rules to keep out of the way of another vessel shall, on approaching her, if necessary, slacken her speed or stop or reverse.

RULE 24

(a) Notwithstanding anything contained in these Rules, every vessel overtaking any other shall keep out of the way of the overtaken vessel.

(b) Every vessel coming up with another vessel from any direction more than 2 points ($22\frac{1}{2}$ degrees) abaft her beam, i. e. in such a position, with reference to the vessel which she is overtaking, that at night she would be unable to see either of that vessel's sidelights, shall be deemed to be an overtaking vessel; and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these Rules, or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

(c) If the overtaking vessel cannot determine with certainty whether she is forward of or abaft this direction from the other vessel, she shall assume that she is an overtaking vessel and keep out of the way.

RULE 25

(a) In a narrow channel every power-driven vessel when proceeding along the course of the channel shall, when it is safe and practicable, keep to that side of the fairway or mid-channel which lies on the starboard side of such vessel.

(b) Whenever a power-driven vessel is nearing a bend in a channel where a power-driven vessel approaching from the other direction cannot be seen, such vessel, when she shall have arrived within one-half mile of the bend, shall give a signal by one prolonged blast of her whistle, which signal shall be answered by a similar blast given by any approaching power-driven vessel that may be within hearing around the bend. Regardless of whether an approaching vessel on the farther side of the bend is heard, such bend shall be rounded with alertness and caution.

RULE 26

All vessels not engaged in fishing shall, when under way, keep out of the way of any vessels fishing with nets or lines or trawls. This Rule shall not give to any vessel engaged in fishing the right of obstructing a fairway used by vessels other than fishing vessels.

RULE 27

In obeying and construing these Rules due regard shall be had to all dangers of navigation and collision, and to any special circumstances, including the limitations of the craft involved, which may render a departure from the above Rules necessary in order to avoid immediate danger.

PART D.—MISCELLANEOUS

RULE 28

(a) When vessels are in sight of one another, a power-driven vessel under way, in taking any course authorized or required by these Rules, shall indicate that course by the following signals on her whistle, namely:

One short blast to mean "I am altering my course to starboard."

Two short blasts to mean "I am altering my course to port."

Three short blasts to mean "My engines are going astern."

(b) Whenever a power-driven vessel which, under these Rules, is to keep her course and speed, is in sight of another vessel and is in doubt whether sufficient action is being taken by the other vessel to avert collision, she may indicate such doubt by giving at least five short and rapid blasts on the whistle. The giving of such a signal shall not relieve a vessel of her obligations under Rules 27 and 29 or any other Rule, or of her duty to indicate any action taken under these Rules by giving the appropriate sound signals laid down in this Rule.

(c) Nothing in these Rules shall interfere with the operation of any special rules made by the Government of any nation with respect to the use of additional whistle signals between ships of war or vessels sailing under convoy.

RULE 29

Nothing in these Rules shall exonerate any vessel, or the owner, master or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

RULE 30

Reservation of Rules for Harbours and Inland Navigation

Nothing in these Rules shall interfere with the operation of a special rule duly made by local authority relative to the navigation of any harbour, river, lake, or inland water, including a reserved seaplane area.

RULE 31

Distress Signals

When a vessel or seaplane on the water is in distress and requires assistance from other vessels or from the shore, the following shall be the signals to be used or displayed by her, either together or separately, namely:

(a) A gun or other explosive signal fired at intervals of about a minute.

(b) A continuous sounding with any fog-signal apparatus.

(c) Rockets or shells, throwing red stars fired one at a time at short intervals.

(d) A signal made by radiotelegraphy or by any other signalling method consisting of the group . . . — — — . . . in the Morse Code.

(e) A signal sent by radiotelephony consisting of the spoken word "Mayday."

(f) The International Code Signal of distress indicated by N. C.

(g) A signal consisting of a square flag having above or below it a ball or anything resembling a ball.

(h) Flames on the vessel (as from a burning tar barrel, oil barrel, &c.).

(i) A rocket parachute flare showing a red light.

The use of any of the above signals, except for the purpose of indicating that a vessel or a seaplane is in distress and the use of any signals which may be confused with any of the above signals, is prohibited.

NOTE.—A radio signal has been provided for use by vessels in distress for the purpose of actuating the auto-alarms of other vessels and thus securing attention to distress calls or messages. The signal consists of a series of twelve dashes, sent in 1 minute, the duration of each dash being 4 seconds, and the duration of the interval between two consecutive dashes 1 second.

RULE 32

All orders to helmsmen shall be given in the following sense: right rudder or starboard to mean "put the vessel's rudder to starboard"; left rudder or port to mean "put the vessel's rudder to port."

IMPOSING IMPORT FEES ON SHELLLED AND PREPARED ALMONDS

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

September 29, 1953
[No. 3034]

A PROCLAMATION

1. WHEREAS, pursuant to section 22 of the Agricultural Adjustment Act, as added by section 31 of the act of August 24, 1935, 49 Stat. 773, reenacted by section 1 of the act of June 3, 1937, 50 Stat. 246, and amended by section 3 of the act of July 3, 1948, 62 Stat.

1248, and section 3 of the act of June 28, 1950, 64 Stat. 261 (7 U. S. C. 624), on April 13, 1950, the President caused the United States Tariff Commission to make an investigation to determine whether almonds, filberts, walnuts, Brazil nuts, or cashews are being or are practically certain to be imported into the United States under such conditions and in such quantities as to render or tend to render ineffective, or materially interfere with, certain programs undertaken by the Department of Agriculture with respect to almonds, pecans, filberts, or walnuts, or to reduce substantially the amount of any product processed in the United States from almonds, pecans, filberts, or walnuts with respect to which any such program is being undertaken; and

2. WHEREAS the said Commission instituted such an investigation on April 13, 1950, which it has been conducting since that date on a continuing basis and in the course of which it has from time to time reported to the President regarding the need for the imposition of restrictions pursuant to the said section 22 in order to prevent imports of almonds, filberts, walnuts, Brazil nuts, or cashews from rendering ineffective, or materially interfering with, the said programs, or from reducing substantially the amount of any product processed in the United States from almonds, pecans, filberts, or walnuts with respect to which any such program is being undertaken; and

3. WHEREAS import fees on shelled almonds and blanched, roasted, or otherwise prepared or preserved almonds (not including almond paste) imposed pursuant to the President's proclamation of September 27, 1952 (Proclamation 2991; 17 F. R. 8645), which proclamation was issued under the authority of the said section 22, will cease to apply to such articles entered, or withdrawn from warehouse, for consumption after September 30, 1953; and

4. WHEREAS further in the course of the said investigation, on September 21, 1953, the said Commission reported to me its findings regarding the need for import restrictions under the said section 22 on almonds, filberts, walnuts, Brazil nuts, and cashews after September 30, 1953; and

5. WHEREAS, on the basis of such report of September 21, 1953, I find that shelled almonds, and blanched, roasted, or otherwise prepared or preserved almonds (not including almond paste) are practically certain to be imported into the United States during the period October 1, 1953 to September 30, 1954, both dates inclusive, under such conditions and in such quantities as to render or tend to render ineffective, or materially interfere with the program undertaken by the Department of Agriculture with respect to almonds pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, which program will be in operation during such period; and

6. WHEREAS I find and declare that the imposition of the import fees hereinafter proclaimed is shown by such investigation of the Commission to be necessary in order that the entry of almonds described in the fifth recital of this proclamation will not render or tend to render ineffective, or materially interfere with, the said program undertaken by the Department of Agriculture:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, acting under and by virtue of the authority vested in me by the said section 22 of the Agricultural Adjustment Act, as amended, do hereby proclaim that a fee of 5 cents per pound, but not more than 50 per centum ad valorem, shall be imposed upon shelled almonds and blanched, roasted, or otherwise prepared or preserved almonds (not including almond paste) entered, or withdrawn from warehouse, for consumption during the period October 1, 1953 to September 30, 1954, both dates inclusive, until an aggregate quantity of 7,000,000 pounds of such almonds have been

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS November 11, 1953, marks the thirty-fifth anniversary of the signing of the Armistice which ended the bitter hostilities of World War I and served as a beacon of hope to all humanity that peace would prevail on the earth; and

WHEREAS the sons of the heroes of Chateau-Thierry, Saint Mihiel, and the Argonne had scarcely come of age when they were called upon to meet new aggressors at Omaha Beach, Anzio, Iwo Jima, Heartbreak Ridge, and elsewhere, and to give their lives, many of them, before new armistices could still the fighting and give renewed opportunity for establishing a true peace; and

WHEREAS the Congress, by a concurrent resolution of June 4, 1926 (44 Stat. 1982), requested the President to issue a proclamation calling for the observance each year of the anniversary of the signing of the Armistice on November 11, 1918, and, by an act approved May 13, 1938 (52 Stat. 351), made November 11 of each year a legal holiday, and provided that the day should be dedicated to the cause of world peace and should be known as Armistice Day; and

THANKSGIVING DAY, 1953

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

As a Nation much blessed, we feel impelled at harvest time to follow the tradition handed down by our Pilgrim fathers of pausing from our labors for one day to render thanks to Almighty God for His bounties. Now that the year is drawing to a close, once again it is fitting that we incline our thoughts to His mercies and offer to Him our special prayers of gratitude.

For the courage and vision of our forebears who settled a wilderness and founded a Nation; for the "blessings of liberty" which the framers of our Constitution sought to secure for themselves and for their posterity, and which are so abundantly realized in our land today; for the unity of spirit which has made our country strong; and for the continuing faith under His guidance that has kept us a religious people with freedom of worship for all, we should kneel in humble thanksgiving.

Especially are we grateful this year for the truce in battle-weary Korea, which gives to anxious men and women throughout the world the hope that there may be an enduring peace:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, in consonance with the joint resolution of Congress approved December 26, 1941, do hereby call upon our people to observe Thursday, the twenty-sixth day of November, 1953, as a day of national thanksgiving. On that day let all of us, in accordance with our hallowed custom, forgather in our respective places of worship and bow before God in contrition for our sins, in suppliance for wisdom in our striving for a better world, and in gratitude for the manifold blessings He has bestowed upon us and upon our fellow men.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this seventh day of November in the year of our Lord nineteen hundred and fifty-three, [SEAL] and of the Independence of the United States of America the one hundred and seventy-eighth.

IMPOSING A QUOTA ON IMPORTS OF OATS

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

December 26, 1953
[No. 3041]

A PROCLAMATION

WHEREAS, pursuant to section 22 of the Agricultural Adjustment Act, as added by section 31 of the act of August 24, 1935, 49 Stat. 773, re-enacted by section 1 of the act of June 3, 1937, 50 Stat. 246, and as amended by section 3 of the act of July 3, 1948, 62 Stat. 1248, section 3 of the act of June 28, 1950, 64 Stat. 261, and section 8 (b) of the act of June 16, 1951, 65 Stat. 72 (7 U. S. C. 624), the Secretary of Agriculture has advised me that he has reason to believe that oats are being or are practically certain to be imported into the United States under such conditions and in such quantities as to render or tend to render ineffective, or materially interfere with, the price-support program undertaken by the Department of Agriculture with respect to oats pursuant to sections 301 and 401 of the Agricultural Act of 1949 (63 Stat. 1053, 1054), or to reduce substantially the amount of products processed in the United States from domestic oats with respect to which such program of the Department of Agriculture is being undertaken; and

7 USC 1447, 1421.

WHEREAS, on June 6, 1953, I caused the United States Tariff Commission to make an investigation under the said section 22 with respect to hulled and unhulled oats and unhulled ground oats; and

7 USC 624.

WHEREAS the said Tariff Commission has made such investigation and has reported to me its findings and recommendations made in connection therewith; and

WHEREAS, on the basis of the said investigation and report of the Tariff Commission, I find that hulled and unhulled oats and unhulled ground oats are practically certain to be imported into the United States during the period December 23, 1953, to September 30, 1954, inclusive, under such conditions and in such quantities as to render or tend to render ineffective, or materially interfere with, the said price-support program with respect to oats; and

WHEREAS, I find and declare that the imposition of quantitative limitations not in excess of 23,000,000 bushels of the product of Canada and not in excess of 2,500,000 bushels of the product of other foreign

countries are shown by such investigation of the Tariff Commission to be necessary in order that the entry, or withdrawal from warehouse, for consumption of oats described in the preceding paragraph of this proclamation during the period December 23, 1953, to September 30, 1954, will not render or tend to render ineffective, or materially interfere with, the said price-support program; and I further find and declare such permissible total quantity to be proportionately not less than 50 percentum of the total average aggregate annual quantity of such oats entered, or withdrawn from warehouse, for consumption during the representative period July 1, 1948, to June 30, 1951, inclusive;

WHEREAS Canada has undertaken to limit exports of oats to the United States to 23,000,000 bushels during the period from midnight December 10, 1953, to midnight September 30, 1954:

Import quota.

7 USC 624.

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, acting under and by virtue of the authority vested in me by the said section 22 of the Agricultural Adjustment Act, as amended, do hereby proclaim that the total aggregate quantity of hulled and unhulled oats and unhulled ground oats, other than oats the product of Canada, entered, or withdrawn from warehouse, for consumption during the period December 23, 1953, to September 30, 1954, inclusive, shall not be permitted to exceed 2,500,000 bushels of 32 pounds each.

The provisions of this proclamation shall not apply to certified or registered seed oats for use for seeding and crop-improvement purposes, in bags tagged and sealed by an officially recognized seed-certifying agency of the country of production: *Provided*, (a) that the individual shipment amounts to 100 bushels (of 32 pounds each) or less, or (b) that the individual shipment amounts to more than 100 bushels (of 32 pounds each) and the written approval of the Secretary of Agriculture or his designated representative is presented at the time of entry, or bond is furnished in a form prescribed by the Commissioner of Customs in an amount equal to the value of the merchandise as set forth in the entry, plus the estimated duty as determined at the time of entry, conditioned upon the production of such written approval within 6 months from the date of entry.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

IMPOSING A QUOTA ON IMPORTS OF RYE, RYE FLOUR, AND RYE MEAL

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

March 31, 1954
[No. 3048]

A PROCLAMATION

WHEREAS, pursuant to section 22 of the Agricultural Adjustment Act, as added by section 31 of the act of August 24, 1935, 49 Stat. 773, reenacted by section 1 of the act of June 3, 1937, 50 Stat. 246, and as amended by section 3 of the act of July 3, 1948, 62 Stat. 1248, section 3 of the act of June 28, 1950, 64 Stat. 261, and section 8 (b) of the act

of June 16, 1951, 65 Stat. 72 (7 U. S. C. 624), the Secretary of Agriculture advised me there was reason to believe that rye, rye flour, and rye meal are being or are practically certain to be imported into the United States under such conditions and in such quantities as to render or tend to render ineffective, or materially interfere with, the price-support program undertaken by the Department of Agriculture with respect to rye pursuant to sections 301 and 401 of the Agricultural Act of 1949, as amended, or to reduce substantially the amount of products processed in the United States from domestic rye with respect to which such program of the Department of Agriculture is being undertaken;

63 Stat. 1053.
7 USC 1447, 1421.

WHEREAS, on December 9, 1953, I caused the United States Tariff Commission to make an investigation under the said section 22 with respect to this matter;

7 USC 624.

WHEREAS the said Tariff Commission has made such investigation and has reported to me its findings and recommendations made in connection therewith;

WHEREAS, on the basis of the said investigation and report of the Tariff Commission, I find that rye, rye flour, and rye meal, in the aggregate, are being and are practically certain to continue to be imported into the United States under such conditions and in such quantities as to interfere materially with and to tend to render ineffective the said price-support program with respect to rye, and to reduce substantially the amount of products processed in the United States from domestic rye with respect to which said price-support program is being undertaken; and

WHEREAS I find and declare that the imposition of the quantitative limitations hereinafter proclaimed is shown by such investigation of the Tariff Commission to be necessary in order that the entry, or withdrawal from warehouse, for consumption of rye, rye flour, and rye meal will not render ineffective, or materially interfere with, the said price-support program:

Rye, rye flour and
meal.
Import quota.

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, acting under and by virtue of the authority vested in me by the said section 22 of the Agricultural Adjustment Act, as amended, do hereby proclaim that

7 USC 624.

(1) the total aggregate quantity of rye, rye flour, and rye meal which may be entered, or withdrawn from warehouse, for consumption in the period beginning on the date of this proclamation and ending at the close of June 30, 1954, shall not exceed 31,000,000 pounds, of which not more than 2,500 pounds may be in the form of rye flour or rye meal; and

(2) the total aggregate quantity of rye, rye flour, and rye meal which may be entered, or withdrawn from warehouse, for consumption in the 12-month period beginning July 1, 1954, shall not exceed 186,000,000 pounds, of which not more than 15,000 pounds may be in the form of rye flour or rye meal,

which permissible total quantities I find and declare to be proportionately not less than 50 per centum of the total quantity of such rye, rye flour, and rye meal entered, or withdrawn from warehouse, for consumption during the representative period July 1, 1950 to June 30, 1953, inclusive.

Nonapplicability.

The provisions of this proclamation shall not apply to certified or registered seed rye for use for seeding and crop-improvement purposes, in bags tagged and sealed by an officially recognized seed-certifying agency of the country of production, if

(a) the individual shipment amounts to 100 bushels (of 56 pounds each) or less, or

(b) the individual shipment amounts to more than 100 bushels (of 56 pounds each) and the written approval of the Secretary of Agriculture or his designated representative is presented at the time of entry, or bond is furnished in a form prescribed by the Commissioner of Customs in an amount equal to the value of the merchandise as set forth in the entry, plus the estimated duty as determined at the time of entry, conditioned upon the production of such written approval within six months from the date of entry.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

MODIFICATION OF TRADE AGREEMENT CONCESSIONS AND ADJUSTMENT IN RATES OF DUTY WITH RESPECT TO CERTAIN WATCH MOVEMENTS

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

July 27, 1954
[No. 3062]

A PROCLAMATION

1. WHEREAS, under authority of section 350(a) of the Tariff Act of 1930, as amended, the President on January 9, 1936, entered into a trade agreement with the Swiss Federal Council, including two schedules and a declaration annexed thereto (49 Stat. (pt. 2) 3918), and by proclamation of January 9, 1936 (49 Stat. (pt. 2) 3917), proclaimed the said trade agreement, which proclamation has been supplemented by proclamation of May 7, 1936 (49 Stat. (pt. 2) 3959), and proclamation of November 28, 1940 (54 Stat. (pt. 2) 2461); and

48 Stat. 943.
19 USC 1351.

2. WHEREAS the said trade agreement was supplemented on October 13, 1950, by certain provisions set forth in the 13th recital of the President's proclamation of November 26, 1951 (Proclamation No. 2954; 16 F. R. 11943); and

66 Stat. c6.

3. WHEREAS the said trade agreement includes duty concessions granted by the United States with respect to products described in item 367 (a) of Schedule II of the said trade agreement (49 Stat. (pt. 2) 3940); and

19 USC 1001,
par. 367.

4. WHEREAS, to carry out the said trade agreement, since February 15, 1936, duties at the rates respectively specified in the said

item 367 (a) have been applied to the products described in such item, which duties reflect the duty concessions granted in the said trade agreement with respect to such products; and

5. WHEREAS the United States Tariff Commission has submitted to me its report of an investigation, including a hearing, under section 7 of the Trade Agreements Extension Act of 1951, as amended, as a result of which the Commission has found that certain products described in the said item 367 (a) are, as a result in part of the duties reflecting the concessions granted thereon in the said trade agreement, being imported into the United States in such increased quantities, both actual and relative, as to cause serious injury to the domestic industries producing like or directly competitive products; and

6. WHEREAS the Tariff Commission has recommended that the duty concessions granted in the said trade agreement with respect to certain products described in the said item 367 (a) be modified to permit the application to such products of higher rates of duty hereinafter proclaimed, which rates the Commission found and reported to be necessary to remedy the serious injury to the domestic industries producing like or directly competitive products; and

7. WHEREAS section 350 (a) (2) of the Tariff Act of 1930, as amended (48 Stat. 943), authorizes the President to proclaim such modifications of existing duties as are required or appropriate to carry out any foreign trade agreement that the President has entered into under the said section 350 (a); and

8. WHEREAS upon the modification of duty concessions in the said trade agreement as recommended by the Tariff Commission it will be appropriate, to carry out the said trade agreement, as supplemented on October 13, 1950, to apply to the said products the rates of duty hereinafter proclaimed:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, acting under and by virtue of the authority vested in me by section 350 of the Tariff Act of 1930, as amended, and by section 7 (c) of the Trade Agreements Extension Act of 1951, and in accordance with the said trade agreement as supplemented October 13, 1950, do proclaim—
