Chapter 14 1 **Firefighting Equipment** 2 3 Introduction 4 5 The agency wildland fire program equipment resources include engines, dozers, 6 water tenders, and other motorized equipment for fire operations. 7 8 9 Policy 10 Each state/region will comply with established standards for training, 11 equipment, communications, organization, and operating procedures required to 12 effectively perform arduous duties in multi-agency environments and various 13 geographic areas. 14 15 Approved foam concentrate may be used to improve the efficiency of water, 16 except near waterways where accidental spillage or over spray of the chemical 17 could be harmful to the aquatic ecosystem, or other identified resource concerns. 18 19 **Firefighting Engine/Water Tender Common Standards** 20 21 22 **Driving Standard** Refer to driving standards in Chapter 07. 23 24 **Engine/Tactical Water Tender Water Reserve** 25 Engine/Tactical Water Tender Operators will maintain at least 10 percent of the 26 pumpable capacity of the water tank for emergency engine protection and 27 drafting. 28

29

30 Chocks

31 At least one set of wheel chocks will be carried on each engine/water tender and

- ³² will be properly utilized whenever the engine is parked or left unattended. This
- 33 includes engine/water tender operation in a stationary mode without a driver "in 34 place".

35

36 Fire Extinguisher

37 All engines/water tenders will have at least one 5 lb. ABC rated (minimum) fire 38 extinguisher, either in full view or in a clearly marked compartment.

39

40 Nonskid Surfaces

- 41 All surfaces will comply with National Fire Protection Association (NFPA)
- 42 1906 Standard for Wildland Fire Apparatus requirements.
- 43
- 44

45

Release Date: January 2013

- 1 First Aid Kit
- 2 Each engine/water tender shall carry, in a clearly marked compartment, a fully
- ³ equipped 10-person first aid kit.

4

5 Gross Vehicle Weight (GVW)

- 6 Each engine and water tender will have an annually certified weight slip in the
- 7 vehicle at all times. Weight slip will show individual axle weights and total
- 8 GVW. Operators of engines and water tenders must ensure that the maximum
- 9 certified gross vehicle and axle weight ratings are never exceeded, including
- 10 gear, personnel, and fuel. The NFPA 1906 standard of 250 pounds per seat

¹¹ position for each person and their personal gear will be used to calculate the ¹² loaded weight.

- 13 FS Refer to FSH 7109.19, Chapter 30 for calculation of Rough Road
- 14 Factor reduction for driving on rough or unsurfaced roads.
- 15 NPS A copy of the annual certified weight slip must be sent to the Fire
- 16 Equipment and Facilities Specialist at the FMPC in Boise prior to the
 - vehicle being put into service each season.

17 18

19 Speed Limits

- 20 Posted speed limits will not be exceeded.
- 21

22 Lighting

- 23 Headlights and taillights shall be illuminated at all times while the vehicle is in
- ²⁴ motion. All new orders for fire engine apparatus will include an overhead
- 25 lighting package in accordance with agency standards. Lighting packages will
- ²⁶ meet NFPA 1906 standards at the time of manufacture. Engines currently in
- 27 service may be equipped with overhead lighting packages. A red, white, and
- ²⁸ amber combination is the accepted color scheme for fire. Lighting packages
- 29 containing blue lights are reserved for law enforcement and are not allowed on
- 30 fire vehicles.
- 31

32 Emergency Light Use

- 33 Emergency lighting will be used only during on site wildland fire operations or
- ³⁴ to mitigate serious safety hazards. Overhead lighting and other emergency
- lighting must meet state code requirements, and will be illuminated wheneverthe visibility is reduced to less than 300 feet.
- **DOI-** See agency chapters or policy for specific guidance.
- **FS-** See FSM 5120 and 5130 for red lights and siren policy.

39

40 Fire Engine Maintenance Procedure and Record

- 41 Apparatus safety and operational inspections will be accomplished either on a
- 42 post-fire or daily basis. Offices are required to document these inspections.
- 43 Periodic maintenance (as required by the manufacturer) shall be performed at
- 44 the intervals recommended and properly documented. All annual inspections

14-2

Release Date: January 2013

- 1 will include a pump performance test to ensure the pump/plumbing system is
- ² operating at desired specifications (pressure and gallons per minute).

3 4

5

Firefighting Engines

6 **Operational Procedures**

- 7 All engines will be equipped, operated, and maintained within guidelines
- 8 established by the Department of Transportation (DOT), regional/state/local
- 9 operating plans, and procedures outlined in BLM Manual H-9216, Fire
- 10 Equipment and Supply Management, or agency equivalent. All personnel
- 11 assigned to agency fire engines will meet all gear weight, cube, and manifest
- 12 requirements specified in the National Mobilization Guide.

13

- 14 Engine Typing
- 15 Engine typing and respective standards have been established by NWCG.

16

Engine Type							
Components	Structure Engines		Wildland Engines

Release Date: January 2013

1 Fire Engine Staffing

- 2 For Type 4,5,6, and 7 engines, minimum staffing is two individuals, including
- ³ an Engine Boss.

4

⁵ For Type 3 engines, minimum staffing is three individuals, including an Engine⁶ Boss.

- 7 **BLM** For BLM engine staffing requirements, see Chapter 2.
- 8 FWS Minimum staffing for Type 6 and 7 engines (on Refuge lands) is one
- 9 *ENOP and one FFT2. A minimum of one ICT5 must be available on the* 10 *engine crew.*
- 11 **NPS** For NPS engine staffing requirements see Chapter 3.
- 12 FS A Single Resource Boss may supervise a Type 6 or 7 engine.

13

14 Engine Inventories

15 An inventory of supplies and equipment carried on each vehicle is required to 16 maintain accountability and to obtain replacement items lost or damaged on

¹⁷ incidents. The standard inventory for engines is found in Appendix M.

18

19 Water Tenders

20

21 Water Tender Typing

22 Water tender typing and respective standards have been established by NWCG.

	Water Tender Type

Water Tender Staffing Standards 1

- Water Tender (Non-Tactical) 2 •
 - Qualifications: CDL (tank endorsement). 0
 - Staffing: A water tender (non-tactical) may be staffed with a crew of 0 one driver/operator when it is used in a support role as a fire engine refill unit or for dust abatement. These operators do not have to pass
 - the Work Capacity Test (WCT) but are required to take annual
- 7 refresher training. 8
- Water Tender (Tactical) 9 •

Tactical use is defined as "direct fire suppression missions such as pumping 10 11

- hoselays, live reel use, running attack, and use of spray bars and monitors to
- suppress fires". 12 13
 - **Oualifications:** ο
 - BLM/FWS- ENOP, CDL (tank endorsement)
 - FS- FFT1. CDL
 - Staffing: Tactical water tenders will carry a minimum crew of two: 0
 - BLM/FWS- One ENOP and One FFT2
 - FS- One FFT1 and One FFT1/FFT2 firefighter

19 **Dozers/Tractor Plows** 20

21

14

15

16

17

18

3

4

5

6

Dozer/Tractor Plow Training and Qualifications 22

- Agency personnel assigned as dozer/tractor plow operators will meet the 23
- training standards for a Firefighter 2 (FFT2). This includes all safety and annual 24
- refresher training. While on fire assignments, all operators and support crew 25
- will meet PPE requirements including the use of aramid fiber clothing, hard 26
- hats, fire shelters, boots, etc. 27

28

Dozer/Tractor Plow Physical Fitness Standards 29

- **BLM/NPS** All employee dozer/tractor plow operators will meet the WCT . 30
- requirements at the Moderate level before accepting fire assignments. 31
- FWS See the Fire Management Handbook 32 .
- FS FS dozer operators refer to FSM 5134.32. • 33

34

Dozer/Tractor Plow Operational Procedures 35

- Agency owned and operated dozer/tractor plows will be equipped with 36 .
- programmable two-way radios, configured to allow the operator to monitor 37 radio traffic. 38
- Agency and contract dozer/tractor plows will have agency supplied 39 .
- supervision when assigned to any suppression operations. 40
- Contract dozers must be provided with radio communications, either 41 •
- through a qualified Heavy Equipment Boss (HEQB) or an agency-supplied 42
- radio. Contract dozer/tractor plows will meet the specifications identified in 43
- 44 their agreement/contract.

Release Date: January 2013

- Operators of dozer/tractor plows and transport equipment will meet DOT
- 2 certifications and requirements regarding the use and movement of heavy
- equipment, including driving limitations, CDL requirements, and pilot car
 use.
- 5

6 All Terrain Vehicles (ATV)/Utility-Terrain Vehicles (UTV)

8 The operation of ATV/UTVs can be high risk. The use of ATV/UTVs should
9 be evaluated to ensure that use is essential to accomplish the mission, rather than
10 for convenience.

- 11 **BLM-** After October 1, 2013, all industrial use OHV operations in BLM fire
- operations will be conducted exclusively on UTVs. No ATVs will be used
 for industrial use OHV operations.

Because of the high risk nature, agencies have developed specific operational policy (refer to current agency policy). Common policy requirements for

¹⁶ wildland fire operations are highlighted below:

A JHA/RA must be completed and approved by the supervisor prior to
 vehicle operation;

19 • All personnel authorized to operate an ATV/UTV must first complete

agency specific or manufacturer-provided training in safe operating
 procedures and appropriate PPE;

Re-evaluation/Re-certification - Operators shall be re-evaluated every three
 years. Infrequent users (less than 16 hours of riding a year) shall have a
 check ride prior to scheduled use of an ATV/UTV;

- Specific authorization for ATV/UTV use is required -- all ATV/UTV
 operations must hold a valid Motor Vehicle Operator's Identification Card,
 OF-346 or agency equivalent;
- **DOI-** Upon completion of agency-specific ATV/UTV training and 28 0 29 operator certification requirements, All-Terrain Vehicle Operator (ATVO) will be placed on the employee's Incident Qualification and 30 Certification (IQCS) Card (Red Card). IQCS Certifying Officials are 31 responsible for verifying that ATV/UTV operator qualifications are 32 current, and that the ATVO qualification is removed from the Red Card 33 if agency-specific training, certification, or currency requirements 34 35 lapse. *NPS- All Off-Highway Vehicle (OHV) operators (including ATV/UTV)* 36 ο must hold a valid state Motor Vehicle Operator's Permit. Operating 37 restrictions identified on the operator's permit must be adhered to 38 while operating an OHV (e.g., use of corrective lenses, etc.). NPS ATV 39 40 operators must be qualified at either the Basic or Advanced Level as described in RM-50B depending on the hazard potential of the 41 operation. All ATV operators shall be provided refresher training each 42 year in accordance with a JHA and reevaluated by an ASI Certified 43 Trainer every 3 years. The reevaluation shall be documented. RM-44

14-6

Release Date: January 2013

FIREFIGHTING EQUIPMENT	
------------------------	--

1	50B, Appendix B (ATV Operator Accountability/Certification Tracking
2	Record) may be used to document the reevaluation. Further
3	information on ATV/UTV use is found in RM-50B.
4	• ATVs can only have a single rider – passengers are prohibited even if ATV
5	is designed for two riders;
6	• UTVs passengers are limited to the number of seats installed by
7	manufacturer. The operator and passenger(s) must use seatbelts while the
8	vehicle is in motion;
9	• Operators must use required PPE while loading/unloading ATV/UTV;
10	• Cargo loads shall be loaded and secured as to not affect the vehicle's center
11	of gravity, and shall not exceed manufacturer's recommendations for
12	maximum carrying capacity; and
13	• When transporting external fuel containers with a UTV/ATV, a 5 lb class
14	BC fire extinguisher must be secured to the UTV/ATV.
15	ũ (là chí
16	Required PPE includes:
17	ATV Head Protection for Wildland Fire Operations:
18	• ATV Helmets must be worn at all times during ATV operations (on and off
19	the fireline); and
20	• ATV Helmets must meet Snell SA2005, SA2010, or DOT certification.
21	• A ³ / ₄ face model meeting Snell SA2005 or SA2010 certification is
22	acceptable for use.
23	• Use of half "shorty" helmets requires a JHA/RA for fireline use and
24	must include justification for its use. Refer to MTDC Tech Tip
25	publication, A Helmet for ATV Operators with Fireline Duties (0651-
26	2350-MTDC).
27	
28	UTV Head Protection for Wildland Fire Operations:
29	• Helmets must meet DOT, ANSI Z90.1; or Snell SA2005 or SA2010 unless:
30	• UTV is used for low speeds and smooth travel surfaces, administrative
31	use (e.g., campgrounds, incident base camps) UTV operators are not
32	required to wear hardhats or helmets; or
33	• FWS- Refer to 243 FW 6.
34	• UTV is equipped with approved Rollover Protection System (ROPS),
35	and:
36	• BLM – A comprehensive and properly prepared RA of the specific
37	conditions demonstrates no more than a medium residual risk
38	level, then a hard hat meeting NFPA 1977 or ANSI Z 89.1
39	standards may be worn with chin straps secured in place under
40	chin.
41	• NPS - Approved helmets are required for UTV operations that are
42	rated moderate (amber) or high (red) using the "ORV Risk
43	Assessment Tool" included in the NPS Off-Highway Vehicle
44	Policy.

Release Date: January 2013

	<u>Chapte</u>	R 14 FIREFIGHTING EQUIPMENT
1		• FWS- A hardhat meeting NFPA 1977 or ANSI Z 89.1 standards may
1 2		be worn with chin straps secured in place.
2		• FS- UTV Helmet (for fire use) – Helmets must have Snell SA
4		certification. Wearing hardhats while driving or riding on a UTV
5		is not allowed. Forest Service policy provides no exception to the
6		helmet requirement for low speeds, smooth travel surfaces, or
7		administrative use (FSH 6709.11, Chapter 10).
8		
9	Eve pro	tection (goggles, face shield, or safety glasses) based upon JHA/RA.
10	0 0	Eye protection is not required for a UTV equipped with an original
11		manufacturer windshield that protects the face from branches, flying
12		debris, etc., unless otherwise required by an associated industrial use
13		activity or JHA/RA.
14		
15	If opera	ting ATV/UTV on the fireline, the following are required:
16	0	Leather or leather/flame resistant combination gloves. Flight gloves
17		are not approved for fireline use;
18	0	Yellow flame resistant shirt;
19	0	Flame resistant trousers;
20	0	Wildland fire boots; and
21	0	Appropriate head protection as described above
22		• FS- Shirt, trousers, and gloves used by USFS personnel must meet
23		Forest Service specification 5100-91(shirt), 5100-92 (trousers),
24		and 6170-5 (gloves) or be certified to the National Fire Protection
25		Association (NFPA) 1977, Standard on Protective Clothing and
26		Equipment for Wildland Fire Fighting.
27		TV operator shall carry a personal communication device (e.g. two-way
28		ellular phone, or satellite phone).
29 30		er ATV/UTV specific guidance is found in the respective agency's
30 31	policy:	AT V/01 V specific guidance is found in the respective agency s
32	o poney.	BLM - Refer to BLM Manual 1112-1, Chapter 27 Off-Highway

1 Incident Remote Automated Weather Stations

2

³ Incident Remote Automated Weather Stations (IRAWS – NFES 5869) are

- 4 readily deployable, portable weather stations that may be utilized in unprepared
- 5 locations to monitor local weather conditions. IRAWS are intended for use on

6 or near the fireline or at other all-risk incidents, and are installed and operated as

- 7 desired by Fire Behavior Analysts (FBAN) and/or Incident Meteorologists
- 8 (IMET) to record and distribute real time weather data.

9

- 10 National resource IRAWS systems are cached at the National Interagency Fire
- 11 Center (NIFC) and may be ordered through standard equipment resource
- 12 ordering systems. Following release from an incident, these stations must be
- 13 returned to the Remote Sensing/Fire Weather Support Unit (RSFWSU) at NIFC
- 14 for maintenance, recalibration, and redeployment.

15

16 Aerial Ignition Devices

17

- 18 Information on types of aerial ignition devices, operational guidelines, and
- 19 personnel qualifications may be found in the *Interagency Aerial Ignition Guide*.

20

21 Ground Ignition Devices and Transporting/Dispensing Fuel

22

- 23 For ground ignition devices: Follow the Interagency Ground Ignition Guide
- 24 (PMS 443) for operational guidelines, personnel qualifications, and equipment
- 25 selection.

26

- 27 For transporting and dispensing fuel: Follow the Interagency Transportation
- 28 Guide for Gasoline, Mixed Gas, Drip-Torch Fuel, and Diesel (PMS 442). These
- 29 guides are posted at http://www.nwcg.gov/pms/pubs/pubs.htm.
- 30 **FS** direction is found in FSH 5109.32a and 6709.11.

Release Date: January 2013
