TELEPHONE SERVICE PROCEDURES

AUTHORIZED USE

Military telephones and voice facilities are authorized for government official communications only and must be restricted to calls that are essential to the accomplishment of the mission. These calls should withstand the scrutiny required of the same calls by commercial toll.

PROPER USE OF TELEPHONE

The service received from the base telephone system depends upon proper usage by subscribers. The following suggestions are offered: wait for a dial tone, and then dial your number carefully. Identify yourself, speak distinctly and make conversation brief. Answer the telephone promptly; identify the activity and the individual speaking. Use your telephone directory; do not guess at numbers. For your convenience, maintain a list of frequently called numbers. Update your directory as numbers are changed. Do not leave the receiver off of your telephone, nor set the hold button to prevent incoming calls.

STANDARDS OF SERVICE

1. The Robins AFB switchboard operation personnel endeavor to provide the most rapid and efficient telephone service possible consistent with the facilities at its disposal and the information provided by the system subscribers. To aid in providing this service, each subscriber should refer to the directory for the correct number prior to dialing/placing all long distance telephone calls by number, and keep the directory clerk apprised of changes in key personnel and telephone numbers.
2. The switchboard operation personnel are instructed to be uniformly courteous and not to enter into controversy with subscribers. Similar action on the part of users is an incentive for better telephone service. Personnel are forbidden to receive service complaints and are instructed to refer all calls relative to complaints to the Chief of the switchboard.
3. All telephone subscribers are entitled to the same grade service. Preferential treatment or service should not be expected of the switchboard operation. This does not preclude emergency service when an actual emergency exists.

BREVITY

For economy and maximum use of available facilities, telephone conversations should be as brief and concise as possible. This is particularly true of long distance telephone calls.

PLANNING CALLS

Before dialing the switchboard operation to place a long distance call, be sure that you have the correct number, your conversation planned, and all information available that will be needed to complete your call.

USE OF IMPROPER LANGUAGE

The use of profane, obscene, and harassing language over the telephone will not be condoned.

Federal and state statutes have been enacted to deal with offenders of this type.

CONVERSING WITH OPERATORS

Conversations with the switchboard operation must be limited to requesting information and providing instructions for placing calls. Unnecessary conversation consumes time and prevents other users from receiving prompt attention and service.

FORMAT OF THE DIRECTORY

Format of the base telephone directory is prescribed by AFI 33-111. Only those items of information that facilitate the use of the base telephone system are permitted. Four major sections are used in the directory: General Information, Organizational, Classified and Personnel.

1. General Information Section contains the necessary information to provide the best available telephone service. A list of frequently called Defense Switched Network (DSN) numbers is included.
2. Organizational Section consists of a listing of all units serviced by the base telephone system. In this directory, organizations are listed in the following manner: (1) Warner Robins Air Logistics Center, (2) 78th Air Base Wing and (3) Other Tenant Commands arranged in alphabetical-numerical order. Under each unit's designation is the command section followed by a functional list of principal staff offices arranged in alphabetical order by symbol. This section reflects the complete organizational structure from the unit commander through the lowest functional section.
3. Quick Reference List.

DIRECTORY CHANGES

The telephone directory is compiled from listings furnished by organizations and individuals. It can only be accurate as the information furnished. Additions, deletions, or corrections must be submitted by the organizational Point of Contact (POC) or Telephone Control Officer (TCO) as they occur.

DISTRIBUTION

The organization TCOs will be notified per e-mail message when and where to pick up the new base directories. The TCOs will be responsible to distribute these directories within their organizations.

USE OF THE MILITARY TELEPHONE SYSTEM

CARE OF THE MILITARY TELEPHONE SYSTEM

Subscribers are responsible for the proper use and care of installed telephones and associated equipment. Tampering with telephones in any manner is prohibited. Under no circumstances will persons other than authorized telephone maintenance personnel move or alter affix devices prior to any form of excavation.

CLASSIFICATION OF TELEPHONE

Telephones installed on Robins AFB are class-marked and all classes of telephones are authorized for the transaction of official government business only. Pay telephones are located throughout the base for conducting personal business.

CLASSMARK OF SERVICE

1. Class A telephones have access to Federal Telecommunications System (FTS), DSN, local off-base numbers and base operator.
2. Class B telephones have access to DSN, local off-base numbers and base operator.
3. Class C telephones have access to local off-base numbers and base operator.
4. Class D telephones have access to on-base extensions and base operator.

GENERAL DIALING INSTRUCTIONS

Depending on how your telephone is class marked, you may obtain the following services by dialing:

1. FTS: Dial 98 + 1 + area code + 7 digit number.
2. DSN: Dial 94 + 7 digit number.
3. LOCAL OFF-BASE: Dial 99 + local number.
4. TOLL FREE: Dial 99 + 1 + 8XX + 7 digit number.
5. Switchboard Operation Dial 0.

LOCAL DIALING PROCEDURES

The Robins AFB telephone system permits direct dialing into all extensions with the exception of base extensions starting with "5," which interconnect on base only. Local dialing procedures follow:

1. ON-BASE CALLS: Dial the seven digit telephone number shown in the directory.
2. OFF-BASE CALLS TO Byron, Centerville, Macon, FT Valley, Cochran, Jeffersonville, Perry, Danville and Warner Robins: Dial "99" and the telephone number listed in the commercial directory.
3. OFF-BASE INFORMATION: Directory assistance is not accessible from base extensions. For government official calls (Long Distance and local), dial switchboard operation.
4. ON-BASE INFORMATION: Consult your directory first. If the person you are calling is not listed, call the civilian and/or military locator, ext 468-6027. Office numbers not listed in the base telephone directory may be obtained by dialing 468-1110 for base information.

TELEPHONE FEATURES

The following instructions describe the commonly assigned customer service features provided by the telephone system. Features have been assigned on an individual basis. Only features assigned to a telephone may be used by that telephone.

1. **CALL TRANSFER:**
 - a. Advise the calling party to hold while you transfer call.
 - b. Momentarily depress the switch hook (on single line sets) or conference button (all other sets) to receive dial tone.
 - c. Dial new extension number, listen for ring, and hang up. If line is busy, quickly depress switch hook again or release and you are connected to original party.
2. **CALL HOLD:**
 - a. To place on hold, momentarily depress switch-hook/recall button to receive recall dial tone; dial *77—do not hang up, your call is on hold.
 - b. Return to held call: Hang up—your phone will ring—answer and you will be reconnected to held call.
3. **CALL FORWARDING:**
 - a. Lift handset and listen for dial tone.

- b. Dial the call forward activation code (*2). You will hear a special dial tone.
- c. Dial the number to which calls are to be forwarded. The called number will ring. When answered, advise the party your calls will be forwarded to that number.
- d. If the number dialed is busy, confirmation tone indicates that the call forward feature is activated.
- e. To cancel: Dial (#2); calls to your number will now ring on your phone again.

4. CONFERENCE CALLS: All telephones at Robins AFB are provided direct user three-way and up to 6 parties on a conference from your AVAYA phone.

- a. **THREE-WAY CONFERENCE:** Please refer to your users/owners manual or direct your questions to your designated Telephone Control Officer (TCO)
- b. **MEET-ME CONFERENCE:** To request a Meet-Me Conference, dial 468-2199 and request the switchboard operation to assign you an access code to be dialed at a designated date and time. At which time an automated voice will instruct you to enter your access code. Each conferee is automatically added to the conference when the activation number and designated access code is dialed by that person. The activation number can be dialed by all long distance and local users. A new access code will be obtained for each conference established.
- c. **CONFERENCE CALL ASSISTANCE:** Conference Call Assistance is available by dialing "0" or 468-2199 for help establishing a conference. Have all information readily available before requesting the conference.

INSTRUCTIONS FOR REPORTING BOMB THREATS OR OTHER THREATENING CALLS RECEIVED ON GOVERNMENT TELEPHONES

1. Do not hang up.
2. Try to keep the caller on the line.
3. Signal someone else to call Security Forces, by dialing 911 (NOTE: Security forces will alert Communications personnel to initiate tracer action).
4. If no one is available, DO NOT HANG UP, but use another phone to notify Security Forces.
5. Obtain as much information as possible about the call/caller using the following checklist:

CHECKLIST FOR THREATENING CALLS

QUESTIONS TO ASK:

1. When is the bomb going to explode?
2. Where is it right now?
3. What does it look like?
4. What kind of bomb is it?
5. What will cause it to explode?
6. Did you place the bomb?
7. Why?
8. What is your address?
9. What is your name?

EXACT WORDING OF THREAT

 Phone Number: _____

NOTE: AFFORM 440, NOV 98 pertaining to Bomb Threat situations should be under or close by each government provided telephone set at Robins AFB.

REPORTING NUISANCE CALLS

Abusive calls, including those in which obscene or profane language is used, are prohibited and should be reported to the SF Law Enforcement Desk by dialing 468-2187. Malicious or threatening calls should be reported to 911. To activate Malicious Call Trace (MCT) depress the MCT button. For analog phones, depress the hook switch and dial *57. Assistance in determining the location of a specific base extension should be directed to the switchboard at 468-2199.

INFORMATION CALLS, REPORTING TELEPHONE TROUBLES AND OTHER EMERGENCY TYPE CALLS

INFORMATION CALLS

Consult your directory first. If number is not listed, base information may be obtained from a base telephone by dialing 468-1110. From off-base numbers and long-distance, dial 926-1110. For the DSN information, check DSN directory number at the location to be called and dial 94" plus the number given. If the number is not in the directory, dial base information 468-1113 and request the DSN number.

REPORTING TELEPHONE TROUBLES

All telephone troubles will be reported to extension 468-4357 (HELP). Base extensions must be reported as 926-1110. Pay telephones and base housing/dormitory residents should always report their private telephone troubles to 468-4357 (HELP) first, rather than

Southern Bell. The customer will be held responsible for charges incurred, if Southern Bell is called first and it's not their problem. All pertinent information must be given. Be very specific when giving office and building locations. Notify all personnel in the office of trouble reported to avoid duplicate reports. After duty hours, only emergency or mission essential telephones and/or equipment will be reported. If trouble is persistent and is not cleared in a reasonable time, call 468-4357 again and ask the status of the trouble report. If service is not restored satisfactorily, call the Voice Quality Control, extension 472-0064 or 472-0058.

REPORTING DSN TROUBLES

See DSN instructions.

OTHER EMERGENCY TYPE CALLS

Reference the front cover of the base telephone directory for emergency numbers. Other emergency calls on base, dial the base operator "0" and state that you have an emergency call and give the nature of the emergency. If you are off base and do not have the emergency numbers readily available, dial 926-1110 and announce the emergency to switchboard operations. Hold the line and switchboard operation personnel will ring the emergency number for you.

SECURE VOICE FACILITIES

Classified information will not be discussed or revealed over the administrative telephone (DoD 5200). Personnel who make disclosures of classified information over the telephone are subject to disciplinary action. If a classified subject must be discussed, use a STE terminal. STE terminals are easily accessible in each organization on Robins AFB. Terminals have different degrees of access; however, most are cleared up to and including secret conversations.

MINIMIZE

When an actual or simulated emergency arises, or is anticipated, it is necessary to reduce the volume of long distance telephone traffic ordinarily transmitted over U.S. military telecommunications networks. Minimize is applied to users of any or all U.S. military communications networks, IAW ACP 121 U.S. Sup 1. Notices of MINIMIZE action will be distributed through administrative channels. Stringent control of voice communications will be practiced until MINIMIZE is canceled by the imposing authority. Each level of command is responsible for explaining to its subordinates the meaning and importance of MINIMIZE so that it is fully understood and to make provisions for approval of calls to be placed under MINIMIZE conditions.

TELEFAX

1. **GENERAL DESCRIPTION:** TELEFAX is a general purpose type of facsimile equipment capable of transmitting fixed images over telephone lines, by acoustic or magnetic coupling.
2. **LOCATION:** If you have a need to use TELEFAX equipment the telephone and building numbers are listed throughout the organizational section in this directory.

VOICE MAIL

Voice Mail is a computerized voice messaging system that works in conjunction with the base telephone system. It allows users to send and receive voice messages from any touch-tone telephone 24 hours a day. Either the sender or the receiver must have an assigned mail box. Users must have a touch-tone telephone. To access Voice Mail follow the steps below.

General Information

1. Dial 472-5000 to access system.
2. Be prepared to dial a personal password when asked.
3. System will prompt you what to do next.
4. To send a message you need to know the mail box address of the person you are sending to. This will be a 7-digit number.
5. Follow the voice prompts to record and send the message.

If you have any questions concerning the Voice Mail System or how to obtain an assigned mail box, contact your organization Unit Requirements Officer or the 78th Communications Directorate, Telephone Services, 472-0087.

AUTOMATED HEALTH AND MORALE SYSTEM (AHAMS)

Only DoD Military and Civilians are authorized to use AHAMS. To request access: Send an e-mail to 78CS.AHAMS.PR@robins.af.mil to receive a Personal Identification Number (PIN). *NOTE* the email request must originate from a .mil email address. Access is granted up to thirty minutes a week (Local Time Zone EST.)

If you misplaced or lose your PIN, send an email request to get the PIN reissued; do not request a new PIN.

How to Use AHAMS:

1. Call DSN Number 312-468-2426.
2. Enter your nine digit PIN.
3. Dial the telephone number you are attempting to call (local to Robins AFB or 1+800 only).

OFFICIAL LONG DISTANCE CALLS

Official long distance telephone service is available over leased tie-lines, DSN, and commercial toll facilities. All military telephone facilities are subject to monitoring (DoD Directive 4640.6). On official calls placed through the base operator, furnish the following information:

1. Telephone number of individual originating call.
2. Telephone number being called.

DSN

See DSN instructions.

SECURE VOICE CALLS

See Secure Voice Facilities.

TELEPHONE PRECEDENCE SYSTEM

The Joint Uniform Telephone Communications Precedence System is directed for use by all authorized users of voice communications facilities of the Department of Defense (DoD). Since the effectiveness of the system depends upon cooperation on the part of the persons authorized to employ it, users must be familiar with the purpose to be served by each level of precedence category and the types of calls which may be assigned the respective precedence.

1. **FLASH** precedence is reserved for alerts, warnings, or other emergency actions having immediate bearing on national, command, or area security.
2. **IMMEDIATE** precedence is reserved for vital communications having immediate operational effect on tactical operations which directly concern safety or rescue operations and which affect the intelligence community operational role.

3. **PRIORITY** precedence is reserved for calls that require prompt completion for national defense and security, the successful conduct of war, or safeguarding life or property which do not require higher precedence. Normally **PRIORITY** is the highest precedence that may be assigned to administrative matters for which speed of handling is of paramount importance.
4. **ROUTINE** precedence is reserved for all other official communications.

DSN INSTRUCTIONS

GENERAL

The Defense Switched Network (DSN) is the principle long-haul voice communications network within the Defense Communications System, providing unsecure direct distance dialing service worldwide through a system of government-owned and leased automatic switching facilities. The purpose of DSN is to handle essential command and control, operations, intelligence, logistic, diplomatic, and administrative traffic.

PRECEDENCE

The National Communications System (NCS) is directed for use by all authorized users of voice communication facilities of the DoD. Since the effectiveness of the system depends upon cooperation on the part of persons authorized to employ it, users must be familiar with the purpose to be served by each level of precedence category and the types of calls that may be assigned the respective precedence.

USE OF THE DSN

1. Will be authorized for official communications only.
2. Will be restricted to:
 - a. Only those calls that are essential requiring timeliness that cannot be obtained by other means and would stand the scrutiny afforded a commercial toll call.
 - b. The minimum time required to accomplish the official business.
 - c. The use of a precedence level in consonance with the subject matter of the call as established in the NCS.
3. Will not be authorized for:
 - a. Use directly or indirectly by any nonappropriated fund activities (clubs, exchanges, and other unofficial activities) provided telephone service at post, camp, station or base level except when approved by the Joint Chiefs of Staff.
 - b. Calls within an installation, metropolitan area or those confined geographical areas where other existing government provided local telephone service is adequate.
 - c. Unofficial or personal calls.
 - d. Off-net extension calls into the commercial system at a distant PBX/PABX except where such extension has been previously approved by the local authorities controlling the switchboard.

TELEPHONE MONITORING

The users of the DSN system should be aware that this DoD system is for official use only and is subject to management monitoring in accordance with DoD Directive 4640.6, subject, "Communication Security Telephone Monitoring."

DSN USER CALLING INSTRUCTIONS

1. Routine DSN calls. Users with dial-access to DSN should:
 - a. Verify the DSN number.
 - b. Listen for dial tone.
 - c. Dial the DSN access code "94."
 - d. Dial the 7-digit DSN number.
2. Precedence and overseas DSN calls. To place precedence or overseas DSN calls, all users should:
 - a. Verify the DSN number.
 - b. Dial "0" and give the following information to the switchboard attendant:
 - i. Your name, office symbol & extension number.
 - ii. Precedence of the call.
 - iii. DSN number desired.
 - c. If you have to leave your office after booking a call, please do one of the following:
 - i. Arrange for someone else to take the call.
 - ii. Call the DSN operator and ask her to hold the call.
 - iii. Cancel the call.

DSN AND CONFERENCING ASSISTANCE

Assistance with DSN and call conferencing is provided by dialing "0." For DSN directory assistance, dial the base directory assistance operator at extension 468-1001.

DSN USER TROUBLE REPORTING

When trouble is encountered by users while utilizing DSN, the following procedures should be taken:

1. Retain the circuit connection and report the trouble immediately to Telephone Repair (468-4357).
2. Give the details of the DSN trouble as follows:
 - a. Your extension number and location.
 - b. The DSN number and location of the called party.
 - c. Brief description of the trouble and the time it occurred.
 - d. Items requiring repair such as frayed cords and broken telephone parts should be reported to 468-4357.

COMMERCIAL TOLL CALLS

Outgoing commercial calls to overseas locations must be approved by the organizational Telephone Control Officer (TCO) and recorded on AF Form 1072, "Authorized Long Distance Telephone Calls." NOTE: All commercial calls other than those placed from specially classmarked telephones, must be placed through the base operator with a control number from your TCO. Individuals will not attempt to place unauthorized long distance calls through the commercial operator from a base extension. Public Law, (31 U.S.C. 1348) prohibits expenditure of appropriated funds for personal and unofficial long distance calls and current directives specifically require TCOs to approve official long distance calls. All personnel are reminded that offenders will be required to pay for their calls and will be subject to disciplinary action.

TOLL-FREE

All Robins AFB telephone subscribers with access to class "A," "B," and "C" service are encouraged to use toll-free numbers if available to commercial customers instead of placing FTS 2000 calls. To determine if a commercial customer has a toll-free number subscriber should dial the toll-free information number (99+1+800+555+1212) and ask for directory assistance. Once you have obtained the number, you would dial (99+1+800+XXX+XXXX).

USE OF OFFICIAL TELEPHONES FOR PERSONAL BUSINESS

Personal calls (such as calls to speak to spouse/minor children or to arrange for emergency repairs to personal property) that must be made during working hours may be authorized as being in the best interest of the government if the following criteria are met:

1. It does not adversely affect the performance of official duties.
2. It is of reasonable duration and frequency.
3. It could not reasonably have been made at another time.
4. In the case of long distance call is:
 - a. Charged to employee's home telephone number.
 - b. Made to an 800 (toll-free) number.
 - c. Charged to a personal telephone credit card.

All class A, B, and C telephone users can dial outgoing Collect, Bill to Third Number, and Credit Card calls. To access these services call one of carriers listed below:

AT&T	(800) 225-5288
BELL SOUTH (ATT)	(800) 235-5768
MCI	(800) 265-5328

SERVICE AND EQUIPMENT

Requests for all base telephone installations and disconnections will be submitted through the

appropriate TCO Requests will allow sufficient lead time (see AFI-33-111). The following information is required: organization, symbol, building number, telephone numbers involved, the present and proposed location of equipment, class of service required, name and telephone number of person familiar with work to be accomplished, and directory information as required. Requests involving six or more telephones will require a floor plan depicting locations of desks, telephone instruments, and associated telephone numbers. The request will be assigned by the communications monitor of the activity requesting the service. Interoffice rearrangements will be kept to a minimum. All requests for service must be fully justified.

When a building or office in which telephones are installed is vacated, a disconnect service request (Project, Workflow, Requirements, and Resource Manager) will be submitted by the vacating activity through the appropriate TCO.

TELEPHONE DIRECTORY ACCESS (.MIL ONLY)

All military and government civilian employees can now access the Robins AFB Telephone Directory files at: <https://e-directory.robins.af.mil/index.cfm>.
