

Air Force Materiel Command

Update on Air Force Initiatives

AFMC 5-Center Construct

15 Dec 11

US NATIONAL DEBT

“It's time to fundamentally change the way that we do business in Washington. To help build a new foundation for the 21st century, we need to reform our government so that it is more efficient, more transparent, and more creative. That will demand new thinking and a new sense of responsibility for every dollar that is spent.”

President Barack Obama, 25 Apr 09

Resource Challenges

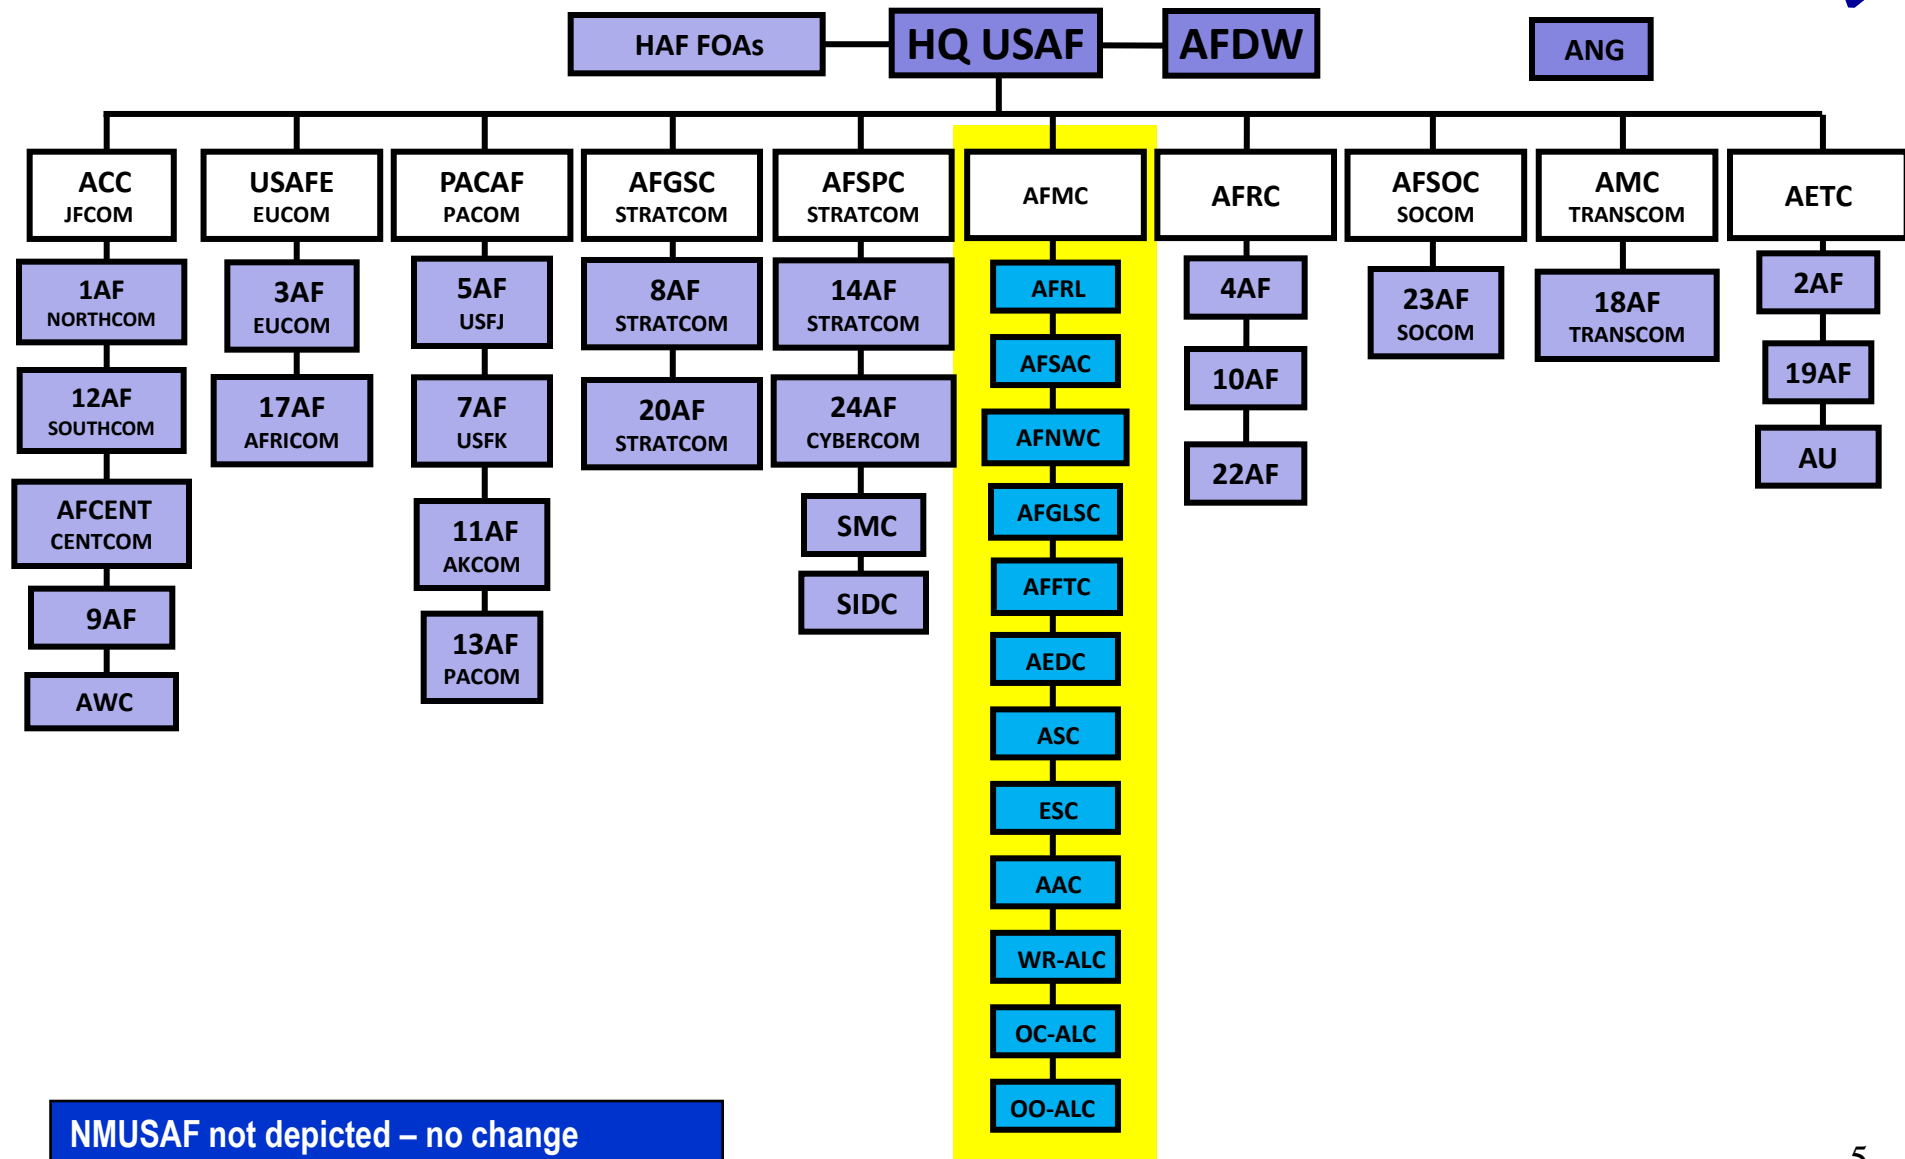

- **United States fiscal environment requires DoD and AF find more efficient and effective ways of doing business**
- **AF must help meet current fiscal challenges outlined by SECDEF**
 - **Requires strategic approach to meet challenge**
 - **Preserve maximum capabilities: science & technology, acquisition, test, and sustainment**
 - **Strategic Solutions aimed at reducing “tail/overhead” while preserving “tooth/core capability”**
- **Look for opportunities to increase effectiveness**
 - **Institutionalize standard business practices**
 - **Streamline decision making processes and authorities**
 - **Align missions – single voice to all stakeholders**
- **AF announced several initiatives—two have large impact on AFMC workforce; 5-Center Restructure and Global Base Support (GBS)**

AFMC 5 Center Construct

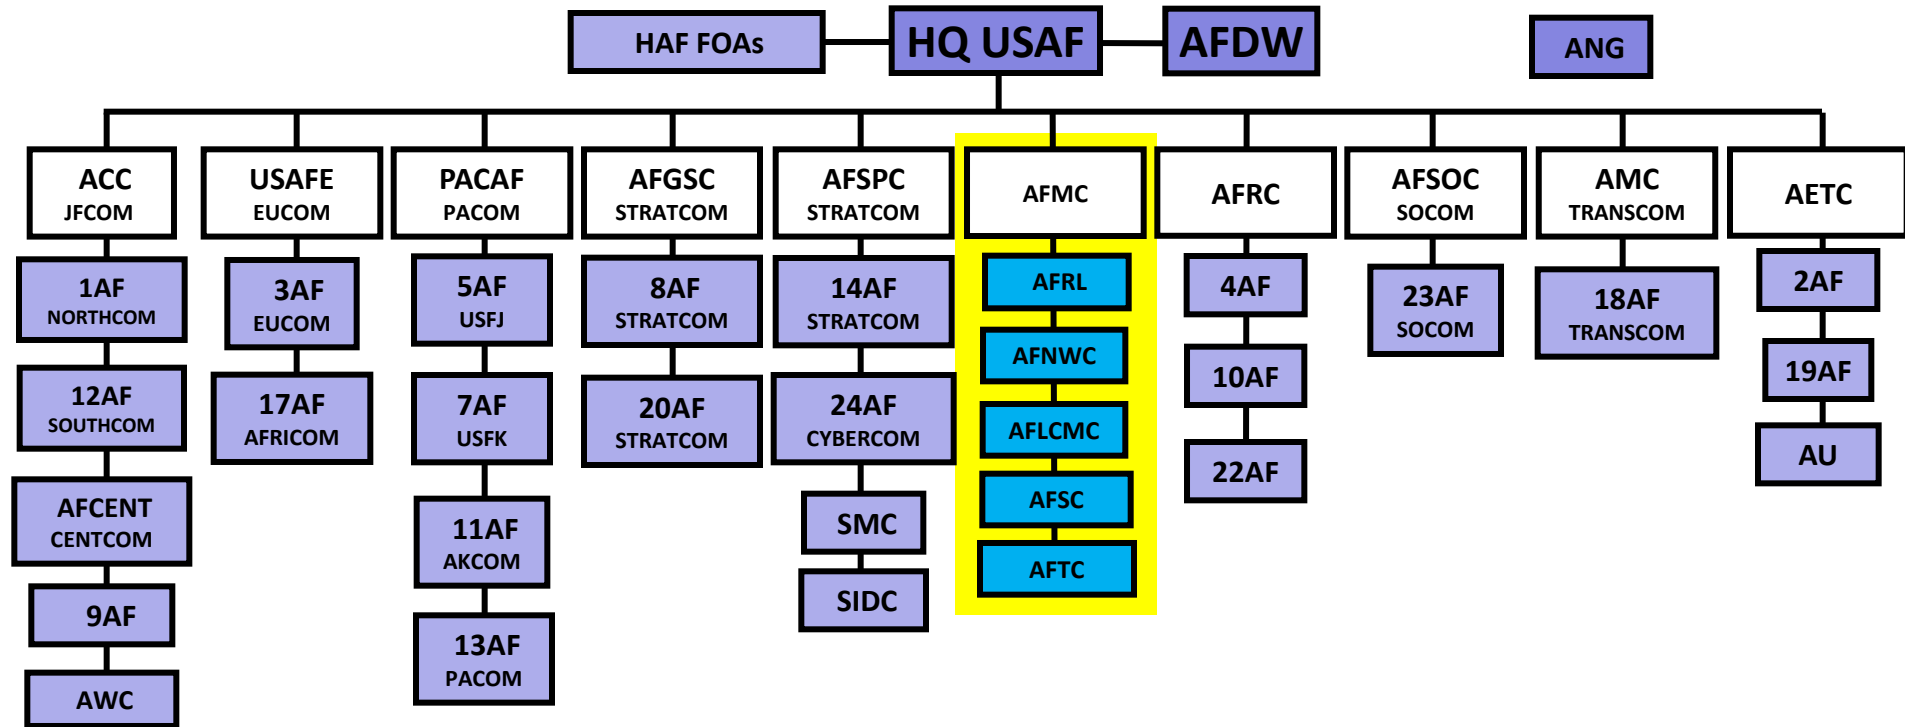

Current AF MAJCOMs & NAFs

Proposed AF MAJCOMs & NAFs

- Reductions Focused on AFMC Staff / Overhead
- No Reduction in Number of Bases
- Minimal / No Relocation of Personnel

Air Force Materiel Command

Mission Areas

Technology

Basic research and technology development to enable both evolutionary and revolutionary air, space and cyberspace capabilities

Acquisition

Professional lifecycle acquisition management to deliver war-fighting capabilities affordably and on time from cradle to grave

Testing

Unique facilities and expertise to validate and improve these capabilities in controlled and real-world environments

Sustainment

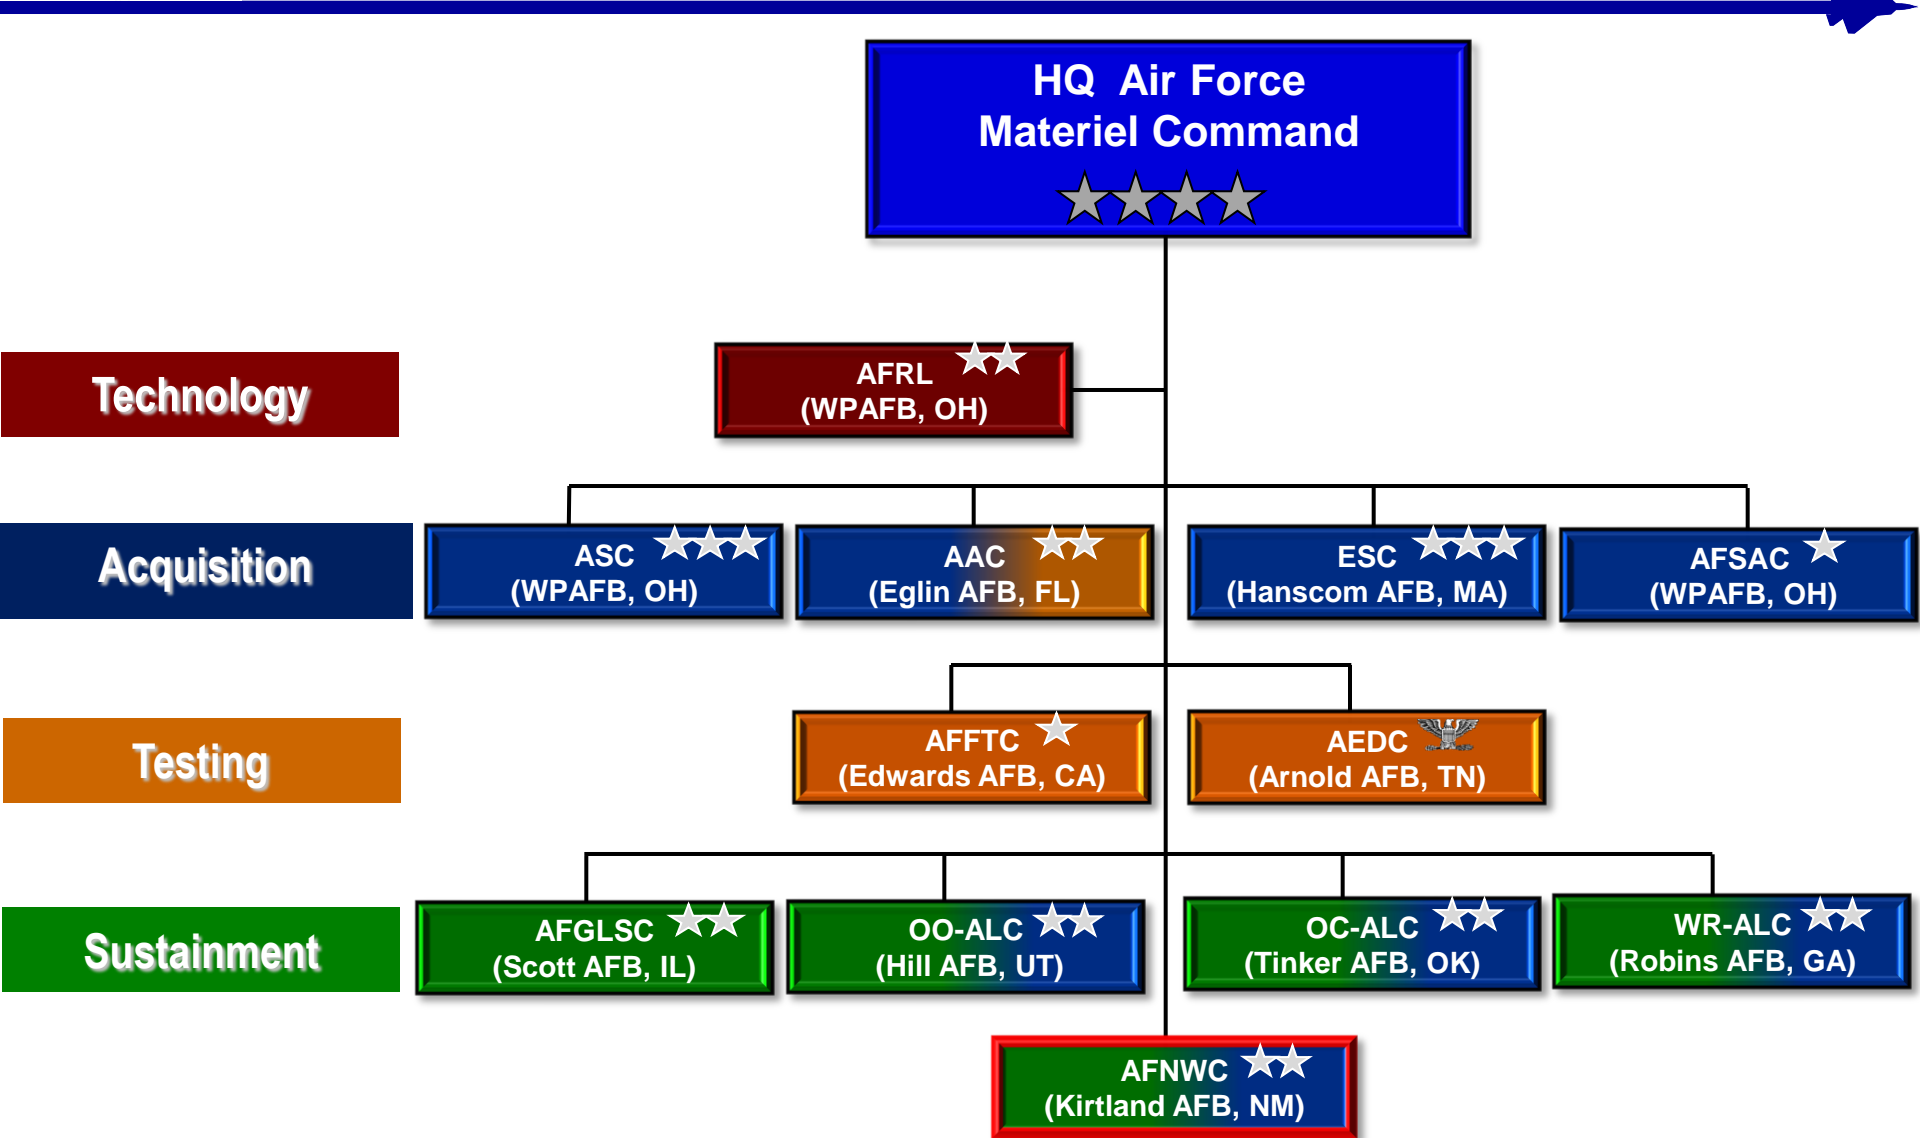

Integration and management of maintenance/supply chain capabilities

12 Centers Performing 4 Assigned Missions

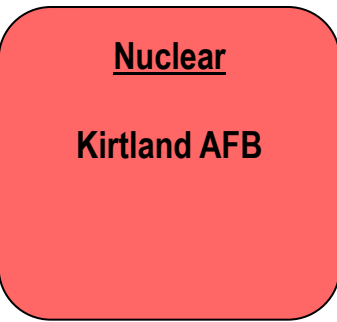

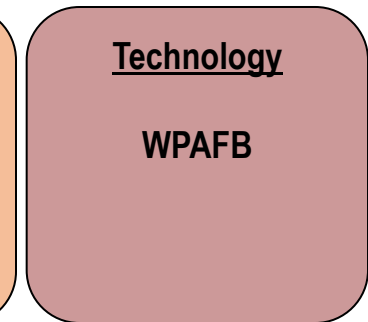

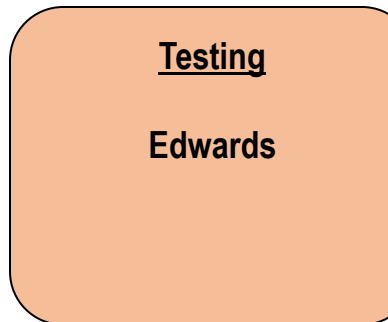

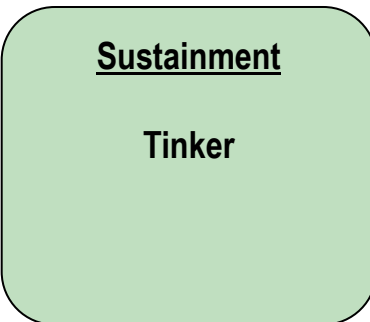

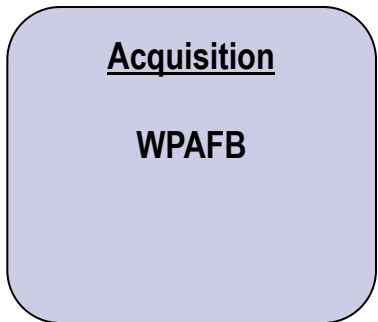

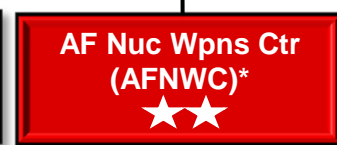

Air Force Materiel Command

Current

Air Force Materiel Command To-Be State

*AFNWC a hybrid of acquisition and sustainment activities

AF and AFMC Way Ahead

- **Additional shaping measures affecting military, civilian, and support contractors are forthcoming**
- **Air Force committed to taking care of personnel and supporting core capabilities in constrained fiscal environment**
- **All tools will be utilized to minimize impact to workforce**
 - **VERA/VSIP, attrition, vacant positions, and hiring controls**

“We are making difficult choices about how to deliberately restructure and posture the force and will continue to look for new ways of accomplishing the mission. We can’t afford business as usual.”

General Norton Schwartz, Chief of Staff of the Air Force

Air Force Materiel Command Mission Areas

Technology

Basic research and technology development to enable both evolutionary and revolutionary air, space and cyberspace capabilities

Acquisition

Professional life-cycle acquisition management to deliver war-fighting capabilities affordably and on time from cradle to grave

Testing

Unique facilities and expertise to validate and improve these capabilities in controlled and real-world environments

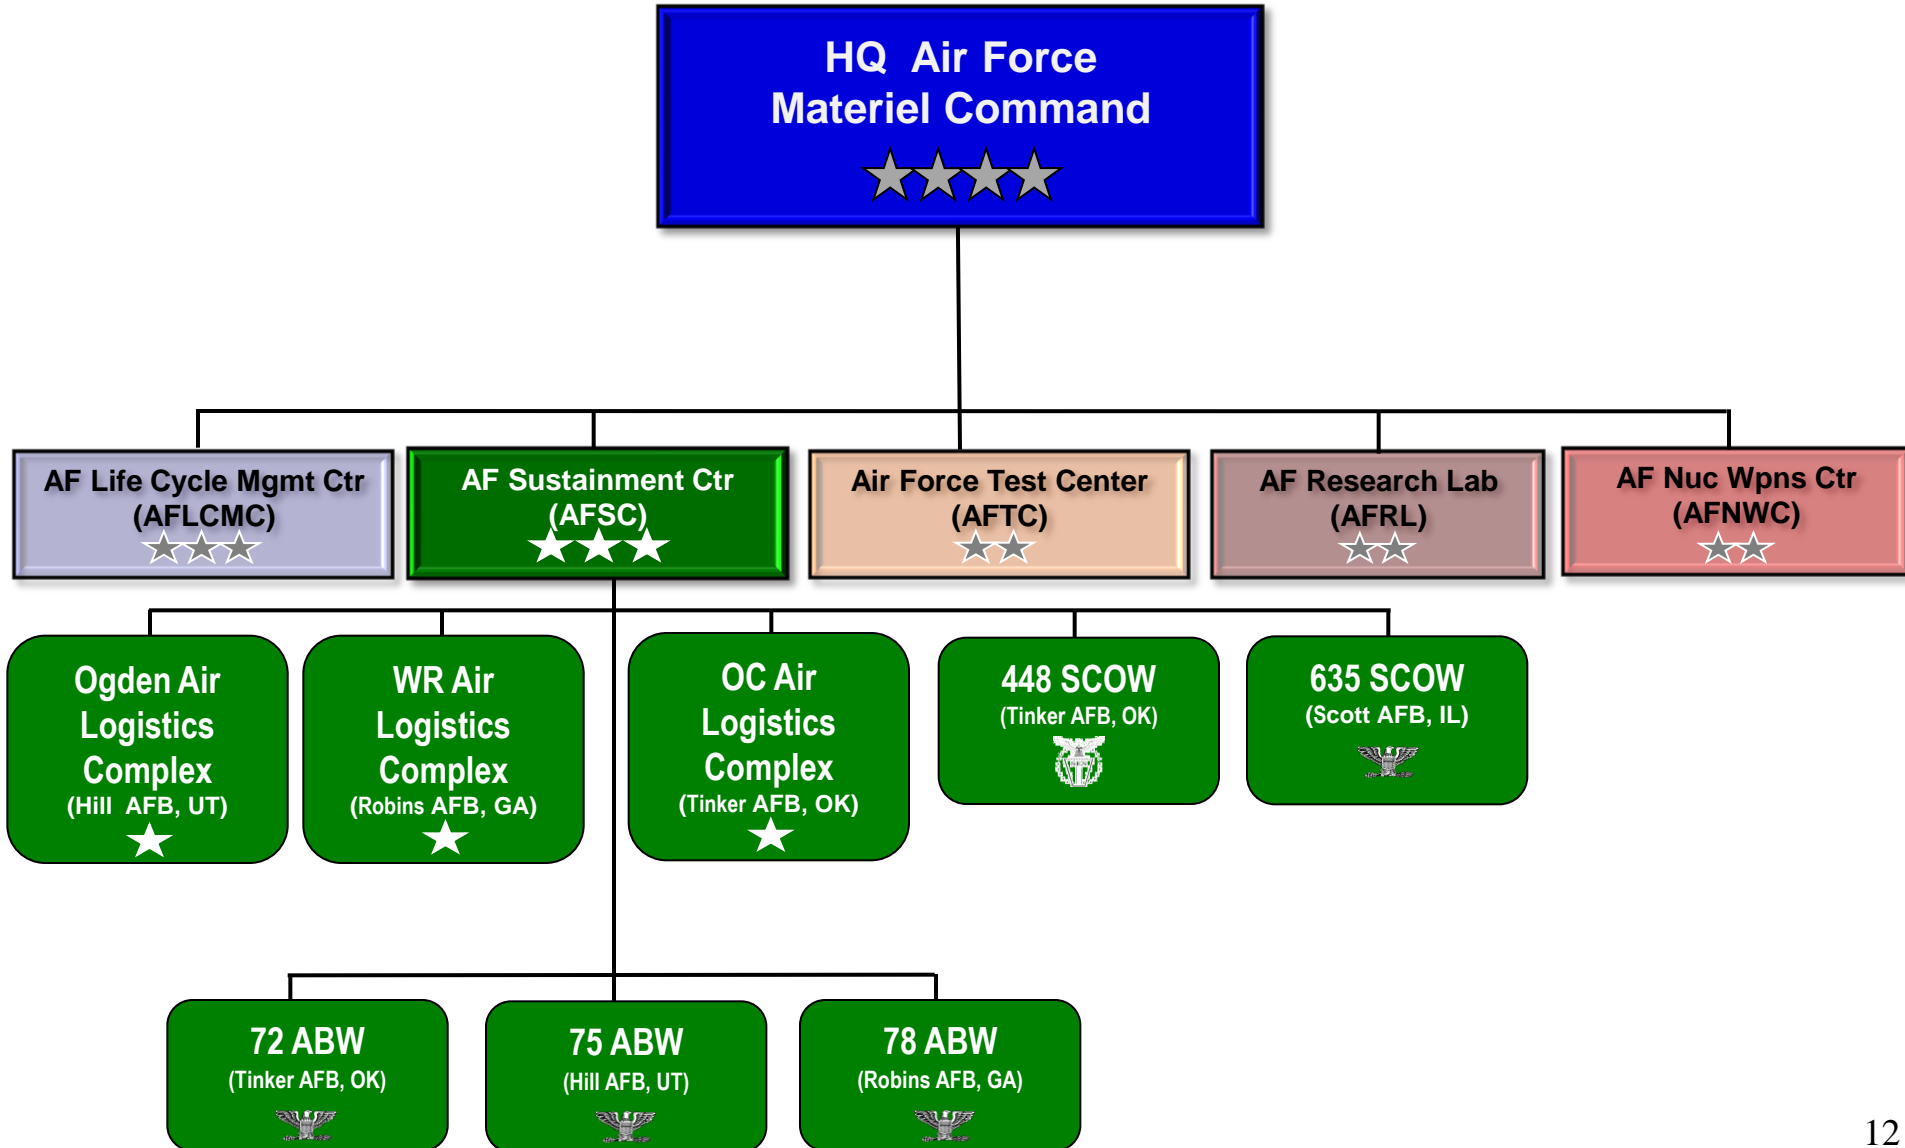

Sustainment

Integration and delivery of warfighting capabilities

Air Force Sustainment Center

Tinker AFB, OK

AFSC Roles & Responsibilities

Supply Chain

- AF DLR & AF Consum Mgt
- Demand/Supply Planning
- Asset Sourcing & Distribution
- Item Engineering & Tech Support
- AF SE&V & NWRM SCM
- Field Support

Enterprise

- Participate in AOAs
- Engaged in Acq Strategies
- Life Cycle Mgmt Plans
- Sustainment Technology
- Proper Tech Data

Sustainment C2

- Base/SC Hotline
- Repair Network Exec
- MOC
- Field Support

Depot Maintenance

- Aircraft & Heavy Mx
- Component Mx
- Software Mx
- Missile Mx
- Regeneration
- Field Support

AF Sustainment Center

- Integrated Supply and Maintenance policy, planning and execution
- Nuclear Weapons Related Material Management and Maintenance
- Technical Support and Management
 - Sustainment C2

Air Base Wing

- Base Operations
- Communications
- Infrastructure
- Security

Warfighter Expectations:

- Deliver Capability on Time on Cost
- Deliver Effective and Efficient Organic Depot Maintenance
 - Execute the Air Force's Global Supply Chain
 - Provide Responsive Field Support
