

## Golden Crab Amendment 6

Implement a catch share program for golden crab.

### These management actions would include:

- Identify eligibility requirements for initial allocation of privileges to fish a portion of the ACL.
- Allocate privileges to fish a portion of the ACL to individual entities and define criteria for transferability.
- Establish a cap on ownership of privileges.
- Designate a set-aside for new entrants and for borrowing.
- Implement a use or lose provision.
- Devise a method for recovery of the costs of administering, monitoring, and enforcing management of the golden crab fishery.
