Subject: NNMI Support

Dear AMP & NNMI Program Office,

I wanted to voice my strong support for the National Network for Manufacturing Innovation (NNMI). For the past 10 years my organization has been facilitating the transition of advanced manufacturing technologies and methodologies to the US Defense organic and industrial manufacturing base. So I speak from a knowledgeable position when I stress the importance that the NNMI can have for not only the defense community but all of domestic manufacturing. The faster that we can transition the wealth of manufacturing technology resident in many of our universities and technology developers and get it into the hands of US-based manufacturers, the stronger economically and more secure we will be.

Thanks you for organizing this most worthwhile effort.

Best regards,

Ralph L. Resnick

President & Executive Director

National Center for Defense Manufacturing & Machining (NCDMM)
