

**COMPACT GOAL**

This Compact aims to expand and improve the reliability of water supply, sanitation, and drainage services in select urban and peri-urban areas of the capital city of Lusaka with the objective of decreasing the incidence of water-related diseases, generating time savings for households and businesses, and reducing non-revenue water in the water supply network.

**COMPACT AT A GLANCE**

Concept Paper Received.....	02-26-2010
CN on Intent to Negotiate.....	01-12-2012
Board Approval.....	03-22-2012
Compact Signed.....	05-10-2012

■ Project Preparation    ■ Project Implementation

<b>Constraints Analysis</b>	
11-23-2009	The Government of the Republic of Zambia (GRZ) initiated a constraints analysis that identified four main binding constraints to economic growth -infrastructure, externalities, micro and macro business climate, and skilled labor. To elicit feedback on these constraints, in December 2009, the GRZ initiated a targeted consultative process that included over 500 individuals representing government, private sector, civil society, and donors.
<b>Concept Paper Received</b>	
02-26-2010	The Government of the Republic of Zambia (GRZ) developed and submitted six concept papers for MCC consideration. Three proposed projects were eliminated from the outset based on implementation and environmental and social assessment risks. Ultimately, one project was selected to be included in the Zambia Compact - the Lusaka Water Supply, Sanitation and Drainage project.
<b>CN on Intent to Negotiate</b>	
01-12-2012	The Congressional Notification was submitted on January 12, 2012.
<b>Board Approval</b>	
03-22-2012	MCC's Board approved the Zambia Compact on 3/22/2012.
<b>Compact Signed</b>	
05-10-2012	The Compact was signed on May 10, 2012 in Lusaka, Zambia.
