

# JOBS —THROUGH— GROWTH ACT

H.R. 3400 creates jobs by growing the economy, not the government.

- Create A Simpler, Flatter, Fairer Tax Code
- Cut Through Red Tape
- Tear Down Barriers to Energy Production
- Keep America...

rsc.jordan.house.gov

## A Simpler, Flatter, Fairer Tax Code

- Allows taxpayers to scrap the current tax code and switch to a new one with just two rates (15% and 25%) and generous deductions for families.
- Keeps jobs from moving overseas by reducing the corporate tax rate to 25% and targeting loopholes for elimination.
- Encourages companies to bring money made overseas back into the U.S. economy.
- Helps small businesses, family farms, investors, and other job creators by repealing the Death Tax, the AMT, and the investment tax on inflation.

## Cutting Through Red Tape

- Calls a timeout on new regulations that impose significant costs on job creators until the economy bounces back.
- Provides small businesses relief from red tape with the ability to opt out of rules imposed since the start of the recession.
- Gives small businesses with up to 200 employees an exemption from many regulations.
- Requires federal bureaucrats to consider a new rule's impact on small businesses and get Congressional approval for major regulations.

## Increasing Energy Production

- Provides better access to energy resources by curtailing frivolous litigation and unlocking areas for exploration, both on and offshore.
- Reduces red tape, mandates, and prohibitions that artificially increase the price of gasoline.
- Green lights the Keystone pipeline, which President Obama has delayed.
- Gives a one-year extension to offshore leases affected by the White House's drilling moratorium.
