SUBJECT: Domestic Freight Fuel-Related Rate Adjustment Table.

Ref: SDDC Fuel-Related Rate Adjustment Policy (TR-12) dated 8 Jan 2007.

1. Fuel-Related Rate Adjustments are based on the national average of diesel fuel prices as published by the Department of Energy (DOE), Energy Information Administration (EIA) on Monday of each week (or first working day after a Monday if Monday is a Federal holiday).
2. The adjustment for the corresponding shipping period is a result of comparing the EIA price with the SDDC Fuel Policy baseline price. This comparison determines the applicability of a Fuel-Related Rate Adjustment. In the below table, the Shipment Period column indicates the effective period of the rate adjustment. It is very important to note shipments must be picked up during this time period for the rate adjustment to apply.
3. The table below is to be used to determine the Fuel-Related Rate Adjustment under the Domestic Freight Program. Column 4 lists the Fuel-Related Rate Adjustment for shipments subject to the \$2.50 baseline; for example, Domestic Freight Program movements based on voluntary and negotiated tenders occurring on or after 8 Jan 07. Column 5 lists the Fuel-Related Rate Adjustment for shipments subject to the \$1.30 baseline; for example, FAR contracts referencing an earlier version of TR-12. For Domestic Freight Program movements occurring on and after 8 Jan 07, SDDC will cease payments for a Fuel-Related Rate Adjustment on neither Spot-Bid movements nor any rail movements. For more information please review the above referenced policy letter.
