

## *North Florida/South Georgia VHS Pharmacy Residency Program*

The pharmacy residency program consists of ASHP-accredited postgraduate year one (PGY1) programs (geriatrics track, ambulatory care track, pharmacy practice and hospital practice track) and postgraduate year two (PGY2) programs (critical care, palliative care/pain management, ambulatory care, psychiatry and pharmacy administration). The PGY2 program in ambulatory care is in ASHP pre-candidate status.

The primary practice site during the residency for most of the programs is the Gainesville VAMC. Exceptions are the three pharmacy practice track residents at the Lake City VAMC, one ambulatory care track residency position located at the Jacksonville Outpatient Clinic and one at the Tallahassee Outpatient Clinic. Most residents will have learning experiences scheduled at facilities other than their primary site during the course of the year.

There is ample opportunity to be involved in patient care, education, management and research. Residents are required to complete a research, clinical or administrative project and are encouraged to present at a professional meeting and required to submit a manuscript suitable for publication by the end of the residency.

## *North Florida/South Georgia VHS*

The North Florida South Georgia Veterans Health System is a comprehensive and integrated health care system. We offer primary health care services as well as highly specialized, technologically advanced clinical care. The system supports teaching and research programs through its affiliations with the University of Florida Health Science Center and other colleges and universities.

The Gainesville VAMC campus includes a 250-bed inpatient facility and an outpatient center with primary care and specialty clinics. The Lake City VAMC includes a 40 bed inpatient facility, more than 200 long term care beds, and an outpatient center with primary care as well as specialty clinics. The system also contains three outpatient clinics in Jacksonville, Tallahassee, and The Villages that provide primary care as well as specialty services including having a pharmacy on-site. There are also several smaller community based outpatient clinics that provide primary care and mental health services.
