We are proud of our tradition of service, past present and future.

The Captain James A. Lovell Federal Health Care Center is dedicated to providing a comprehensive health care package to America's veterans, active duty and DoD beneficiaries. We offer the full range of health care services from prevention through cardiac and organ transplant surgery.

Mission: As the first integrated federal health care facility, we are proud to provide comprehensive, compassionate, patient-centered care to our veterans and DOD beneficiaries while maintaining the highest level of operations readiness.

Vision: Creating the future of federal healthcare through excellence in world-class patient care, customer service, education and research.

The Captain James A. Lovell Federal Health Care System supports innovation, empowerment, productivity, accountability and continuous improvement. Working together, we provide a continuum of high quality healthcare in a convenient, responsive, caring manner—and at a reasonable cost.

October 2010

PGY2 Psychiatric Pharmacy Residency...

Purpose

- Expand the resident's understanding of psychiatric conditions and psychotropic medications.
- Create a well rounded practitioner that will be prepared to function in an acute inpatient, outpatient, long term care, or academic setting focusing on mental illness.
- Develop communication skills that will be effective for educating health care practitioners, students, and patients at all different cognitive levels.
