

Program Description

This program will offer the resident opportunities to extensively practice in ambulatory care pharmacy. The resident will also serve veterans in the acute and long term care settings. The resident will demonstrate leadership, communication, and management skills as an active participant in performance improvement initiatives. The resident will leave this program with confidence to practice in multiple patient care settings as a clinical pharmacist.

Purpose Statement

Graduates of the VA Central Iowa Health Care System residency program will be prepared to become a clinical pharmacist in an ambulatory care setting, a clinical pharmacist in a hospital setting or continue on with a Post-graduate year 2 (PGY2) training in area of choice.
