

South Texas Veterans Health Care System Pharmacy Residency Programs San Antonio, Texas

The South Texas Veterans Health Care System is a comprehensive health care network that services the veterans of South Texas. It is composed of two hospitals and an extensive network of clinics. The main hospital, Audie L. Murphy Memorial Veterans Hospital, has 350 beds, including three intensive care units, an inpatient spinal cord injury unit, an inpatient long-term rehabilitation unit, two inpatient psychiatry units, and a bone marrow transplant unit, in addition to numerous primary care and specialty outpatient clinics.

Mission and Vision of South Texas Veterans Health Care System

***Mission:** To improve the health and quality of life of our patient community by providing appropriate, compassionate and quality care, to conduct education and research activities, and to support the department of defense*

***Vision:** To be a health system of choice for veterans and other beneficiaries and to be recognized as a center of excellence and an employer of choice*

Clinical Pharmacy is very involved in the care of our veterans. We have 14 clinical pharmacy specialists covering areas such as HIV, Primary Care, Hematology and Oncology, Psychiatry, Infectious Diseases / Critical Care, Anticoagulation, Geriatrics and Spinal Cord Injury. Most of these pharmacists also retain adjunctive faculty appointments with the University of Texas at Austin College of Pharmacy. Our VA-funded pharmacy practice residency and pharmacy specialty residencies also highlight our commitment to quality pharmaceutical care. We have specialty residency positions in Geriatrics, Infectious Diseases, Primary Care, Hematology/Oncology, and Psychiatry. Our residents are appointed as Clinical Instructors with the College of Pharmacy and have opportunities in both didactic and experiential instruction. VA residents also have the opportunity to work with other local pharmacy residents and masters' students from the University of Texas.

For more information about individual programs, please visit the following University of Texas College of Pharmacy URL links below. Come join our team, and learn first hand about excellence in pharmacy practice.
