

**Department of Veterans Affairs  
Veterans Health Administration**

Date

Dear Veteran:

You are receiving this letter because your **Propafenone tablets** may have a higher dose than listed on the label. **Propafenone** is a medication used to control your heart rhythm.

- We were unable to contact you by phone on\_\_\_\_\_.
- Please return ALL of your OLD supply of **Propafenone** to  
\_\_\_\_\_.
- Enclosed is a NEW supply of **Propafenone** that you should begin taking with your next dose.

Symptoms of too much Propafenone may include an irregular heartbeat, a slow heartbeat, extreme drowsiness, or low blood pressure. **Call your Healthcare Provider and/or seek care immediately if you feel that your heart is beating faster, or is irregular more often or for a longer period of time.**

Contact your VA Pharmacy if you have any questions about this letter or your medications.

Sincerely,
