### Institutional Adaptation

Compiled by Lenore K. Garder, MLIS  
October 2011

Institutional adaptation is a special theme within the U.S. Army War College curriculum. The unique challenges of operating in an era of persistent conflict with shrinking resources, and in the context of a joint, interagency, intergovernmental and multinational environment, require that our armed forces be able to adapt in order to meet these challenges successfully. This bibliography provides a selection of resources readily available through the USAWC Library on this topic, and is intended as a starting point for research.
