

## Public-Safety Broadband Demo Network Meeting Set for March (2/1/12)

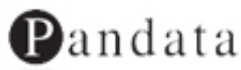

The federal Public Safety Communications Research (PSCR) program will hold its third 700 MHz public-safety broadband demonstration network stakeholder meeting March 6 – 7 at the Omni Interlocken Resort and Hotel near Boulder, Colo.

Participants will learn about progress in PSCR's demonstration network testing, including:

- Phase one test results and lessons learned;
- Current study item findings;
- Recent public-safety broadband requirements gathering and standards development activities;
- Preliminary voice over broadband audio quality testing findings and future plans; and
- Nationwide broadband modeling and simulation efforts and results being conducted by NIST.

The network is being deployed in three phases. [Several vendors have completed phase one of the testing.](#) The two-day meeting will bring together representatives from public safety, federal agencies, industry and academia. To register and reserve rooms for the meeting, click [here](#)"

Registration must be completed by Feb. 29, and space is limited.
