

CoRIS Place Keyword Thesaurus by Country/Territory - 1/30/2013
Pacific Ocean (*without the Great Barrier Reef*)

This keyword list contains Pacific Ocean (excluding Great Barrier Reef) place names of coral reefs, islands, bays and other geographic features in a hierarchical structure. The same names are available from "Place Keywords by Ocean - Pacific Ocean (without Great Barrier Reef)" but in a hierarchy of ocean, seas and region name. Each place name is followed by a unique identifier enclosed in parentheses. The identifier is made up of the latitude and longitude in whole degrees of the place location, followed by a four digit number. The number is used to uniquely identify multiple places that are located at the same latitude and longitude. This is a reformatted version of a list that was obtained from ReefBase.
