Certificate of Analysis

Basalt, Hawaiian Volcanic Observatory, BHVO-1

Material for BHVO-1 was collected from the surface layer of the pahoehoe lava that overflowed from Halemaumau in the fall of 1919. Details of the collection, preparation, and testing are available (Flanagan, F.J., 1976).

Element concentrations were determined by cooperating laboratories using a variety of analytical methods. Certificate values are based primarily on international data compilations (Abbey, 1982, Flanagan, 1976, Govindaraju, 1994).
