

GLERL EEO Advisory Representative: Anne Clites

[Anne Clites](#)

I'm a Physical Scientist at the Great Lakes Environmental Research Laboratory in Ann Arbor, Michigan. I support our Hydrologist and Ice Climatologist by assisting with data, analysis, web products and reports. I've been GLERL's EEO Advisory Committee rep since 2009 and have enjoyed working with the GLERL EEO committee to raise the visibility of EEO goals here at GLERL.
