

GMD EEO Advisory Representative: Misti Hinson

[Misti L. Hinson](#)

I started working at NOAA in Aug 2007, after retiring from the Air Force in 2006. I'm a Secretary for the Global Monitoring Division (specifically the Radiation and Observatories Groups), where I support approximately 35 scientists and technicians. My main duties consist of travel arrangements, time and attendance, bank cards and purchase requests. My hobbies are working out, hiking, home improvement, and reading. My Grandma Walker (who is now 94 years old) calls me Mitterlou!
