**\*\*If Parents have a concern they should always start with the classroom teacher. If the issue is not resolved then their next step is to make an appointment with the school Principal. A conference will then be set up with the student's teacher, parent & Principal. Our main goal is to begin at the lowest level to solve any issues concerning students. The school also has a school advisory committee. If parents have any issues concerning day to day activities at the school, they are welcome to visit their child's classroom and attend SAC meetings.\*\***
