

MICARE REGISTRATION FORM

MICARE FACTS AND REGISTRATION

MiCare Facts

What is MiCare?

MiCare is a user-friendly, confidential online healthcare messaging system that allows patients to communicate with their healthcare team, get test results, request prescription refills and maintain their own personal health record. In the future, information from your electronic health record will be available to transfer directly into your personal health record.

Who can use MiCare?

MiCare is scheduled for implementation Air Force wide. That means that once patients have registered, they will remain in the system. When PCS-ing, your account will travel with you so you are able to connect with your new clinic at your new duty station.

Is my privacy protected?

When using MiCare, a secure connection is established with the browser to validate that your personal information is encrypted and coded for transmission and storage. This ensures that your information and messages are only accessible by you and your healthcare team. In addition, MiCare is in compliance with the Health Information Portability and Accountability Act of 1996 (HIPAA).

How do I register?

Fill out the registration form below and return it to your Medical Treatment Facility (MTF). An MTF staff member will verify your identity using your military ID card. Following the in-person submission of your registration, you will receive an email asking you to complete the registration process online.
