Foreword

This booklet provides a list of the product lines and systems for which our Project Managers, Product Managers and Product Directors are responsible. The list includes systems (in the sustainment phase) for which the PM has “life cycle” management responsibility, yet is managed by one of the U.S. Army

The product lines and systems listed herein will be updated Semi-Annually. Any additions, changes, or deletions should be reported to the PEO Operations Office. Updates will be posted to our PEO CS&CSS community page on AKO.

NOTE: All programs listed fall within one of the following Joint Capabilities Integration and Development System (JCIDS) acquisition activities (or phases) and are classified as such throughout this booklet:

Acquisition Lifecycle Phases

- 1 - Materiel Solution Analysis (Pre-MS A)
- 2 - Technology Development (Pre-MS B)
- 3 - Integrated System Design (Pre-MS C)
